

**ANTARES PRIVATE CREDIT FUND
SUPPLEMENT NO. 2 DATED AUGUST 21, 2026
TO THE PROSPECTUS DATED APRIL 30, 2026**

This prospectus supplement (“Supplement”) is part of and should be read in conjunction with the prospectus of Antares Private Credit Fund (the “Fund”), dated April 30, 2026 (as supplemented to date, the “Prospectus”). Unless otherwise defined herein, capitalized terms used in this Supplement shall have the same meanings as set forth in the Prospectus.

The purpose of this Supplement is to (i) update the Prospectus and (ii) include our Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2026.

The following updates to the Prospectus are effective immediately:

The following replaces in their entirety the paragraphs in respect of Alabama, California and Idaho under the “Suitability Standards” section of the Prospectus:

Alabama—Alabama investors must have either (a) a minimum annual gross income of \$100,000 and a minimum net worth of \$100,000, or (b) a minimum net worth of \$350,000. In addition, Alabama investors must limit their aggregate investment in us and other non-traded direct participation programs to 10% of their liquid net worth at the time of their investment. This concentration limit shall not apply to investments made as a result of participation in a distribution reinvestment plan. For these purposes, “liquid net worth” is defined as that portion of net worth consisting of cash, cash equivalents, and readily marketable securities. The foregoing concentration limit does not apply to any investor that is an “accredited investor” as defined in Rule 501(a) of Regulation D under the Securities Act of 1933.

California—California residents may not invest more than 10% of their liquid net worth in us and must have either (a) a liquid net worth of \$150,000 and annual gross income of \$150,000 or (b) a liquid net worth of \$350,000.

Idaho—Purchasers residing in Idaho must have either (a) a minimum annual gross income of \$100,000 and a minimum net worth of \$100,000; or (b) a minimum net worth of \$350,000. Net worth shall be determined exclusive of home, home furnishings, and automobiles.

The following replaces in its entirety the risk factor captioned “The Fund is Subject to Risks Relating to Exculpation and Indemnification” under the “Risk Factors” section of the Prospectus:

The Fund is Subject to Risks Relating to Exculpation and Indemnification. *The Fund is required to indemnify the Adviser, the members of the Board and each other person indemnified under the Declaration of Trust of the Fund and the Bylaws of the Fund (as amended or restated from time to time, the “Bylaws”) for liabilities incurred in connection with the Declaration of Trust, the Bylaws, the Advisory Agreement and the Fund’s activities, except in certain circumstances. Subject to the limits on indemnification under Section 17(h) of the 1940 Act, the Declaration of Trust provides that the Fund shall not indemnify such persons to the extent liability and losses are the result of such persons’ negligence or misconduct in the case of a person who is not an Independent Trustee, or gross negligence or willful misconduct in the case of an Independent Trustee. Subject to the limits on indemnification under Section 17(i) of the 1940 Act, the Advisory Agreement provides that the Adviser shall not be protected against any liability to the Fund or its shareholders by reason of willful misfeasance, bad faith or gross negligence on the Adviser’s part in the performance of its duties or by reason of the reckless disregard of its duties and obligations. The Fund will also indemnify certain service providers, including the Administrator and the Fund’s auditors, as well as consultants and sourcing, operating and joint venture partners. Such liabilities may be material and may have an adverse effect on the returns to the Fund investors. The indemnification obligation of the Fund would be payable from the assets of the Fund. The application of the indemnification and exculpation standards may result in Fund investors bearing a broader indemnification obligation in certain cases than they would in the absence of such standards. As a result of these considerations, even though such provisions will not act as a waiver on the part of any investor of any of its rights which are not permitted to be waived under applicable law, the Fund may bear significant financial losses even where such losses were caused by the negligence or other conduct of such indemnified persons.*

The following replaces in its entirety the portion of the second sentence (up to the first colon) under the “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Expenses”, “Plan of Operation – Expenses” and “Advisory Agreement and Administration Agreement – Payment of Our Expenses Under the Investment Advisory and Administration Agreements” sections of the Prospectus:

Notwithstanding anything to the contrary stated in this Section, the following apply:

- (a) All expenses of the Fund shall be billed to and paid by the Fund;
- (b) The Adviser, the Administrator and the Sponsor (as defined in the NASAA Omnibus Guidelines Statement of Policy adopted on March 29, 1992 and as amended on May 7, 2007 and from time to time (the “Omnibus Guidelines”)) may be reimbursed for the actual cost of goods and services used for, or by, the Fund and obtained from persons other than affiliates of the Adviser, the Administrator, the Sponsor, or the Fund;
- (c) The Adviser, the Administrator and the Sponsor may be reimbursed for the administrative services necessary to the prudent operation of the Fund; provided, the reimbursement shall be the lower of the Adviser’s, the Administrator’s and/or the Sponsor’s actual cost or the amount the Fund would be required to pay to persons other than affiliates of the Adviser, the Administrator and/or the Sponsor, or the Fund for comparable administrative services in the same geographic location; and provided, further, that such costs are reasonably allocated to the Fund on the basis of assets, revenues, time records or other method conforming with generally accepted accounting principles;
- (d) No reimbursement shall be permitted for services for which the Adviser, the Administrator and the Sponsor are entitled to compensation by way of a separate fee; and
- (e) Excluded from the allowable reimbursement shall be:
 - i. the Adviser’s, the Administrator’s or the Sponsor’s rent and depreciation, utilities, capital equipment, and other administrative items; and
 - ii. the Adviser’s, the Administrator’s or the Sponsor’s controlling persons’ salaries, fringe benefits, travel expenses, and other administrative items incurred by, or allocated to, the Adviser’s, the Administrator’s or the Sponsor’s controlling persons’.

Except as otherwise provided in the Advisory Agreement, we will bear all other costs and expenses of the Fund’s operations, administration and transactions, including, but not limited to:

The following replaces in their entirety subparts (x) and (xiii) of the second sentence under the “Plan of Operation – Expenses” section of the Prospectus:

- (x) expenses, including travel, entertainment, lodging and meal expenses, incurred by the Adviser, or members of its investment team, or payable to third parties, in evaluating, developing, negotiating, structuring and performing due diligence on prospective portfolio companies, including such expenses related to potential investments that were not consummated, and, if necessary, enforcing the Fund’s rights, to the extent permitted by the Omnibus Guidelines;
- (xiii) the allocated costs incurred by Antares Capital Credit (in its capacity as the Adviser and/or the Administrator) in providing managerial assistance to those portfolio companies that request it, as required by law;

The following replaces in its entirety the last sentence in the second paragraph under the “Advisory Agreement and Administration Agreement – Administration Agreement” section of the Prospectus:

We will not reimburse the Administrator for any services for which it receives a separate fee, for rent or depreciation, utilities, capital equipment and other administrative items of the Administrator, or for salaries, fringe benefits, travel expenses and other administrative items incurred or allocated to any controlling person of the Administrator.

The following replaces in its entirety the last sentence under the “Advisory Agreement and Administration Agreement – Certain Terms of the Advisory Agreement and Administration Agreement” section of the Prospectus:

However, we will not provide for indemnification of an Indemnified Party for any liability or loss suffered by such Indemnified Party, nor will we provide that an Indemnified Party be held harmless for any loss or liability suffered by us, unless:

- (1) the Indemnified Party has determined, in good faith, that the course of conduct that caused the loss or liability was in our best interest;
- (2) the Indemnified Party was acting on our behalf or performing services for us;
- (3) such liability or loss was not the result of (A) negligence or misconduct by the Indemnified Party in the case that the Indemnified Party is not an Independent Trustee, or (B) gross negligence or willful misconduct, in the case that the Indemnified Party is an Independent Trustee; and
- (4) the indemnification or agreement to hold harmless is recoverable only out of our net assets and not from our shareholders.

The following replaces in their entirety the first, third and fifth bullets in the second sentence under the “Advisory Agreement and Administration Agreement – Prohibited Activities” section of the Prospectus:

- We may not purchase or lease assets in which the Sponsor, the Adviser, any Trustee, or any of their affiliates has an interest unless the transaction occurred at the formation of the Fund, we disclose the terms of the transaction to our shareholders, the terms are reasonable to us and the price does not exceed the lesser of cost or fair market value, as determined by an independent expert;
- The Sponsor, the Adviser, any Trustee, or any of their affiliates may not acquire assets from us unless approved by the holders of more than fifty percent (50%) of the outstanding voting securities of the Fund;
- We may not make any loans, credit facilities, credit agreements or otherwise to the Sponsor, the Adviser, any Trustee, or any of their affiliates except for the advancement of funds as permitted by our Declaration of Trust;

The following replaces in its entirety the “Advisory Agreement and Administration Agreement – Compliance with the Omnibus Guidelines Published by NASAA” section of the Prospectus:

Rebates, Kickbacks and Reciprocal Arrangements

The Sponsor, the Fund, and the Adviser may not receive or accept any rebate or give-ups or similar arrangements that are prohibited under applicable federal or state securities laws or Omnibus Guidelines. The Sponsor, the Fund, and the Adviser may not participate in any reciprocal business arrangement that would circumvent provisions of applicable federal or state securities laws or the Omnibus Guidelines governing conflicts of interest or investment restrictions, or enter into any agreement, arrangement or understanding that would circumvent the restrictions against dealing with affiliates or promoters under applicable federal or state securities laws or the Omnibus Guidelines. The Sponsor, the Fund, and the Adviser may not directly or indirectly pay or award any fees or commissions or other compensation to any person engaged to sell shares or give investment advice to a potential shareholder; provided, however, our Adviser may pay a registered broker-dealer or other properly licensed agent of normal sales commissions or other compensation (including cash compensation and non-cash compensation (as such terms are defined under FINRA Rule 2310)) for selling or distributing shares, including out of the Adviser’s own assets, including those amounts paid to the Adviser under the Advisory Agreement. The Sponsor, the Fund, and the Adviser may not participate in any arrangements that would circumvent the Omnibus Guidelines.

Commingling

The Adviser may not permit our funds held by our custodian to be commingled with the funds of any other person and the funds will be protected from the claims of affiliated companies and creditors of the affiliated companies.

The following replaces in its entirety the last sentence under the “Description of Our Common Shares – Common Shares” section of the Prospectus:

Subject to the special rights of the holders of any class or series of preferred shares to elect Trustees, a majority of all votes cast at a meeting of shareholders duly called and at which a quorum is present shall be sufficient to elect a Trustee.

[Table of Contents](#)

The following replaces in its entirety the second sentence in the second paragraph under the “Description of Our Common Shares – Limitation on Liability of Trustees and Officers; Indemnification and Advance of Expenses” section of the Prospectus:

Notwithstanding the foregoing, we will not provide any indemnification of an Indemnitee, Sponsor (as defined under the Omnibus Guidelines), or any person acting as a broker-dealer pursuant to paragraph (a) above for any liability and losses arising from or out of an alleged violation of federal or state securities laws by such Indemnitee, Sponsor, or any person acting as a broker-dealer unless one or more of the following conditions are met: (i) there has been a successful adjudication on the merits of each count involving alleged securities law violations as to the particular indemnitee, Sponsor, or any person acting as a broker-dealer, (ii) such claims have been dismissed with prejudice on the merits by a court of competent jurisdiction as to the particular Indemnitee, Sponsor, or any person acting as a broker-dealer, or (iii) a court of competent jurisdiction approves a settlement of the claims against the particular Indemnitee, Sponsor, or any person acting as a broker-dealer and finds that indemnification of the settlement and the related costs should be made, and the court considering the request for indemnification has been advised of the position of the SEC and of the published position of any state securities regulatory authority in which securities were offered or sold as to indemnification for violations of securities laws.

The following replaces in their entirety the third and fourth paragraphs under the “Description of Our Common Shares – Limitation on Liability of Trustees and Officers; Indemnification and Advance of Expenses” section of the Prospectus:

We will neither indemnify nor hold harmless an Indemnitee or a Sponsor, unless that particular indemnitee meets all of the following conditions:

- (i) The particular indemnitee has determined, in good faith, that any course of conduct of such particular indemnitee giving rise to the liability and losses was in the best interests of the Fund.
- (ii) The particular indemnitee was acting on behalf of or performing services for the Fund.
- (iii) Such liability and losses were not the result of (1) negligence or misconduct, in the case that the particular indemnitee is not an Independent Trustee, in each case, as determined by a court of competent jurisdiction in a final, non-appealable order, or (2) gross negligence or willful misconduct, in the case that the particular indemnitee is an Independent Trustee.
- (iv) Such indemnification is recoverable only out of the net assets of the Fund and not from the shareholders.

In addition, the Declaration of Trust permits the Fund to advance reasonable legal expenses and other costs incurred by the Sponsor, the Indemnitee or any affiliate thereof in advance of final disposition of a proceeding only if (i) the proceeding relates to acts or omissions with respect to the performance of duties or services on behalf of the Fund, (ii) the Indemnitee or the affiliate of the Sponsor, as applicable, provides the Fund with written affirmation of such person's good faith belief that the person has met the standard of conduct necessary for indemnification by the Fund as authorized by the Declaration of Trust, (iii) the legal proceeding was initiated by a third party who is not a shareholder or, if by a shareholder of the Fund acting in his or her capacity as such, a court of competent jurisdiction approves such advancement, and (iv) the Indemnitee or the affiliate of the Sponsor, as applicable, provides the Fund with a written agreement to repay the amount paid or reimbursed by the Fund, together with the applicable legal rate of interest thereon, if it is ultimately determined by final, non-appealable decision of a court of competent jurisdiction, that the Indemnitee is not entitled to indemnification.

The following replaces in its entirety the “Description of Our Common Shares – Delaware Law and Certain Declaration of Trust Provisions – Sales and Leases to the Fund” section of the Prospectus:

Our Declaration of Trust provides that we may not purchase or lease assets in which the Sponsor, the Adviser, any Trustee, or any of their affiliates have an interest unless all of the following conditions are met: (a) the transaction occurred at the formation of the Fund and is fully disclosed to the shareholders either in a prospectus or periodic report filed with the SEC or otherwise; and (b) the assets are sold or leased upon terms that are reasonable to us and at a price not to exceed the lesser of cost or fair market value as determined by an independent expert. However, the Sponsor, the Adviser, any Trustee, or any of their affiliates may purchase assets in its own name (and assume loans in connection) and temporarily hold title, for the purposes of facilitating the acquisition of the assets, the borrowing of money, obtaining financing for us, or the completion of construction of the assets, so long as all of the following conditions are met: (i) the assets are purchased by us at a price no greater than the cost of the assets to the Sponsor, the Adviser, any Trustee, or any of their affiliates; (ii) all income generated by, and the expenses associated with, the assets so acquired will be treated as belonging to us; and (iii) there are no other benefits arising out of such transaction to the Adviser.

[Table of Contents](#)

The following replaces in its entirety the “Description of Our Common Shares – Delaware Law and Certain Declaration of Trust Provisions – Sales and Leases to our Adviser, Trustees or Affiliates” section of the Prospectus:

Our Declaration of Trust provides that we may not sell assets to the Sponsor, the Adviser, any Trustee, or any of their affiliates unless such sale is approved by the holders of more than fifty percent (50%) of the outstanding voting securities of the Fund. Our Declaration of Trust also provides that we may not lease assets to the Sponsor, the Adviser, any Trustee, or any of their affiliates unless all of the following conditions are met: (a) the transaction occurred at the formation of the Fund and is fully disclosed to the shareholders either in a prospectus or periodic report filed with the SEC or otherwise; and (b) the terms of the transaction are fair and reasonable to us.

The following replaces in its entirety the “Description of Our Common Shares – Delaware Law and Certain Declaration of Trust Provisions – Loans” section of the Prospectus:

Our Declaration of Trust provides that, except for the advancement of indemnification funds, no loans, credit facilities, credit agreements or otherwise may be made by us to the Sponsor, the Adviser, any Trustee, or any of their affiliates.

The following replaces in its entirety the “Description of Our Common Shares – Delaware Law and Certain Declaration of Trust Provisions – Commissions on Financing, Refinancing or Reinvestment” section of the Prospectus:

Our Declaration of Trust provides that we may not pay, directly or indirectly, a commission or fee to a Sponsor, the Adviser, any Trustee, or any affiliate thereof (except as otherwise specified in our Declaration of Trust) in connection with the reinvestment of cash available for distribution, available reserves, or the proceeds of the resale, exchange or refinancing of assets.

The following replaces in its entirety the “Description of Our Common Shares – Delaware Law and Certain Declaration of Trust Provisions – Lending Practices” section of the Prospectus:

Our Declaration of Trust provides that, with respect to financing made available to us by the Adviser or the Sponsor, the Adviser or the Sponsor, as applicable, may not receive interest in excess of the lesser of the Adviser’s or the Sponsor’s, as applicable, cost of funds or the amounts that would be charged by unrelated lending institutions on comparable loans for the same purpose. Neither the Adviser nor the Sponsor may impose a prepayment charge or penalty in connection with such financing and the Adviser or the Sponsor may not receive points or other financing charges. In addition, the Adviser and the Sponsor will be prohibited from providing financing to us with a term in excess of 12 months.

The following replaces in its entirety the first paragraph under the “Description of Our Common Shares – Delaware Law and Certain Declaration of Trust Provisions – Action by Shareholders” section of the Prospectus:

Our Bylaws provide that shareholder action can be taken at an annual meeting or at a special meeting of shareholders or by unanimous written consent in lieu of a meeting. The shareholders will only have voting rights as required by the 1940 Act or as otherwise provided for in the Declaration of Trust. Under our Declaration of Trust and Bylaws, the Fund is required to hold a meeting of shareholders at least annually. Special meetings may be called by the Trustees and certain of our officers, and will be limited to the purposes for any such special meeting set forth in the notice thereof. In addition, our Bylaws provide that, subject to the satisfaction of certain procedural and informational requirements by the shareholders requesting the meeting, a special meeting of shareholders will be called by the secretary of the Fund upon the written request of shareholders entitled to cast not less than 10% of all votes entitled to be cast at such meeting. Upon receipt of a written request, either in person or by certified mail, stating the purpose(s) of the meeting, all shareholders will be provided, within ten (10) days after receipt of said request, written notice, either in person or by mail, of a meeting and the purpose of such meeting to be held on a date not less than fifteen (15) nor more than sixty (60) days after distribution of such notice, at a time and place specified in the request, or if none is specified, at a time and place convenient to shareholders. These provisions will have the effect of significantly reducing the ability of shareholders being able to have proposals considered at a meeting of shareholders.

The following replaces in its entirety the third paragraph under the “Description of Our Common Shares – Delaware Law and Certain Declaration of Trust Provisions – Action by Shareholders” section of the Prospectus:

Our Declaration of Trust provides that the following actions may be taken by the shareholders, without concurrence by us, our Board, the Adviser and the Sponsor, upon a vote by the holders of more than 50% of the outstanding shares entitled to vote to:

- modify our Declaration of Trust;
 - remove the Sponsor or the Adviser and appoint a new Adviser; or
 - approve or disapprove to sell all or substantially all of the Fund’s assets other than in the ordinary course of the Fund’s business.
-

[Table of Contents](#)

The following replaces in its entirety the fifth paragraph under the “Description of Our Common Shares – Delaware Law and Certain Declaration of Trust Provisions – Action by Shareholders” section of the Prospectus:

We, our Board, the Adviser and the Sponsor may not, without the approval of a vote by the holders of more than 50% of the outstanding shares entitled to vote on such matters:

- modify our Declaration of Trust except for amendments which do not adversely affect the rights of shareholders;
- appoint a new Adviser or Sponsor (other than a sub-adviser pursuant to the terms of an advisory agreement and applicable law);
- sell all or substantially all of the Fund’s assets other than in the ordinary course of the Fund’s business;
- voluntarily withdraw as the Adviser or a Sponsor unless such withdrawal would not affect the tax status of the Fund and would not materially adversely affect the shareholders;
- cause the merger or other reorganization of the Fund; or
- dissolve the Fund.

The following replaces in their entirety the “Description of Our Common Shares – Delaware Law and Certain Declaration of Trust Provisions – Amendment of the Declaration of Trust and Bylaws” section of the Prospectus:

Our Declaration of Trust provides that shareholders are entitled to vote upon a proposed amendment to the Declaration of Trust if the amendment would alter the terms of contract rights of the shares held by such shareholders so as to affect them adversely. Approval of any such amendment or addition must be approved by the holders of more than 50% of the outstanding shares of the Fund entitled to vote on the matter. In addition, amendments to our Declaration of Trust to make our shares a “redeemable security” or to convert the Fund, whether by merger or otherwise, from a closed-end company to an open-end company or any amendment to Section 3.3, 3.9, Section 5.1 or Section 5.2. of our Declaration of Trust each must be approved by the affirmative vote of more than fifty percent (50%) of the outstanding shares of the Fund entitled to be cast on the matter.

Our Declaration of Trust provides that our Board has the exclusive power to adopt, alter or repeal any provision of our Bylaws and to make new Bylaws, provided, however, that any amendment to the Bylaws which adversely affects the rights of shareholders must be approved by the holders of more than fifty percent (50%) of the outstanding shares of the Fund entitled to vote thereon.

The following replaces in its entirety the first bullet under the third paragraph under the “Description of Our Common Shares – Restrictions on Roll-Up Transactions” section of the Prospectus:

- which would result in shareholders having democracy rights in the entity that would be created or would survive after the successful completion of the roll-up transaction that are less than democracy rights provided in the Declaration of Trust and Bylaws, including rights with respect to the election and removal of Trustees, annual and special meetings, amendments to the Declaration of Trust and our dissolution, and the Omnibus Guidelines;

The following replaces in its entirety the second sentence under the “Description of Our Common Shares – Delaware Law and Certain Declaration of Trust Provisions – Reports to Shareholders” section of the Prospectus:

In addition, we will distribute our annual report on Form 10-K to all shareholders within 120 days after the end of each calendar year, which must contain, among other things, a breakdown of the expenses reimbursed by us to the Adviser, the Administrator and the Sponsor.

The following replaces in its entirety the first sentence under the “Description of Our Common Shares – Delaware Law and Certain Declaration of Trust Provisions – Conflict with the 1940 Act” section of the Prospectus:

Our Declaration of Trust provides that, if and to the extent that any provision of Delaware law, or any provision of our Declaration of Trust or Bylaws conflicts with any provision of the 1940 Act, the mandatory provisions of the 1940 Act will control.

The following replaces in its entirety the first sentence in the seventh paragraph under the “How to Subscribe” section of the Prospectus:

Except where prohibited by applicable law, any assignor shareholder owning shares for the purpose of assigning their shares retains the same rights as a shareholder of the Fund, including, but not limited to, the rights enumerated under Article VI of the Omnibus Guidelines.

[Table of Contents](#)

The following replaces in their entirety the paragraphs respecting Alabama, California and Idaho under the “Additional Subscriber Representations and Signatures” section of the Form of Subscription Agreement included as Appendix A to the Prospectus:

If I am an **Alabama** resident, I must have either (a) a minimum annual gross income of \$100,000 and a minimum net worth of \$100,000, or (b) a minimum net worth of \$350,000. In addition, I must limit my aggregate investment in Antares Private Credit Fund and other non-traded direct participation programs to 10% of my liquid net worth at the time of my investment. This concentration limit shall not apply to investments made as a result of participation in a distribution reinvestment plan. For these purposes, “liquid net worth” is defined as that portion of net worth consisting of cash, cash equivalents, and readily marketable securities. The foregoing concentration limit does not apply to me if I am an “accredited investor” as defined in Rule 501(a) of Regulation D under the Securities Act of 1933.

If I am a **California** resident, I may not invest more than 10% of my liquid net worth in Antares Private Credit Fund and must have either (a) a liquid net worth of \$150,000 and annual gross income of \$150,000 or (b) a liquid net worth of \$350,000.

If I am an **Idaho** resident, I must have either (a) a minimum annual gross income of \$100,000 and a minimum net worth of \$100,000; or (b) a minimum net worth of \$350,000. Net worth shall be determined exclusive of home, home furnishings, and automobiles.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

The information contained in this section should be read in conjunction with our consolidated financial statements and notes thereto appearing elsewhere in this Quarterly Report. In addition, some of the statements in this Quarterly Report (including in the following discussion) constitute forward-looking statements, which relate to future events or the future performance or financial condition of Antares Private Credit Fund (the “Company,” “we,” “us,” or “our”). The Company is externally managed by Antares Capital Credit Advisers LLC (the “Adviser”). The forward-looking statements contained in this report involve a number of risks and uncertainties, including statements concerning:

- we have a limited operating history;
- our, or our portfolio companies’, future business, operations, operating results or prospects;
- the return or impact of current and future investments;
- changes in the general economy, including those caused by tariffs and trade disputes with other countries, changes in inflation, and risk of recession;
- the impact of changes in laws or regulations (including the interpretation thereof), including tax laws, governing our operations or the operations of our portfolio companies or the operations of our competitors;
- the valuation of our investments in portfolio companies, particularly those having no liquid trading market;
- market conditions and our ability to access different debt markets and additional debt and equity capital and our ability to manage our capital resources effectively;
- our contractual arrangements and relationships with third parties;
- the state of the general economy;
- the impact of supply chain constraints on our portfolio companies and the global economy;
- uncertainty surrounding global financial stability, including the liquidity of certain banks;
- the financial condition of our current and prospective portfolio companies and their ability to achieve their objectives;

- Unless otherwise indicated, issuers of debt and equity investments held by the Company (which such term “Company” shall include the Company’s consolidated subsidiaries for purposes of this Consolidated Schedule of Investments) are denominated in dollars. All debt investments are income producing unless otherwise indicated. All equity investments are non-income producing unless otherwise noted. Certain portfolio company investments are subject to contractual restrictions on sales. The total par amount is presented for debt investments and the number of shares or units owned is presented for equity investments.
- The majority of the investments bear interest at a rate that may be determined by reference to the Secured Overnight Financing Rate (“SOFR” or “S”), Prime Rate (“Prime” or “P”), Canadian Overnight Repo Rate Average (“CORRA” or “C”), Sterling Overnight Index Average (“SONIA” or “SON”), Euro Interbank Offered Rate (“EURIBOR” or “E”) or other relevant benchmark, which reset daily, monthly, quarterly, semiannually or annually. For each such investment, the Company has provided the spread over reference rates and the current contractual interest rate in effect on June 30, 2026. Certain investments are subject to an interest rate floor, or rate cap. Certain investments contain a Payment-in-Kind (“PIK”) provision. SOFR based contracts may include a credit spread adjustment, which is included within the stated all-in interest rate, if applicable, that is charged in addition to the base rate and the stated spread.

3. Investments with par value / shares less than 500 shown as zero.
4. The cost represents the original cost adjusted for the amortization of discounts and premiums, as applicable, on debt investments using the effective interest method in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").
5. These investments were not valued using unobservable inputs and are not considered Level 3 investments. Fair value was determined in good faith by the Adviser as the Company's valuation designee, subject to the oversight of the Board of Trustees (the "Board") (see Note 2 and Note 5), pursuant to the Company's valuation policy.
6. The investment is not a qualifying asset, in whole or in part, under Section 55(a) of the 1940 Act. The Company may not acquire any non-qualifying asset unless, at the time of acquisition, qualifying assets represent at least 70% of the Company's total assets. As of June 30, 2026, non-qualifying assets represented 5.03% of total assets as calculated in accordance with regulatory requirements.
7. Position or portion thereof is an unfunded investment, and no interest is being earned on the unfunded portion, although the investment may be subject to unused commitment fees. Negative cost and fair value results from unamortized fees, which are capitalized to the investment cost. The unfunded investment may be subject to a commitment termination date that may expire prior to the maturity date stated. Such commitments are subject to the satisfaction of certain conditions set forth in the documents governing these investments and there can be no assurance that such conditions will be satisfied. See the following page and Note 7 to the Consolidated Financial Statements for more information on the Company's unfunded commitments.
8. Position or portion thereof is pledged as collateral under the Morgan Stanley Facility.
9. Security exempt from registration under the Securities Act of 1933 (the "Securities Act"), and may be deemed to be "restricted securities" under the Securities Act. As of June 30, 2026, the aggregate fair value of these securities is \$27,505 or 3.40% of the Company's net assets. The acquisition dates of these restricted securities are as follows:

1. Unless otherwise indicated, issuers of debt and equity investments held by the Company (which such term “Company” shall include the Company’s consolidated subsidiaries for purposes of this Consolidated Schedule of Investments) are denominated in dollars. All debt investments are income producing unless otherwise indicated. All equity investments are non-income producing unless otherwise noted. Certain portfolio company investments are subject to contractual restrictions on sales. The total par amount is presented for debt investments and the number of shares or units owned is presented for equity investments.
2. The majority of the investments bear interest at a rate that may be determined by reference to the Secured Overnight Financing Rate (“SOFR” or “S”), Prime Rate (“Prime” or “P”), Canadian Overnight Repo Rate Average (“CORRA” or “C”), Sterling Overnight Index Average (“SONIA” or “SON”), Euro Interbank Offered Rate (“EURIBOR” or “E”) or other relevant benchmark, which reset daily, monthly, quarterly, semiannually or annually. For each such investment, the Company has provided the spread over reference rates and the current contractual interest rate in effect on December 31, 2025. Certain investments are subject to an interest rate floor, or rate cap. Certain investments contain a Payment-in-Kind (“PIK”) provision. SOFR based contracts may include a credit spread adjustment, which is included within the stated all-in interest rate, if applicable, that is charged in addition to the base rate and the stated spread.
3. Investments with par value / shares less than 500 shown as zero.
4. The cost represents the original cost adjusted for the amortization of discounts and premiums, as applicable, on debt investments using the effective interest method in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).
5. These investments were not valued using unobservable inputs and are not considered Level 3 investments. Fair value was determined in good faith by the Adviser as the Company’s valuation designee, subject to the oversight of the Board of Trustees (the “Board”) (see Note 2 and Note 5), pursuant to the Company’s valuation policy.
6. The investment is not a qualifying asset, in whole or in part, under Section 55(a) of the 1940 Act. The Company may not acquire any non-qualifying asset unless, at the time of acquisition, qualifying assets represent at least 70% of the Company’s total assets. As of December 31, 2025, non-qualifying assets represented 6.89% of total assets as calculated in accordance with regulatory requirements.
7. Position or portion thereof is an unfunded loan commitment, and no interest is being earned on the unfunded portion, although the investment may be subject to unused commitment fees. Negative cost and fair value results from unamortized fees, which are capitalized to the investment cost. The unfunded loan commitment may be subject to a commitment termination date that may expire prior to the maturity date stated. Such commitments are subject to the satisfaction of certain conditions set forth in the documents governing these loans and letters of credit and there can be no assurance that such conditions will be satisfied. See the following page and Note 7 to the Consolidated Financial Statements for more information on the Company’s unfunded commitments.
8. Position or portion thereof is pledged as collateral under the Morgan Stanley Facility.
9. Security exempt from registration under the Securities Act of 1933 (the “Securities Act”), and may be deemed to be “restricted securities” under the Securities Act. As of December 31, 2025, the aggregate fair value of these securities is \$24,577 or 3.35% of the Company’s net assets. The acquisition dates of these restricted securities are as follows:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(in thousands, except share/per share data, percentages and as otherwise noted)

Note 1. Business and Organization

Antares Private Credit Fund (the “Company”) is a Delaware statutory trust formed on May 1, 2023 which commenced investment operations on November 5, 2024. The Company was organized to provide risk-adjusted returns and current income to shareholders by investing primarily in loans to borrowers in the United States and Canada. The Company’s investment strategy focuses primarily on private credit investments structured as portfolio loans to U.S. borrowers. A “portfolio loan” is a senior secured loan, which may be first lien, second lien or unitranche loans, consisting of term loans, related delayed draw term loans and/or revolving loans. Each tranche of a senior secured loan acquired by the Company is referred to as a portfolio loan. The Company is a non-diversified, closed-end management investment company that has elected to be regulated as a business development company (“BDC”) under the Investment Company Act of 1940, as amended (the “1940 Act”). In addition, the Company has elected to be treated, and intends to qualify annually, as a regulated investment company (“RIC”) under the Internal Revenue Code of 1986, as amended (the “Code”). The Company is externally managed by Antares Capital Credit Advisers LLC (the “Adviser”). The Adviser is a registered investment adviser with the U.S. Securities and Exchange Commission (the “SEC”).

The Company is a non-exchange traded, perpetual-life BDC, whose Common Shares are not listed for trading on a stock exchange or other securities market and is an investment vehicle with indefinite duration.

While the Company’s investment strategy primarily focuses on companies in the United States, the Company intends to also invest in companies in Canada, Europe and other locations outside the United States, subject to compliance with BDC requirements to invest at least 70% of assets in “eligible portfolio companies”. The Company may also invest in preferred equity or debt investments that may be accompanied by equity-related securities (such as options or warrants) and/or select common equity investments.

The Company’s investment strategy also includes a smaller allocation to more liquid credit investments such as broadly syndicated loans and corporate bonds, which may be used primarily to maintain liquidity for the Company’s share repurchase program and manage cash before investing subscription proceeds into originated loans, while also seeking attractive investment returns. The Company may also invest in publicly traded securities of larger corporate issuers on an opportunistic basis when market conditions create compelling potential return opportunities subject to compliance with BDC requirements.

The Company is currently offering on a continuous basis up to \$2.0 billion of its Common Shares pursuant to an offering registered with the Securities and Exchange Commission (the “Offering”). The Company expects to offer to sell any combination of three classes of Common Shares, Class I shares, Class D shares, and Class S shares, with a dollar value up to the maximum offering amount. The share classes have different ongoing shareholder servicing and/or distribution fees. The initial purchase price for the Common Shares was \$25.00 per share for Class I shares; no Class S or Class D shares have been issued as of June 30, 2026. Thereafter, the purchase price per share for each class of Common Shares will equal the net asset value (“NAV”) per share, as of the effective date of the monthly share purchase date. The Company may also engage in private offerings of its Common Shares.

The Company may enter into interest rate, foreign exchange, and/or other derivative arrangements to hedge against interest rate, currency, and/or other credit related risks through the use of futures, swaps, options and forward contracts. These hedging activities will be subject to the applicable legal and regulatory compliance requirements; however, there can be no assurance any hedging strategy employed will be successful. The Company may also seek to borrow capital in local currencies as a means of hedging non-U.S. dollar denominated investments.

Engaging in commodity interest transactions such as swap transactions or futures contracts for the Company may cause the Adviser to fall within the definition of “commodity pool operator” under the Commodity Exchange Act (the “CEA”) and related Commodity Futures Trading Commission (the “CFTC”) regulations. The Adviser has claimed an exclusion from the definition of the term “commodity pool operator” under the CEA and the CFTC regulations in connection with its management of the Company and, therefore, is not subject to CFTC registration or regulation under the CEA as a commodity pool operator with respect to its management of the Company.

The Company has formed wholly owned subsidiaries for the purpose of holding certain investments in portfolio companies. As of June 30, 2026, the Company's wholly owned subsidiaries include: APCF Funding SPV LLC, APCF Masterfund LLC and APCF Equity Holdings LLC (collectively, the "Subsidiaries"). The Company consolidates its wholly owned subsidiaries in these consolidated financial statements from the date of the commencement of operations of the Company.

Note 2. Significant Accounting Policies

Basis of Presentation

Interim consolidated financial statements and related financial information have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and pursuant to the requirements for reporting on Form 10-Q and Articles 6-10 of Regulation S-X. The Company is considered an Investment Company under U.S. GAAP and follows the accounting and reporting guidance applicable to investment companies in the Financial Accounting Standards Board Accounting Standards Codification ("ASC") Topic 946, Financial Services – Investment Companies ("ASC 946"), and pursuant to Regulation S-X. The current period's results of operations will not necessarily be indicative of results that ultimately are achieved for the year ended December 31, 2026. In the opinion of management, all adjustments, which are of normal recurring nature, considered necessary for the fair statement of the consolidated financial statements for the periods presented, have been included.

Consolidation

As provided under ASC 946, the Company will not consolidate its investment in a company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to the Company. Accordingly, the Company consolidated the accounts of the wholly owned subsidiaries in the consolidated financial statements. All intercompany balances have been eliminated.

Segment Reporting

In accordance with ASC Topic 280, Segment Reporting ("ASC 280"), the Company has determined that it has a single operating and reporting segment. As a result, the Company's segment accounting policies are the same as described herein and the Company does not have any intra-segment sales and transfers of assets.

Use of Estimates

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions about future economic and market conditions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Although the Company's estimates contemplate current conditions and how they expect them to change in the future, it is reasonably possible that actual results could differ from those estimates and such difference could be material.

Cash

Cash consists of demand deposits and are carried at cost, which approximates fair value. The Company deposits its cash with financial institutions and, at times, may exceed the Federal Deposit Insurance Corporation insured limit.

Organization and Offering Expenses

Organization costs include costs relating to the formation and organization of the Company, and are expensed as incurred. Unreimbursed organization costs are included in "Due to affiliates" on the Consolidated Statements of Assets and Liabilities. For both the three and six months ended June 30, 2026, the Company did not incur any organization costs. For the three and six months ended June 30, 2025, the Company incurred \$95 and \$119 in organization costs, respectively.

Costs associated with the Offering are capitalized and included as deferred offering costs on the Consolidated Statements of Assets and Liabilities and are amortized over a twelve-month period from the date of incurrence. For the three and six months ended June 30, 2026, the Company incurred \$195 and \$700 of offering costs, respectively, and amortized \$337 and \$640, respectively. For the three and six months ended June 30, 2025, the Company incurred \$208 and \$887 of offering costs, respectively, and amortized \$468 and \$944, respectively.

[Table of Contents](#)

As of June 30, 2026 and December 31, 2025, \$585 and \$525, respectively, in deferred offering costs were included on the Consolidated Statements of Assets and Liabilities.

Investments

Investment transactions are recorded on the trade date. Realized gains or losses are measured by the difference between the net proceeds received (excluding prepayment fees, if any) and the amortized cost basis of the investment using the specific identification method without regard to unrealized gains or losses previously recognized, and include investments charged off during the period, net of recoveries. The net change in unrealized gains or losses primarily reflects the change in investment values, including the reversal of previously recorded unrealized gains or losses with respect to investments realized during the period.

Short-term investments

Short-term investments consist of highly liquid investments, such as money market funds, with original maturities of three months or less.

Valuation of Investments

The Company is required to report its investments for which current market values are not readily available at fair value. The Company values its investments in accordance with ASC Topic 820, Fair Value Measurement (“ASC 820”), which defines fair value as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the applicable measurement date. ASC 820 prioritizes the use of observable market prices derived from such prices over entity-specific inputs. Due to the inherent uncertainties of valuation, certain estimated fair values may differ significantly from the values that would have been realized had a ready market for these investments existed, and these differences could be material.

Investments for which market quotations are readily available are typically valued using mid-market pricing (i.e., mid-point of average bid and ask prices). The Adviser obtains these market quotations from independent pricing services, if available; otherwise from at least two principal market makers or primary market dealers. To assess the continuing appropriateness of pricing sources and methodologies, the Adviser performs, from time to time, price verification procedures and issues challenges as necessary to independent pricing services or brokers, and any differences are reviewed in accordance with the valuation procedures. The Adviser does not adjust the prices unless it has a reason to believe market quotations are not reflective of the fair value of an investment.

Where prices or inputs are not available, or, in the judgment of the Adviser, not reliable, valuation approaches based on the facts and circumstances of the particular investment are utilized. Securities that are not publicly traded or for which market prices are not readily available, as the case for a substantial portion of the Company’s investments, are valued at fair value as determined in good faith by the Adviser as the Company’s valuation designee under Rule 2a-5 under the 1940 Act, pursuant to the Company’s valuation policy, and under the oversight of the Board of Trustees (the “Board”), based on, among other things, the input of the Company’s management and the audit committee. In addition, the Adviser has retained independent valuation firms to review valuations on a rotational basis. These valuation approaches involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the investments or market and the investments’ complexity.

With respect to investments for which market quotations are not readily available, the Adviser undertakes a multi-step valuation process each quarter, among other procedures, as described below:

- The valuation process begins with each investment being preliminarily reviewed by the Adviser’s valuation team in consultation with the Adviser’s investment professionals responsible for each portfolio investment;
- At least once annually the valuation for each investment (subject to a de minimis threshold) is reviewed by an independent valuation firm. The independent valuation firms provide a final range of values on such investments to the Adviser. The independent valuation firms also provide analyses to support their valuation methodology and calculations;
- The Adviser’s valuation committee with respect to the Company (the “Valuation Committee”) reviews each valuation recommendation to confirm they have been calculated in accordance with the valuation policy and confirms the independent valuation firms’ valuation ranges when utilized are reasonable;
- The Adviser’s Valuation Committee then determines fair value marks for each of the Company’s portfolio investments; and

- The Board and audit committee of the Company periodically review the valuation process and provide oversight in accordance with the requirements of Rule 2a-5 under the 1940 Act.

As part of the valuation process, the Company takes into account relevant factors in determining the fair value of the Company's investments for which reliable market quotations are not readily available, many of which are loans, including and in combination, as relevant, any of: (i) the estimated enterprise value of a portfolio company, generally based on an analysis of discounted cash flows, publicly traded comparable companies and comparable transactions, (ii) the nature and realizable value of any collateral, (iii) the portfolio company's ability to make payments based on its earnings and cash flow, (iv) the markets in which the portfolio company does business, and (v) overall changes in the interest rate environment and the credit markets that may affect the price at which similar investments may be made in the future. When an external event such as a purchase transaction, public offering or subsequent equity or debt sale occurs, the Adviser considers whether the pricing indicated by the external event corroborates its valuation.

As of June 30, 2026, independent valuation firms reviewed a substantial majority of the Company's investment valuations.

The Company's accounting policy on the fair value of the investments is critical because the determination of fair value involves subjective judgments and estimates. Accordingly, the Company's consolidated financial statements express the uncertainty with respect to the possible effect of these valuations, and any change in these valuations, on the consolidated financial statements.

Revenue Recognition

The Company generates revenue in the form of interest and fee income on debt investments, capital gains, and dividend income from equity investments in portfolio companies. The senior and subordinated debt investments bear interest at a fixed or floating rate, and is generally payable monthly, quarterly or semi-annually. In some cases, some of the Company's investments provide for deferred interest payments or payment-in-kind ("PIK") interest. The principal amount of the debt investments and any accrued but unpaid PIK interest generally become due at the maturity date. Original issue discounts and market discounts or premiums are capitalized, and the Company accretes or amortizes such amounts as interest income. In addition, the Company generates revenue from various fees in the ordinary course of business such as in the form of structuring, consent, waiver, amendment, syndication and other miscellaneous fees.

Interest Income

Interest income is recorded on an accrual basis and includes the accretion of discounts and amortization of premiums. Discounts from and premiums to par value on debt investments purchased are accreted/amortized into interest income over the life of the debt investments using the effective interest method. The amortized cost of debt investments represents the original cost, including loan origination fees and upfront fees received that are deemed to be an adjustment to yield, adjusted for the accretion of discounts and amortization of premiums, if any. Upon prepayment of a loan or debt investment, any prepayment premiums, unamortized upfront loan origination fees and unamortized discounts are recorded as interest income, in the current period.

Dividend Income

Dividend income on preferred equity securities is recorded on the accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Such income is included in payment-in-kind dividend income on the Consolidated Statements of Operations. Dividend income on common equity securities is recorded on the record date for portfolio companies or on the ex-dividend date for publicly-traded portfolio companies. Such income is included in dividend income on the Consolidated Statements of Operations.

PIK Income

The Company may have loans in its portfolio that contain PIK provisions. PIK represents interest that is accrued and recorded at the contractual rates, increases the loan principal on the respective capitalization dates, and is generally due at maturity. Such income is included in payment-in-kind interest income on the Consolidated Statements of Operations. If at any point the Company believes PIK is not expected to be realized, the investment generating PIK will be placed on non-accrual status. When a PIK investment is placed on non-accrual status, the accrued, uncapitalized interest is generally reversed through payment-in-kind interest income. To maintain the Company's status as a RIC, this non-cash source of income must be paid out to shareholders in the form of distributions, even though the Company has not yet collected cash.

[Table of Contents](#)

Fee Income

The Company may receive various fees in the ordinary course of business such as structuring, consent, waiver, amendment, syndication fees as well as fees for managerial assistance rendered by the Company to the portfolio companies. Such fees are recognized as income when earned or the services are rendered.

Non-Accrual Income

Loans are generally placed on non-accrual status when there is reasonable doubt that principal or interest will be collected in full. Accrued interest is generally reversed when a loan is placed on non-accrual status. Additionally, any original issue discount and market discount are no longer accreted to interest income as of the date the loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment regarding collectability. Non-accrual loans are restored to accrual status when past due principal and interest is paid current and, in management's judgment, are likely to remain current. Management may make exceptions to this treatment and determine to not place a loan on non-accrual status if the loan has sufficient collateral value and is in the process of collection.

Deferred Financing Costs

Deferred financing costs represent fees and other direct incremental costs incurred in connection with the Company's borrowings. These expenses are deferred and amortized into interest and debt expenses over the life of the related debt instrument using the straight-line method. Deferred financing costs related to the Company's borrowings are presented as an offset against the debt outstanding on the Consolidated Statements of Assets and Liabilities.

Foreign Currency Translations

The accounting records of the Company are maintained in U.S. dollars. All assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the foreign exchange rate on the date of valuation. The Company does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. The Company's investments in foreign securities may involve certain risks, including without limitation: foreign exchange restrictions, expropriation, taxation or other political, social or economic risks, all of which could affect the market and/or credit risk of the investment. In addition, changes in the relationship of foreign currencies to the U.S. dollar can significantly affect the value of these investments and therefore the earnings of the Company.

Income Taxes

The Company has elected to be treated, and intends to qualify annually, as a RIC under the Code. So long as the Company maintains its status as a RIC, it generally will not pay corporate-level U.S. federal income taxes on any ordinary income or capital gains that it distributes at least annually to its shareholders as dividends. Rather, any tax liability related to income earned and distributed by the Company would represent obligations of the Company's shareholders and would not be reflected in the consolidated financial statements of the Company.

The Company evaluates tax positions taken or expected to be taken in the course of preparing its consolidated financial statements to determine whether the tax positions are "more-likely-than-not" to be sustained by the applicable tax authority. Tax positions not deemed to meet the "more-likely-than-not" threshold are reserved and recorded as a tax benefit or expense in the current year. All penalties and interest associated with income taxes are included in income tax expense. Conclusions regarding tax positions are subject to review and may be adjusted at a later date based on factors including, but not limited to, on-going analyses of tax laws, regulations and interpretations thereof.

To maintain qualification as a RIC, the Company must, among other things, meet certain source-of-income and asset diversification requirements. In addition, to maintain qualification for RIC tax treatment, the Company must distribute to its shareholders, for each taxable year, at least 90% of the sum of (i) its "investment company taxable income" for that year (without regard to the deduction for dividends paid), which is generally its ordinary income plus the excess, if any, of its realized net short-term capital gains over its realized net long-term capital losses and (ii) its net tax-exempt income.

In addition, pursuant to the excise tax distribution requirements, the Company will be subject to a 4% non-deductible federal excise tax on undistributed income unless the Company distributes in a timely manner in each taxable year an amount at least equal to the sum of

(1) 98% of its ordinary income for the calendar year, (2) 98.2% of capital gain net income (both long-term and short-term) for the one-year period ending October 31 in that calendar year and (3) any income realized, but not distributed, in prior years. For this purpose, however, any ordinary income or capital gain net income retained by the Company that is subject to corporate income tax is considered to have been distributed.

Distributions

To the extent that the Company has taxable income available, the Company intends to make monthly distributions to its shareholders. Distributions to shareholders are recorded on the record date. All distributions will be paid at the discretion of the Board and will depend on the Company's earnings, financial condition, maintenance of the Company's tax treatment as a RIC, compliance with applicable BDC regulations and such other factors as the Board may deem relevant from time to time.

Distributions to shareholders by the Company of ordinary income (including "market discount" realized by the Company on the sale of debt securities), and of net short-term capital gains, if any, realized by the Company are generally taxable to U.S. shareholders as ordinary income to the extent such distributions are paid out of the Company's current or accumulated earnings and profits. Distributions, if any, of net capital gains properly reported as "capital gain dividends" will be taxable as long-term capital gains, regardless of the length of time the shareholder has owned the Company's shares. A distribution of an amount in excess of the Company's current and accumulated earnings and profits (as determined for U.S. federal income tax purposes) will be treated by a shareholder as a return of capital which will be applied against and reduce the shareholder's basis in his or her shares. To the extent that the amount of any such distribution exceeds the shareholder's basis in his or her shares, the excess will be treated by the shareholder as gain from a sale or exchange of the shares. Distributions paid by the Company generally will not be eligible for the dividends received deduction allowed to corporations or for the reduced rates applicable to certain qualified dividend income received by non-corporate shareholders.

Distributions will be treated in the manner described above regardless of whether such distributions are paid in cash or invested in additional shares pursuant to the distribution reinvestment plan. Shareholders receiving distributions in the form of additional shares will generally be treated as receiving a distribution in the amount of the fair market value of the distributed shares. The additional shares received by a shareholder pursuant to the distribution reinvestment plan will have a new holding period commencing on the day following the day on which the shares were credited to the shareholder's account.

The Company may elect to retain its net capital gain or a portion thereof for investment and be taxed at corporate rates on the amount retained. In such case, it may designate the retained amount as undistributed capital gains in a notice to its shareholders, who will be treated as if each received a distribution of its pro rata share of such gain, with the result that each shareholder will (i) be required to report its pro rata share of such gain on its tax return as long-term capital gain, (ii) receive a refundable tax credit for its pro rata share of tax paid by the Company on the gain and (iii) increase the tax basis for its shares by an amount equal to the deemed distribution less the tax credit.

Recent Accounting Pronouncements

The Company considers the applicability and impact of all accounting standard updates ("ASU") issued by the Financial Accounting Standards Board (the "FASB").

In November 2024, the FASB issued ASU No. 2024-03, Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40) ("ASU 2024-03"), which requires disaggregated disclosure of certain costs and expenses, including purchases of inventory, employee compensation, depreciation, amortization and depletion, in each relevant expense caption. ASU 2024-03 is effective for fiscal years beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. Early adoption and retrospective application is permitted. The Company is currently assessing the impact of this guidance, however, the Company does not expect a material impact on its consolidated financial statements.

Other than the aforementioned guidance, the Company's management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the accompanying consolidated financial statements.

Note 3. Agreements and Related Party Transactions

Investment Advisory Agreement

On October 16, 2024, the Board approved an investment advisory agreement with the Adviser (“Investment Advisory Agreement”), pursuant to which the Adviser manages the Company on a day-to-day basis. Under the terms of the Investment Advisory Agreement, the Adviser is responsible for determining the composition of the Company’s portfolio, identifying investment opportunities and making investment decisions, monitoring investments, performing due diligence on prospective portfolio companies, and negotiating, obtaining and managing financing facilities and other forms of leverage.

The Company pays the Adviser fees for its services under the Investment Advisory Agreement. The fees consist of two components: a management fee and an incentive fee. The cost of both the management fee and the incentive fee are ultimately borne by the Company’s shareholders.

The Adviser agreed to waive all management and incentive fees through the first six months following the effective date of the Company’s registration statement on Form N-2, which was declared effective on February 12, 2025. As of August 13, 2025, coinciding with the end of the fee waiver period, the Company is responsible for the payment of management and incentive fees to the Adviser, pursuant to the terms of the Investment Advisory Agreement.

Management fees

The base management fee is payable monthly in arrears at an annual rate of 1.25% of the Company’s NAV as of the first business day of the applicable month. For the three and six months ended June 30, 2026, the Company incurred management fees of \$2,514 and \$4,945, respectively. For the three and six months ended June 30, 2025, the Company incurred management fees of \$2,039 and \$4,004 before impact of waived fees, respectively, and the Adviser elected to waive \$2,039 and \$4,004, respectively, resulting in no net management fees owed to the Adviser.

As of June 30, 2026 and December 31, 2025, management fees payable balances owed to the Adviser were \$2,514 and \$2,283, respectively.

Incentive fee

The incentive fee consists of two components that are independent of each other, with the result that one component may be payable even if the other is not. A portion of the incentive fee is based on a percentage of income and a portion is based on a percentage of capital gains, each described below.

Income based incentive fee

The investment income based incentive fee is based on “Pre-Incentive Fee Net Investment Income Returns” meaning dividends, cash interest or other distributions or other cash income and any third-party fees received from portfolio companies (such as upfront fees, commitment fees, origination fees, amendment fees, ticking fees and break-up fees, as well as prepayment premiums, but excluding fees for providing managerial assistance and fees earned by the Adviser or an affiliate in its capacity as an administrative agent, syndication agent, collateral agent, loan servicer or other similar capacity) accrued during the month, minus operating expenses for the month (including the management fee, taxes, any expenses payable under the Investment Advisory Agreement and Administration Agreement (as defined below), any expense of securitizations, and interest expense or other financing fees and any dividends paid on preferred shares, but excluding the incentive fee and shareholder servicing and /or distribution fees). Pre-Incentive Fee Net Investment Income Returns includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with PIK interest and zero-coupon securities), accrued income that has not yet been received in cash. Pre-Incentive Fee Net Investment Income Returns do not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. The impact of expense support payments and recoupments are also excluded from Pre-Incentive Fee Net Investment Income Returns.

[Table of Contents](#)

Pre-Incentive Fee Net Investment Income Returns, expressed as a rate of return on the value of net assets at the end of the preceding quarter, is compared to a “hurdle rate” of return of 1.50% per quarter (6.0% annualized). The Company pays an incentive fee quarterly as follows:

- No incentive fee based on Pre-Incentive Fee Net Investment Income Returns in any calendar quarter in which the Pre-Incentive Fee Net Investment Income Returns does not exceed the hurdle rate of 1.50% per quarter (6.0% annualized).
- 100% of the dollar amount of the Pre-Incentive Fee Net Investment Income Returns with respect to that portion of such Pre-Incentive Fee Net Investment Income Returns, if any, that exceeds the hurdle rate but is less than a rate of return of 1.71% (6.86% annualized).
- 12.5% of the dollar amount of the Pre-Incentive Fee Net Investment Income Returns, if any, that exceed a rate of return of 1.71% (6.86% annualized).

Capital gains incentive fee

The second component of the incentive fee, the capital gains incentive fee, is payable at the end of each calendar year in arrears. The amount payable is equal to 12.5% of cumulative realized capital gains from inception through the end of such calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gains incentive fee as calculated in accordance with U.S. GAAP. U.S. GAAP requires that the capital gains incentive fee accrual consider the cumulative aggregate unrealized capital appreciation in the calculation, as a capital gains incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the investment advisory agreement. Such accrual is calculated using the aggregate cumulative realized capital gains and losses and aggregate cumulative unrealized capital depreciation included in the calculation of the capital gains incentive fee plus the aggregate cumulative unrealized capital appreciation, net of any expense associated with cumulative unrealized capital depreciation or appreciation. If such amount is positive at the end of a period, then U.S. GAAP requires the Company to record a capital gains incentive fee equal to 12.5% of such cumulative amount, less the aggregate amount of actual capital gains incentive fees paid or capital gains incentive fees accrued under U.S. GAAP in all prior periods. Gross capital gains incentive fee is net of reversal on accrued capital gains incentive fees. The fees that are payable under the Investment Advisory Agreement for any partial period are appropriately prorated.

For the three and six months ended June 30, 2026, the Company incurred income based incentive fees of \$2,494 and \$4,983, respectively. For the three and six months ended June 30, 2025, the Company incurred income based incentive fees of \$2,399 and \$4,668 before the impact of waived fees, respectively, and the Adviser elected to waive \$2,399 and \$4,668, respectively, resulting in no income based incentive fees owed to the Adviser. For the three and six months ended June 30, 2026 and 2025, the Company did not incur any capital gains incentive fees.

As of June 30, 2026 and December 31, 2025, total incentive fee payable balances were \$2,494 and \$2,462, respectively.

Licensing Agreement

As part of the Investment Advisory Agreement, the Adviser, on behalf of Antares Holdings LP, agreed to grant the Company a fully paid-up, royalty-free, non-exclusive, non-transferable license to use “Antares” for specified purposes in the Company’s business, during the term of the Investment Advisory Agreement. Other than with respect to this limited license, the Company will have no legal right to the “Antares” name.

Administration Agreement

On October 16, 2024, the Board approved the administration agreement (the “Administration Agreement”) with Antares Capital Credit Advisers LLC (in such role, the “Administrator”). Under the terms of the Administration Agreement, the Administrator provides, or oversees the performance of, administrative and compliance services, including, but not limited to, maintaining financial records, overseeing the calculation of net asset value, compliance monitoring (including diligence and oversight of the Company’s other service providers), preparing reports to shareholders and reports filed with the SEC, preparing materials and coordinating meetings of the Company’s Board, managing the payment of expenses and the performance of administrative and professional services rendered by others and providing office space, equipment and office services.

[Table of Contents](#)

The Company reimburses the Administrator for its costs, expenses and allocable portion of overhead (including compensation of personnel performing administrative duties) in connection with the services performed for the Company pursuant to the terms of the Administration Agreement. For the three and six months ended June 30, 2026, the Company incurred administrative service fees of \$231 and \$413, respectively. For the three and six months ended June 30, 2025, the Company incurred administrative service fees of \$176 and \$332, respectively.

Sub-administration Agreement

In addition, pursuant to the terms of the Administration Agreement, the Administrator may delegate its obligations under the Administration Agreement to an affiliate or to a third party and the Company reimburses the Administrator for any services performed for the Company by such affiliate or third party.

The Administrator engaged U.S. Bancorp Fund Services, LLC to assist with sub-administration and fund accounting services.

Acquisition of Seed Portfolio

On November 5, 2024, the Company acquired 100% of the equity interests in APCF Masterfund LP and APCF Funding SPV LP (the “Acquired SPVs”) from certain affiliates of the Adviser, valued at an acquisition price of \$33,889 and \$341,218, respectively. Subsequent to acquisition, the Acquired SPVs were converted to Delaware limited liability companies.

For the six months ended June 30, 2025, the Company paid the Adviser \$2,409 in connection with the acquisition of APCF Masterfund LP, and received \$2,195 from the Adviser in connection with the acquisition of APCF Funding SPV LP.

As of and for the six months ended June 30, 2026, there were no outstanding balances nor additional payments due or made in connection with the acquisition of the Acquired SPVs, and the amounts herein represent total consideration paid for the Acquired SPVs.

Distribution and Servicing Plan

On October 16, 2024, the Board approved a distribution and servicing plan (the “Distribution and Servicing Plan”). The following table shows the shareholder servicing and/or distribution fees the Company pays Quasar Distributors LLC (the “Managing Dealer”) with respect to the Class I, Class S and Class D on an annualized basis as a percentage of NAV for such class. The Managing Dealer is a broker-dealer registered with the SEC and is a member of the Financial Industry Regulatory Authority (“FINRA”).

	Shareholder Servicing and/or Distribution Fee as a % of NAV
Class I shares	N/A
Class S shares	0.85 %
Class D shares	0.25 %

The shareholder servicing and/or distribution fees are paid monthly in arrears, calculated using the NAV of the applicable class as of the beginning of the first calendar day of the month and subject to FINRA and other limitations on underwriting compensation. As of June 30, 2026, no Class S shares or Class D shares have been issued.

Expense Support Agreement

On October 16, 2024, the Board approved an Expense Support and Conditional Reimbursement Agreement (the “Expense Support Agreement”) with the Adviser. Pursuant to the Expense Support Agreement, the Adviser is obligated to advance all of the Company’s Other Operating Expenses (defined below) (each, a “Required Expense Payment”) to the extent that such expenses do not exceed 1.00% (on an annualized basis) of the Company’s NAV. Any Required Expense Payment must be paid by the Adviser to the Company in any combination of cash or other immediately available funds and/or offset against amounts due from the Company to the Adviser or its affiliates. The Adviser may elect to pay certain additional expenses on the Company’s behalf (each, a “Voluntary Expense Payment” and together with a Required Expense Payment, the “Expense Payments”), provided that no portion of the payment will be used to pay any interest expense of the Company. Any Voluntary Expense Payment that the Adviser has committed to pay must be paid by the Adviser to the Company in any combination of cash or other immediately available funds no later than forty-five (45) days after such commitment was made in writing, and/or offset against amounts due from the Company to the Adviser or its affiliates. “Other Operating Expenses” means the Company’s total organization and offering expenses, professional fees, trustee fees, administration fees, and other general and administrative expenses (including the Company’s allocable portion of compensation (including salaries, bonuses and benefits), overhead (including rent, office equipment and utilities) and other expenses incurred by the Administrator in performing its administrative obligations under the Administration Agreement), excluding the Management Fee and Incentive Fee owed to the Adviser, financing fees and costs, brokerage commissions, placement agent fees, costs and expenses of distributing and placing the Common Shares, extraordinary expenses and any interest expenses owed by the Company, all as determined in accordance with GAAP.

Following any calendar month in which Available Operating Funds (as defined below) exceed the cumulative distributions accrued to the Company’s shareholders based on distributions declared with respect to record dates occurring in such calendar month (the amount of such excess being hereinafter referred to as “Excess Operating Funds”), the Company shall pay such Excess Operating Funds, or a portion thereof, to the Adviser until such time as all Expense Payments made by the Adviser to the Company within three years prior to the last business day of such calendar month have been reimbursed. Any payments required to be made by the Company shall be referred to herein as a “Reimbursement Payment.” “Available Operating Funds” means the sum of (i) the Company’s net investment company taxable income (including net short-term capital gains reduced by net long-term capital losses), (ii) the Company’s net capital gains (including the excess of net long-term capital gains over net short-term capital losses) and (iii) dividends and other distributions paid to the Company on account of investments in portfolio companies (to the extent such amounts listed in clause (iii) are not included under clauses (i) and (ii) above).

No Reimbursement Payment for any month shall be made if: (1) the Effective Rate of Distributions Per Share declared by the Company at the time of such Reimbursement Payment is less than the Effective Rate of Distributions Per Share at the time the Expense Payment was made to which such Reimbursement Payment relates, (2) the Company’s Operating Expense Ratio at the time of such Reimbursement Payment is greater than the Operating Expense Ratio at the time the Expense Payment was made to which such Reimbursement Payment relate, or (3) the Company’s Other Operating Expenses at the time of such Reimbursement Payment exceeds 1.00% of the Company’s NAV. “Effective Rate of Distributions Per Share” means the annualized rate (based on a 365 day year) of regular cash distributions per share exclusive of returns of capital, distribution rate reductions due to distribution and shareholder servicing fees, and declared special dividends or special distributions, if any. The “Operating Expense Ratio” is calculated by dividing Operating Expenses, less organizational and offering expenses, base management and incentive fees owed to the Adviser, shareholder servicing and/or distribution fees, and interest expense, by the Company’s net assets. “Operating Expenses” means all of the Company’s operating costs and expenses incurred, as determined in accordance with generally accepted accounting principles for investment companies.

[Table of Contents](#)

The Company's obligation to make a Reimbursement Payment shall automatically become a liability of the Company on the last business day of the applicable calendar month, except to the extent the Adviser has waived its right to receive such payment for the applicable month. In addition, effective October 31, 2024, the Company and the Adviser entered into a waiver letter agreement (the "Waiver Letter Agreement"), pursuant to which the Adviser agreed to waive any reimbursement by the Company for any of the Company's organization expenses, operating expenses and offering expenses the Adviser incurs or has incurred on the Company's behalf in an aggregate amount not to exceed \$2 million. The Waiver Letter Agreement includes reimbursement provisions substantially similar to the reimbursement provisions included in the Expense Support Agreement.

For both the three and six months ended June 30, 2026, the Adviser did not waive any expenses pursuant to the Expense Support Agreement. For the three and six months ended June 30, 2025, the Adviser waived \$148 and \$648 in expenses, respectively, pursuant to the Expense Support Agreement. For the three and six months ended June 30, 2026 and 2025, the Company made no Reimbursement Payments to the Adviser.

Co-Investment Activity

The Company and the Adviser have received an exemptive order (the "Order") from the SEC that permits the Company, among other things, to co-invest with certain other persons, including certain affiliates of the Adviser and certain funds managed and controlled by the Adviser and/or its affiliates, subject to certain terms and conditions. Under the terms of the Order, a majority of our Independent Trustees must reach certain conclusions in connection with certain co-investment transactions (e.g., in the case of follow-on investments in an existing issuer in which affiliates, but not the Company, have an existing investment, and non-pro rata follow-on investments in, and dispositions of, securities of an existing issuer), including that (i) the terms of the proposed transaction are reasonable and fair to the Company and its shareholders and do not involve overreaching in respect of the Company or its shareholders on the part of any person concerned, and (ii) the transaction is consistent with the interests of the Company's shareholders and is consistent with the Company's then-current investment objectives and strategies. The Company may determine to participate or not to participate, depending on whether the Adviser determines that the investment is appropriate for the Company (e.g., based on investment strategy). The co-investment would generally be allocated to the Company and the other Antares Lending Platform funds that target similar assets in accordance with the Adviser's allocation policy. If the Adviser determines that such investment is not appropriate for the Company, the investment will not be allocated to the Company.

Note 5. Fair Value Measurements

The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the applicable measurement date.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the overall fair value measurement. The Adviser's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

In addition to using the above inputs in investment valuations, the Adviser applies the valuation policy approved by its Board that is consistent with ASC 820. Consistent with the valuation policy, the Adviser evaluates the source of the inputs, including any markets in which its investments are trading (or any markets in which securities with similar attributes are trading), in determining fair value.

Investments whose values are based on the listed closing price quoted on the securities' principal exchange are classified within Level 1 and include active listed equities. The Adviser does not adjust the quoted price for such instruments, even in situations where the Company holds a large position and a sale could reasonably impact the quoted price.

ASC 820 specifies a fair value hierarchy that prioritizes and ranks the level of observability of inputs used in determination of fair value. In accordance with ASC 820, these levels are summarized below:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the Adviser has the ability to access at the measurement date.

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the assets or liabilities, either directly or indirectly. Level 2 inputs include: quoted market prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Transfers between levels are recognized at the beginning of the period in which the transfers occur. For the three and six months ended June 30, 2026 and 2025, transfers to (out of) Level 3, if any, were a result of changes in the observability of significant inputs for certain portfolio companies.

(1) As of June 30, 2026 and December 31, 2025, amounts of \$225,916 and \$444,227, respectively, included within the fair value of Level 3 assets were valued based on unobservable inputs not developed by the Adviser (e.g., broker quotes and transaction prices).

(2) Weighted averages are calculated based on fair value of investments.

The significant unobservable input used in the yield analysis is the discount rate based on comparable market yields. The significant unobservable inputs used in the income approach are the discount rate used to discount the estimated future cash flows expected to be received from the underlying investment. The Company uses market discount rates for debt securities to determine if the effective yield on a debt security is commensurate with the market yields for that type of debt security. If a debt security's effective yield is significantly less than the market yield for a similar debt security with a similar credit profile, the resulting fair value of the debt security may be lower. Significant increases in the discount rate would significantly lower the fair value of an investment; conversely significant decreases in the discount rate would significantly increase the fair value of an investment. The significant unobservable inputs used in the market approach are based on market comparable transactions and market multiples of publicly traded comparable companies. Increases or decreases in market comparable transactions or market multiples would result in an increase or decrease in the fair value.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may fluctuate from period to period. Additionally, the fair value of the Company's investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that the Company may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If the Company was required to liquidate a portfolio investment in a forced or liquidation sale, it could realize significantly less than the value at which the Company has recorded it. In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the valuations currently assigned. As of both June 30, 2026 and December 31, 2025, the carrying amounts of the Company's assets and liabilities, other than investments at fair value, approximate fair value due to their short maturities or variable interest rates. Fair value is estimated by discounting remaining payments using applicable current market rates, which take into account changes in the Company's marketplace credit ratings, if applicable, or market quotes, if available.

Note 6. Borrowings

In accordance with the 1940 Act, with certain limitations, the Company is allowed to borrow amounts such that its asset coverage, as defined in the 1940 Act, is at least 150% after such borrowing. As of June 30, 2026 and December 31, 2025, the Company's asset coverage was 186.70% and 177.13%, respectively.

Debt outstanding

The Company's outstanding debt obligations were as follows:

	June 30, 2026

(1) The carrying value of the Company's debt obligations is used as an approximate to fair value. The fair value of these debt obligations would be categorized as Level 3 under the ASC 820 fair value level hierarchy as of June 30, 2026 and December 31, 2025. Carrying values do not include impact of deferred financing costs.

(2) The unused portion is the amount upon which commitment fees, if any, are based.

(3) The amount available reflects any limitations related to the respective facility's borrowing base.

Morgan Stanley Facility

On November 6, 2024, APCF Funding SPV LLC, a wholly-owned subsidiary of the Company, as borrower, and the Company, as equity holder and servicer, entered into a loan facility (the "Morgan Stanley Facility") for revolving and term loans pursuant to a Loan and

Servicing Agreement (the “Agreement”), with the lenders from time to time party thereto, Morgan Stanley Senior Funding, Inc., as administrative agent (the “Administrative Agent”), U.S. Bank Trust Company, National Association, as collateral agent (“Collateral Agent”), and U.S. Bank National Association, as account bank and collateral custodian. Capitalized terms used herein but not otherwise defined herein shall have the meanings assigned to such terms in the Agreement.

Loans under the Morgan Stanley Facility initially bear interest at (i) a per annum rate equal to Term SOFR plus an additional margin calculated as a percentage of the aggregate principal balance of the underlying collateral obligations (the “Applicable Margin”) for loans denominated in U.S. Dollars, (ii) EURIBOR plus the Applicable Margin for loans denominated in Euros, (iii) Daily Compounded CORRA plus the Applicable Margin for loans denominated in Canadian Dollars, and (iv) Daily Simple SONIA plus the Applicable Margin for loans denominated in Great British Pounds, (v) BBSW plus the Applicable Margin for loans denominated in Australian Dollars and (vi) TONA plus the Applicable Margin for loans denominated in Japanese Yen. The Applicable Margin equals the product of (i) 1.65% and (ii) the lesser of: (x) aggregate principal balance of all broadly-syndicated loans divided by the aggregate principal balance of all eligible loans and (y) 35% (“Percentage”) plus the product of (i) 1.90% and (ii) 100% minus Percentage, subject to a step-up of 2.00% following the occurrence of an Event of Default or after the automatic occurrence or declaration of the Facility Maturity Date.

The initial maximum principal amount under the Agreement is \$500,000 and the Agreement includes an accordion provision to permit increases to the total facility amount up to a maximum of \$1 billion, subject in each case to the satisfaction of certain conditions and the consent of the Administrative Agent and each Lender whose commitment is being increased. Proceeds from loans made under the Morgan Stanley Facility may be used to fund collateral obligations acquired by APCF Funding SPV LLC, to pay certain fees and expenses and to make distributions to the Company, subject to certain conditions set forth in the Agreement. Revolving loans borrowed under the Morgan Stanley Facility may be repaid and reborrowed until the end of the Revolving Period, which can occur no later than November 6, 2027 (unless extended), and all amounts outstanding under the Morgan Stanley Facility must be repaid by November 6, 2029. The Agreement includes customary affirmative and negative covenants, including certain limitations on the incurrence of additional indebtedness and liens, as well as usual and customary events of default for loan facilities of this nature.

On March 18, 2025, the Company entered into the First Amendment to Loan and Servicing Agreement (the “Amendment”), among the parties listed above. The Amendment provides for, among other things, an increase in the aggregate commitments of the lenders under the Morgan Stanley Facility from \$500,000 to \$1,000,000, as well as certain changes to the concentration limits.

As of June 30, 2026 and December 31, 2025, the Company was in compliance with all covenants associated with the Morgan Stanley Facility.

Revolving Credit Facility

On December 11, 2025, the Company entered into a senior secured credit facility (the “Revolving Credit Facility”) pursuant to a Senior Secured Credit Agreement (the “SMBC Agreement”) with Sumitomo Mitsui Banking Corporation, as administrative agent, the lenders and issuing banks party thereto (the “Lenders”). The SMBC Agreement is effective as of December 11, 2025.

The Company may borrow amounts in U.S. dollars or certain other permitted currencies under the Revolving Credit Facility. Advances under the Revolving Credit Facility drawn in U.S. dollars will initially bear interest at a per annum rate equal to 0.75% or 0.875% plus an “alternate base rate” (as described in the SMBC Agreement) in the case of any loan of any class as provided for under the terms of the SMBC Agreement (a “Loan”) denominated in U.S. dollars and bearing interest at a rate determined by reference to the “alternate base rate” and 1.75% or 1.875% plus Term SOFR (as defined in the SMBC Agreement) in the case of any Term Benchmark Loan (as defined in the SMBC Agreement) or Loan bearing interest at a rate determined by reference to Daily Simple RFR (as defined in the SMBC Agreement), in each case, depending on the Fund’s rate option election and borrowing base (as of the most recently delivered borrowing base certificate delivered under the SMBC Agreement). Advances under the Revolving Credit Facility drawn in currencies other than U.S. dollars will bear interest at certain local rates consistent with market standards. The Company will also pay a fee of 0.325% on average daily undrawn amounts under the Revolving Credit Facility.

The initial principal amount of the Revolving Credit Facility is \$500,000, subject to availability under the borrowing base, which is based on the Fund’s portfolio investments and other outstanding indebtedness, with an accordion provision to permit increases to the total facility amount up to \$875,000, subject to the satisfaction of certain conditions. On January 8, 2026, the Company entered into an agreement with Apple Bank and Webster Bank, National Association to increase the aggregate commitments under the Revolving Credit Facility from \$500,000 to \$560,000 through the accordion feature in the Revolving Credit Facility. The Revolving Credit Facility is guaranteed by certain subsidiaries of the Company, and will be guaranteed by certain domestic subsidiaries of the Company that are

formed or acquired by the Company in the future (collectively, the “Guarantors”). Proceeds of the Revolving Credit Facility may be used for general corporate purposes, including, without limitation, repaying outstanding indebtedness, making distributions, contributions and investments, and acquisition and funding, and such other uses as permitted under the SMBC Agreement.

The Revolving Credit Facility is secured by a perfected first-priority interest in substantially all of the portfolio investments held by the Company and each Guarantor, subject to certain exceptions, and includes a \$50,000 limit for swingline loans.

The availability period under the Revolving Credit Facility will terminate on December 11, 2029 (the “Commitment Termination Date”) and the Revolving Credit Facility will mature on December 11, 2030 (the “Maturity Date”). During the period from the Commitment Termination Date to the Maturity Date, the Fund will be obligated to make mandatory prepayments under the Facility out of the proceeds of certain asset sales, other recovery events and equity and debt issuances.

The SMBC Agreement includes customary affirmative and negative covenants, including financial covenants requiring the Company to maintain a minimum shareholders’ equity and asset coverage ratio, and certain limitations on the incurrence of additional indebtedness and liens, as well as usual and customary events of default for revolving credit facilities of this nature.

As of June 30, 2026 and December 31, 2025, the Company was in compliance with all covenants associated with the Revolving Credit Facility.

Foreign Currency Transactions and Translations

Weighted average interest rates do not include impact of unused commitment fees or amortization of deferred financing costs.

As of June 30, 2026 and December 31, 2025, \$2,042 and \$2,713, respectively, of stated interest expense and \$349 and \$110, respectively, of unused commitment fees were included in interest payable on the Consolidated Statements of Assets and Liabilities.

Note 7. Commitments and Contingencies

In the normal course of business, the Company may enter into contracts that provide a variety of general indemnifications. Any exposure to the Company under these arrangements could involve future claims that may be made against the Company. Currently, no such claims exist or are expected to arise and, accordingly, the Company has not accrued any liability in connection with such indemnifications.

Unfunded commitments

The Company's investment portfolio contains revolving line of credit, delayed draw, or equity commitments, which require the Company to fund when requested by the portfolio companies. As of June 30, 2026 and December 31, 2025, the Company had unfunded investment commitments of \$345,540 and \$427,220, respectively. Such commitments are subject to the satisfaction of certain conditions set forth in the documents governing these loans and letters of credit and there can be no assurance that such conditions will be satisfied.

Off balance sheet risk

Off-balance sheet risk refers to an unrecorded potential liability that may result in a future obligation or loss, even though it does not appear on the Consolidated Statements of Assets and Liabilities. The Company may enter into derivative instruments that contain elements of off-balance sheet market and credit risk. As of June 30, 2026 and December 31, 2025, there were no commitments outstanding for derivative contracts.

Legal proceedings

From time to time, the Company may become a party to certain legal proceedings incidental to the normal course of its business. As of June 30, 2026 and December 31, 2025, management is not aware of any material pending legal proceedings individually or in the aggregate.

Note 8. Net Assets

The Company is currently offering on a continuous basis up to \$2 billion of Common Shares at \$0.01 per share par value and has the authority to issue an unlimited number of Common Shares at \$0.01 per share par value. The Company expects to offer to sell a combination of three separate classes of Common Shares: Class S shares, Class D shares and Class I shares, with a dollar value up to the maximum offering amount. The share classes have different ongoing shareholder servicing and/or distribution fees. The per share purchase price for Common Shares in the Company's Offering will be equal to the Company's NAV per Common Share, as of the effective date of the monthly share purchase date.

The following table summarizes transactions in Common Shares during the three and six months ended June 30, 2026 and 2025:

	Three Months Ended June 30,			
	2026		2025

Net increase (decrease)	3,792,276	\$ 94,735	1,209,481	\$ 30,384

As of June 30, 2026, the Company has not issued any Class S or Class D shares.

As of June 30, 2026 and December 31, 2025, no entity with an advisory relationship with Antares or its affiliates, including the Company, as appropriate given the context of the disclosure (including the Adviser) (“Adviser Parties”) own Common Shares.

Share Repurchase Program

The Company has commenced a share repurchase program in which the Company intends to repurchase, in each quarter, up to 5% of the Common Shares outstanding (either by number of Common Shares or aggregate net asset value) as of the close of the previous calendar quarter. The Company’s Board may amend, suspend or terminate the share repurchase program if it deems such action to be in the best interest of the Company and the best interest of the Company’s shareholders. As a result, share repurchases may not be available each quarter. The Company intends to conduct such repurchase offers in accordance with the requirements of Rule 13e-4 promulgated under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and the 1940 Act. All shares purchased pursuant to the terms of each tender offer will be retired and thereafter will be authorized and unissued shares.

Under the Company’s share repurchase program, to the extent the Company offers to repurchase shares in any particular quarter, the Company expects to repurchase shares pursuant to tender offers using a purchase price equal to the NAV per Common Share as of the last calendar day of the applicable quarter, except that shares that have not been outstanding for at least one year will be repurchased at 98% of such NAV (an “Early Repurchase Deduction”). The one-year holding period is measured as of the subscription closing date immediately following the prospective repurchase date. The Early Repurchase Deduction may be waived, at the Company’s discretion, in the case of repurchase requests arising from the death, divorce or qualified disability of the holder. The Early Repurchase Deduction will be retained by the Company for the benefit of remaining shareholders across all shares.

The following table summarizes the total shares repurchased that were validly tendered and not withdrawn in tender offers under the share repurchase program during the six months ended June 30, 2026:

Repurchase Deadline Request	Percentage of Outstanding Common Shares Offered to Repurchase ⁽¹⁾	Repurchase Pricing Date	Amount Repurchased ⁽²⁾	Number of Shares Repurchased	Percentage of Outstanding Shares Purchased ⁽¹⁾
March 13, 2026	5.00 %	March 31, 2026	\$ 48	1,983	0.01 %
June 11, 2026	5.00 %	June 30, 2026	\$ 1,267	52,497	0.16 %

(1) Percentage is based on total shares outstanding as of the close of the previous quarterly period. All repurchase requests were satisfied in full.

(2) Amounts shown net of early repurchase deduction.

There were no shares repurchased under the share repurchase program during the six months ended June 30, 2025.

Distributions

The Company authorizes and declares distribution amounts per Common Share payable monthly in arrears. The following tables present distributions that were declared during the six months ended June 30, 2026 and 2025:

Distribution Reinvestment Plan

The Company has adopted a distribution reinvestment plan, pursuant to which the Company reinvests all cash distributions declared on behalf of the Company's shareholders who do not elect to receive their distributions in cash. As a result, if the Board authorizes and declares a cash distribution, then the shareholders who have enrolled in the distribution reinvestment plan will have their cash distributions automatically reinvested in additional Common Shares, rather than receiving the cash distribution. The Company expects to use newly issued shares to implement the distribution reinvestment plan. Distributions on fractional shares are credited to each participating shareholder's account to three decimal places.

Note 9. Financial Highlights

The following are the financial highlights for the six months ended June 30, 2026 and 2025:

	Six Months Ended June 30,

Total return based on net asset value ⁽⁴⁾	2.22 %	5.55 %
Ratios: ⁽⁵⁾		
Total expenses to average net assets gross of fee waivers	10.53 %	7.41 %
Net expenses to average net assets net of fee waivers	10.53 %	4.66 %
Net investment income to average net assets	9.04 %	11.14 %
Portfolio turnover rate ⁽⁶⁾	12.19 %	8.70 %
Supplemental Data:		
Net assets, end of period	\$ 809,203	\$ 670,843
Asset coverage ratio ⁽⁷⁾	186.70 %	208.89 %

(1) The per share data was derived by using the weighted average shares outstanding during the period.

(2) The per share data includes a balancing figure that is derived from the other amounts presented in the schedule.

(3) The per share data was derived using the actual shares outstanding at the date of the relevant transaction (See Note 8).

(4) Total return (not annualized) is calculated as the change in net assets per share during the period, plus distributions per share (assuming distributions are reinvested in accordance with the Company's distribution reinvestment plan), divided by the net assets per share at the beginning of the period.

(5) Amounts are annualized except for non-recurring expenses (organization and offering expenses, and incentive fees on capital gains) for the six months ended June 30, 2026 and 2025.

(6) Portfolio turnover rate (not annualized) is calculated using the lesser of the year-to-date sales or year-to-date purchases over the average of the invested assets at fair value for the period reported. Ratio does not include impact of short-term investments.

(7) In accordance with the 1940 Act, with certain limitations, the Company is allowed to borrow amounts such that its asset coverage, as defined in the 1940 Act, is at least 150% after such borrowing.

Note 10. Segment Reporting

The Company operates through a single operating and reporting segment with the investment objective to provide risk-adjusted returns and current income to shareholders by investing primarily in loans to U.S. borrowers. The Chief Operating Decision Maker (the "CODM") function is comprised of the Company's chief executive officer, chief financial officer and chief compliance officer, which evaluates the performance of the Company on a consolidated basis, and which operates under the specific regulatory requirements of the Investment Company Act of 1940. The CODM function utilizes key metrics including, but not limited to, net increase (decrease) in net assets resulting from operations (as reported on the Consolidated Statements of Operations) for determining the Company's investment strategy, capital allocation, expense structure, and potential significant transactions. As the Company's operations are comprised of a single reporting segment, the segment assets are reflected on the accompanying Consolidated Statements of Assets and Liabilities as "total assets" and the significant segment expenses are listed on the accompanying Consolidated Statements of Operations.

Note 11. Subsequent Events

The Company has evaluated events and transactions for potential recognition or disclosure through August 13, 2026. There are no subsequent events to disclose except for the following:

Share Issuances

On July 1, 2026, the Company sold and issued 101,049 Common Shares for an aggregate consideration of approximately \$2,485 at a price of \$24.59 per Common Share, including Common Shares issued through the Company's distribution reinvestment plan.

The Company received \$5,325 of net proceeds relating to the issuance of Common Shares for subscriptions effective August 1, 2026.

Distribution Declaration

On July 28, 2026, the Company declared a regular distribution in the amount of \$0.1880 per Common Share, which is payable to shareholders of record as of July 28, 2026, and will be paid on about August 31, 2026. This distribution will be paid in cash or reinvested in additional Common Shares for shareholders participating in the Company's distribution reinvestment plan.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Overview

We are a non-diversified closed-end management investment company that has elected to be treated as a business development company ("BDC") under the Investment Company Act of 1940, as amended (the "1940 Act") as of November 5, 2024. We also have elected to be treated, and intend to comply with the requirements to qualify annually, as a regulated investment company ("RIC") under the Internal Revenue Code of 1986, as amended (the "Code"). We are a non-traded, perpetual-life BDC, which is a BDC whose common shares ("Common Shares") are not listed for trading on a stock exchange or other securities market. We use the term "perpetual-life BDC" to describe an investment vehicle of indefinite duration whose Common Shares are intended to be sold monthly on a continuous basis at a price generally equal to our net asset value ("NAV") per Common Share. Formed as a Delaware statutory trust on May 1, 2023, we are externally managed by Antares Capital Credit Advisers LLC (the "Adviser"), which is responsible for sourcing potential investments, conducting due diligence on prospective investments, analyzing investment opportunities, structuring investments and monitoring our portfolio on an ongoing basis. Our Adviser is registered as an investment adviser with the U.S. Securities and Exchange Commission ("SEC").

Our investment objective is to provide risk-adjusted returns and current income to shareholders by investing primarily in loans to U.S. borrowers.

Our investment strategy focuses primarily on private credit investments structured as Portfolio Loans to U.S. borrowers. A "Portfolio Loan" is a senior secured loan, which may be first lien, second lien or unitranche loan, consisting of term loans and/or related delayed draw term loans and/or revolving loans, and each tranche of a senior secured loan acquired by us is referred to as a Portfolio Loan. We acquire Portfolio Loans that have been sourced and underwritten (i.e., evaluated for associated potential risks) by Adviser Parties or by other loan originators that can include, among others, joint ventures in which one or more Adviser Parties have interests. A Portfolio Loan is one that we may generally hold on its own or in a group with other Adviser Parties advised funds and accounts and/or third-party investors. Portfolio Loans are generally expected to have an average contractual term of five to seven years, with an expected life typically between three to four years. Unitranche loans represent a hybrid loan structure that combines senior debt and subordinated debt into one loan.

While our investment strategy primarily focuses on companies in the U.S., we also intend to leverage the Antares Lending Platform's global presence to invest in companies in Canada, Europe and other locations outside the U.S., subject to compliance with BDC requirements to invest at least 70% of assets in "eligible portfolio companies". Our subsidiaries' (including entities that engage in investment activities in securities or other assets that are primarily controlled by us) principal investment strategies and associated principal risks will be consistent with our principal investment strategies and associated principal risks. We may also invest in preferred equity, or our debt investments may be accompanied by equity-related securities (such as options or warrants) and/or select common equity investments.

Our investment strategy also includes a smaller allocation to more liquid credit investments such as broadly syndicated loans and corporate bonds. We may use these investments to maintain liquidity for our share repurchase program and manage cash before investing subscription proceeds into originated loans, while also seeking attractive investment returns. We may also invest in publicly traded securities of larger corporate issuers on an opportunistic basis when market conditions create compelling potential return opportunities, subject to compliance with BDC requirements.

To seek to enhance our returns, we intend to employ leverage as market conditions permit and at the discretion of the Adviser, but in no event will leverage employed exceed the limitations set forth in the 1940 Act, which currently allows us to borrow up to a 2:1 debt to equity ratio. We intend to use leverage in the form of borrowings, including loans from certain financial institutions and the issuance of debt securities. We may also use leverage in the form of the issuance of preferred shares, but do not currently intend to do so. In determining whether to borrow money, we will analyze the maturity, covenant package and rate structure of the proposed borrowings as well as the risks of such borrowings compared to our investment outlook. Any such leverage, if incurred, would be expected to increase the total capital available for investment by us.

Revenues

We generate revenue in the form of interest and fee income on debt investments, capital gains, and dividend income from our equity investments in our portfolio companies. Our senior and subordinated debt investments bear interest at a fixed or floating rate. Interest on debt securities is generally payable monthly, quarterly or semi-annually. In some cases, some of our investments may provide for

deferred interest payments or payment-in-kind (“PIK”) interest. The principal amount of the debt securities and any accrued but unpaid PIK interest generally become due at the maturity date. In addition, we may generate revenue from various fees in the ordinary course of business such as in the form of structuring, consent, waiver, amendment, syndication and other miscellaneous fees. Original issue discounts and market discounts or premiums are capitalized, and we accrete or amortize such amounts as interest income. We record prepayment premiums on loans and debt securities as interest income. Dividend income, if any, is recognized on an accrual basis to the extent that we expect to collect such amounts.

Expenses

Except as specifically provided below, all investment professionals and staff of the Adviser, when and to the extent engaged in providing investment advisory services to us, and the base compensation, bonus and benefits, and the routine overhead expenses, of such personnel allocable to such services, will be provided and paid for by the Adviser. We bear all other costs and expenses of our operations, administration and transactions, including, but not limited to:

- investment advisory fees, including management fees and incentive fees, paid to the Adviser pursuant to the Investment Advisory Agreement;
- our allocable portion of compensation, overhead (including rent, office equipment and utilities) and other expenses incurred by the Administrator in performing its administrative obligations under the Administration Agreement, including but not limited to: (i) our chief compliance officer, chief financial officer and their respective staffs; (ii) investor relations, legal, operations and other non-investment professionals at the Administrator that perform duties for us; and (iii) any internal audit group personnel of the Adviser or any of its affiliates; and
- all other expenses of our operations, administration and transactions (which may be directly incurred by us or allocated among us and the Adviser’s other clients).

From time to time, the Adviser or its affiliates may pay third-party providers of goods or services. We reimburse the Adviser such affiliates thereof for any such amounts paid on our behalf. From time to time, the Adviser may defer or waive fees and/or rights to be reimbursed for expenses. All of the foregoing expenses are ultimately borne by our shareholders, unless waived.

Portfolio and Investment Activity

As of June 30, 2026, we had investments in 410 portfolio companies across 45 industries. Based on fair value as of June 30, 2026, approximately 99.46% of our debt portfolio was invested in debt bearing a floating interest rate (e.g. Secured Overnight Financing Rate (“SOFR”)), which primarily is subject to interest rate floors. As of June 30, 2026, our weighted average yield on debt and income producing investments at amortized cost was 8.43%. Weighted average yield excludes the effect of accretion of discounts and amortization of premiums and are based on interest rates as of June 30, 2026.

As of December 31, 2025, we had investments in 438 portfolio companies across 45 industries. Based on fair value as of December 31, 2025, approximately 99.46% of our debt portfolio was invested in debt bearing a floating interest rate, which primarily is subject to interest rate floors. As of December 31, 2025, our weighted average yield on debt and income producing investments at amortized cost was 8.27%. Weighted average yield excludes the effect of accretion of discounts and amortization of premiums and are based on interest rates as of December 31, 2025.

Investment disclosures in this section are related to non-controlled/non-affiliated investments unless otherwise indicated.

- (1) Computed based on the stated interest rate or yield as of June 30, 2026 and December 31, 2025, and weighted based on the total debt and income producing investments (at fair value or amortized cost, as applicable). Actual yields earned over the life of each investment could differ materially from the yields presented above. Weighted average yield excludes the effect of accretion of discounts and amortization of premiums.
- (2) Includes all private loan investments for which fair value is determined by the Adviser at least quarterly (with assistance, as applicable, from a third-party valuation firm, and subject to oversight by the Board). Figures are derived from the financial statements most recently obtained by the Adviser.
- (3) LTM EBITDA refers to adjusted earnings before interest, taxes, depreciation and amortization ("EBITDA") in accordance with the underlying governing documents, over the last twelve months as reported by respective borrowers. Excludes investments with no reported EBITDA or where EBITDA, in the Adviser's judgment, was not a material component of the investment thesis, such as annual recurring revenue loans, or investments with negative EBITDA.
- (4) Net senior leverage is the ratio of total debt minus unrestricted cash divided by LTM EBITDA and taking into account leverage through the tranche in which we hold an investment, excluding recurring revenue loans. Weighted average net senior leverage is weighted based on the funded commitment of total applicable private loans.
- (5) LTV is calculated as net debt through each respective investment tranche in which we hold an investment divided by estimated enterprise value or value of the underlying collateral of the portfolio company, excluding recurring revenue loans. Weighted average LTV is weighted based on the funded commitment of the total applicable private loans.

As part of the monitoring process, our Adviser has developed risk policies pursuant to which it regularly assesses the risk profile of each of our debt investments. Our Adviser has developed a classification system to group investments into five categories. The investments are evaluated regularly and assigned a category based on certain credit metrics. Our Adviser's ratings do not constitute any rating of investments by a nationally recognized statistical rating organization or represent or reflect any third-party assessment of any of our investments. Please see below for a description of the five categories of the Adviser's Internal Risk Rating system:

- Internal Performance Rating A: Portfolio companies performing generally as expected or above expectations and the trends and risk factors are generally neutral to favorable since origination. No concern about repayment of both interest and principal. All investments or acquired investments in new portfolio companies are initially assessed this level.
- Internal Performance Rating B: Portfolio companies performing generally as expected but the trends require increased monitoring. Portfolio companies are current on both interest and principal payments.
- Internal Performance Rating C: Portfolio companies performing below expectations and level of risk has increased since the time of origination. Portfolio companies are generally current on both interest and principal payments.
- Internal Performance Rating D: Portfolio companies performing materially below expectations and the level of risk has increased materially since origination. In addition to the borrower being generally out of compliance with original debt covenants, loan payments may be past due, but generally not by more than 120 days. There is a higher risk of both payment default and repayment of interest and principal in full.
- Internal Performance Rating E: Portfolio companies are non-earning and performing substantially below expectations. The level of risk has increased substantially since origination. Most or all of the original debt covenants are out of compliance and payments are substantially delinquent. There is a high risk that all principal and interest will not be recovered in full.

The following tables show the distribution of our investments on the A to E internal performance rating scale at fair value:

As of June 30, 2026, there were two portfolio companies with loans on non-accrual status (fair value of \$101). As of December 31, 2025, there was one portfolio company with loans on non-accrual status (fair value of \$174). Loans are generally placed on non-accrual status when there is reasonable doubt that principal or interest will be collected in full. Accrued interest is generally reversed when a loan is placed on non-accrual status. Non-accrual loans are restored to accrual status when past due principal and interest is paid current and, in management's judgment, are likely to remain current. Management may make exceptions to this treatment and determine to not place a loan on non-accrual status if the loan has sufficient collateral value and is in the process of collection.

Net increase (decrease) in net assets resulting from operations can vary from period to period as a result of various factors, including deployment, the level of new investment commitments, the recognition of realized gains and losses and changes in unrealized appreciation and depreciation on the investment portfolio. As a result, comparisons may not be meaningful.

Investment Income

Investment income, was as follows for the three and six months ended June 30, 2026 and 2025 (table below in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,

[Table of Contents](#)

Total investment income for the three and six months ended June 30, 2026 increased relative to the same period in the prior year, primarily driven by our deployment of capital and increase in our investment portfolio. The size of our investment portfolio at fair value increased from \$1.2 billion as of June 30, 2025 to \$1.7 billion as of June 30, 2026, which has increased the balance of interest-bearing securities period-over-period. The weighted average yield on debt and income producing investments, at fair value, decreased to 8.4% as of June 30, 2026, from 9.0% as of June 30, 2025, which is attributable to decreases in index rates. Included in interest income are other fees such as prepayment fees and accelerated amortization of upfront fees from unscheduled paydowns which are non-recurring in nature.

Interest income on our debt investments is dependent on interest rates and volume of loans outstanding, as well as the composition and credit quality of the portfolio. Generally, we expect the portfolio to generate predictable quarterly interest income based on the terms stated in each loan's respective credit agreement.

Other income includes fees that are generally available to us as a result of investment originations by Adviser Parties, and generally paid at the time of closing or as a result of episodic amendments made to the terms of our existing debt investments. Other income for the three and six months ended June 30, 2026 decreased as compared to the three and six months ended June 30, 2025 primarily driven by a decline in origination fees from lower investment deployment. Included in investment income is dividend income from common equities and payment-in-kind dividend income from preferred equities.

Expenses

Expenses were as follows (table below in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Interest and debt expenses	\$ 14,235	\$ 8,704	\$ 28,432	\$ 12,962

Net expenses, net of fee waivers	\$ 20,665	\$ 10,266	\$ 41,356	\$ 15,402

Total operating expenses were \$1.4 million and \$3.0 million, respectively, for the three and six months ended June 30, 2026, primarily comprised of \$0.8 million and \$1.9 million, respectively, of other general and administrative expenses (including legal, rating agencies, audit, tax, valuation, technology, insurance, filing, research, and fees paid to our sub-administrator, custodian and transfer agent, and other professional fees related to our management), \$0.2 million and \$0.4 million, respectively, of administrative service expenses, and \$0.3 million and \$0.6 million, respectively, in organization and offering costs.

Total operating expenses were \$1.7 million and \$3.1 million, respectively, for the three and six months ended June 30, 2025, primarily comprised of \$0.9 million and \$1.6 million, respectively, of other general and administrative expenses (including legal, rating agencies, audit, tax, valuation, technology, insurance, filing, research, and fees paid to our sub-administrator, custodian and transfer agent, and other professional fees related to our management), \$0.2 million and \$0.3 million, respectively, of administrative service expenses, and \$0.6 million and \$1.1 million, respectively, in organization and offering costs.

The increase in management and incentive fees was primarily driven by growth in NAV, increased deployment into loan investments, which resulted in higher total investment income, and the conclusion of the fee waiver in August 2025.

Interest and Debt Expenses

The components of interest and debt expenses, cash paid for interest, weighted average interest rates and average debt outstanding balances were as follows (dollar amounts in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025

Total average debt outstanding	\$ 944,159	\$ 535,374	\$ 950,083	\$ 395,914

Interest and other debt expenses increased to \$14.2 million and \$28.4 million, respectively, for the three and six months ended June 30, 2026, compared to \$8.7 million and \$13.0 million, respectively, for the three and six months ended June 30, 2025, primarily driven by continued deployment and increased borrowings year-over-year.

Weighted average interest rates do not include impact of unused commitment fees or amortization of deferred financing costs.

Net Realized and Change in Unrealized Gains and Losses

The following table summarizes our net realized and unrealized gains (losses) on investments (table below in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Net realized gain (loss) on non-controlled, non-affiliated investments	\$ (247)	\$ (15)	\$ (913)	\$ (14)
Net change in unrealized appreciation (depreciation) on non-controlled, non-affiliated investments	816	1,442	(17,748)	(440)
Net realized and change in unrealized gain (loss) on non-controlled, non-affiliated investments	\$ 569	\$ 1,427	\$ (18,661)	\$ (454)

For the three months ended June 30, 2026, net realized and change in unrealized gain on investments was driven by mark-to-market gains in the fair value of private credit and broadly syndicated loan portfolios, primarily attributable to modest price recoveries in the private and liquid markets. For the six months ended June 30, 2026, net realized and change in unrealized loss on investments was driven by mark-to-market losses in the fair value of private credit and broadly syndicated loan portfolios, primarily caused by the impact of the widening credit spreads on the portfolio. As of June 30, 2026 and December 31, 2025, the fair value of our debt investments as a percentage of principal (excluding unfunded commitments) was 98.73% and 99.64%, respectively.

Management fee

The base management fee is payable monthly in arrears at an annual rate of 1.25% of our NAV as of the beginning of the first business day of the month. For the three and six months ended June 30, 2026, we incurred management fees of \$2.5 million and \$4.9 million, respectively. For the three and six months ended June 30, 2026, the Adviser elected not to waive any management fees. For the three and six months ended June 30, 2025, we incurred management fees of \$2.0 million and \$4.0 million, respectively, before impact of waived fees. For both the three and six months ended June 30, 2025, the Adviser elected to waive all management fees, resulting in no management fees net of waiver.

Incentive fee

The incentive fee consists of two components that are independent of each other, with the result that one component may be payable even if the other is not. A portion of the incentive fee is based on a percentage of income and a portion is based on a percentage of capital gains, each described below.

Income based incentive fee

The income based incentive fee is based on “Pre-Incentive Fee Net Investment Income Returns” meaning dividends, cash interest or other distributions or other cash income and any third-party fees received from portfolio companies (such as upfront fees, commitment fees, origination fees, amendment fees, ticking fees and break-up fees, as well as prepayment premiums, but excluding fees for providing managerial assistance and fees earned by the Adviser or an affiliate in its capacity as an administrative agent, syndication agent, collateral agent, loan servicer or other similar capacity) accrued during the month, minus operating expenses for the month (including the management fee, taxes, any expenses payable under the Investment Advisory Agreement and Administration Agreement (as defined below), any expense of securitizations, and interest expense or other financing fees and any dividends paid on preferred shares, but excluding the incentive fee and shareholder servicing and /or distribution fees). Pre-Incentive Fee Net Investment Income Returns includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with PIK interest and zero-coupon securities), accrued income that has not yet been received in cash. Pre-Incentive Fee Net Investment Income Returns do not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. The impact of expense support payments and recoupments are also excluded from Pre-Incentive Fee Net Investment Income Returns.

Pre-Incentive Fee Net Investment Income Returns, expressed as a rate of return on the value of net assets at the end of the preceding quarter, is compared to a “hurdle rate” of return of 1.50% per quarter (6.0% annualized). We pay an incentive fee quarterly as follows:

- No incentive fee based on Pre-Incentive Fee Net Investment Income Returns in any calendar quarter in which the Pre-Incentive Fee Net Investment Income Returns does not exceed the hurdle rate of 1.50% per quarter (6.0% annualized).
- 100% of the dollar amount of the Pre-Incentive Fee Net Investment Income Returns with respect to that portion of such Pre-Incentive Fee Net Investment Income Returns, if any, that exceeds the hurdle rate but is less than a rate of return of 1.71% (6.86% annualized).
- 12.5% of the dollar amount of the Pre-Incentive Fee Net Investment Income Returns, if any, that exceed a rate of return of 1.71% (6.86% annualized).

Capital gains incentive fee

The second component of the incentive fee, the capital gains incentive fee, is payable at the end of each calendar year in arrears. The amount payable is equal to 12.5% of cumulative realized capital gains from inception through the end of such calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gains incentive fee as calculated in accordance with U.S. GAAP. U.S. GAAP requires that the capital gains incentive fee accrual consider the cumulative aggregate unrealized capital appreciation in the calculation, as a capital gains incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the investment advisory agreement. This U.S. GAAP accrual is calculated using the aggregate cumulative realized capital gains and losses and aggregate cumulative unrealized capital depreciation included in the calculation of the capital gains incentive fee plus the aggregate cumulative unrealized capital appreciation, net of any expense associated with cumulative unrealized capital depreciation or appreciation. If such amount is positive at the end of a period, then U.S. GAAP requires us to record a capital gains incentive fee equal to 12.5% of such cumulative amount, less the aggregate amount of actual capital gains incentive fees paid or capital gains incentive fees accrued under U.S. GAAP in all prior periods. Gross capital gains incentive fee is net of reversal on accrued capital gains incentive fees. The fees that are payable under the Investment Advisory Agreement for any partial period are appropriately prorated.

On October 31, 2024, we and the Adviser entered into a waiver letter agreement (the “Waiver Letter Agreement”), pursuant to which the Adviser agreed to irrevocably waive, which may be effected by a rebate or otherwise, (i) any base management fee due from us to the Adviser under Section 5(a) of the Investment Advisory Agreement and (ii) any incentive fee from us to the Adviser under Section 5(b) of the Investment Advisory Agreement for a six-month period following the effective date of our registration statement on Form N-2, which was declared effective on February 12, 2025.

For the three and six months ended June 30, 2026, we incurred income based incentive fees of \$2.5 million and \$5.0 million, respectively, and no capital gains incentive fees. For the three and six months ended June 30, 2026, the Adviser did not waive any incentive fees. For the three and six months ended June 30, 2025, we incurred income based incentive fees of \$2.4 million and \$4.7 million, respectively, and no capital gains incentive fees. For the three and six months ended June 30, 2025, the Adviser agreed to waive all incentive fees, resulting in no incentive fees net of waiver.

Expense Support Agreement

On October 16, 2024, the Board approved an expense support and conditional reimbursement agreement (the “Expense Support Agreement”). Under the terms of the Expense Support Agreement, the Adviser will pay our total organization and offering expenses, professional fees, director fees, administration fees, and other general and administrative expenses on our behalf such that our operating expenses do not exceed 1.00% (on annualized basis) of our NAV. Additionally, the Adviser may elect to pay certain of our additional expenses on our behalf. Following any calendar month in which Available Operating Funds (as defined below) exceed the cumulative distributions accrued to our shareholders based on distributions declared with respect to record dates occurring in such calendar month (the amount of such excess being hereinafter referred to as “Excess Operating Funds”), we shall pay such Excess Operating Funds, or a portion thereof, to the Adviser until such time as all expense payments made by the Adviser to us within three years prior to the last business day of such calendar month have been reimbursed. “Available Operating Funds” means the sum of (i) our net investment company taxable income (including net short-term capital gains reduced by net long-term capital losses), (ii) our net capital gains (including the excess of net long-term capital gains over net short-term capital losses) and (iii) dividends and other distributions paid to us on account of investments in portfolio companies (to the extent such amounts listed in clause (iii) are not included under clauses (i) and (ii) above).

In addition, effective October 31, 2024, we and the Adviser entered into a waiver letter agreement (the “Waiver Letter Agreement”), pursuant to which the Adviser agreed to waive any reimbursement by us for any of our organization expenses, operating expenses and offering expenses the Adviser incurs or has incurred on our behalf in an aggregate amount not to exceed \$2 million. The Waiver Letter Agreement includes reimbursement provisions substantially similar to the reimbursement provisions included in the Expense Support Agreement.

For the six months ended June 30, 2026 and 2025, the Adviser waived \$0 and \$0.6 million expenses, respectively, pursuant to the Expense Support Agreement which is included in the Consolidated Statements of Operations.

Financial Condition, Liquidity and Capital Resources

We expect to generate cash primarily from (i) the net proceeds of the Offering, (ii) cash flows from our operations, (iii) any financing arrangements we may enter into in the future and (iv) any future offerings of our equity or debt securities. We intend to sell our Common Shares on a continuous monthly basis at a per share price equal to the then-current NAV per Common Share. Our primary uses of cash will be for (i) investments in portfolio companies and other investments, (ii) the cost of operations (including paying the Adviser (in its capacity as the Adviser and/or the Administrator)), (iii) cost of any borrowings or other financing arrangements and (iv) cash distributions to the holders of our shares.

As of June 30, 2026, we had two credit facilities outstanding. From time to time, we may enter into additional credit facilities, increase the size of our existing credit facilities, enter additional short-term lending arrangements, and/or issue debt securities, including unsecured notes. In accordance with the 1940 Act, with certain limited exceptions, we are only allowed to incur borrowings, issue debt securities or issue preferred stock, if immediately after the borrowing or issuance, the ratio of total assets (less total liabilities other than indebtedness) to total indebtedness plus preferred stock, is at least 150%. As of June 30, 2026, we had an aggregate amount of \$933.4 million of principal debt outstanding and our asset coverage ratio was 186.70%. We seek to carefully consider our unfunded commitments for the purpose of planning our ongoing financial leverage. We believe that our current cash on hand, our short-term investments, our available borrowing capacity under our Revolving Credit Facility and our anticipated cash flows from operations will be adequate to meet our cash needs for our daily operations in the near term.

Share Repurchase Program

We have commenced a share repurchase program in which we intend to repurchase, in each quarter, up to 5% of the Common Shares outstanding (either by number of Common Shares or aggregate NAV) as of the close of the previous calendar quarter. Our Board of Trustees may amend, suspend or terminate the share repurchase program if it deems such action to be in our best interest and the best interest of our shareholders. As a result, share repurchases may not be available each quarter. We intend to conduct such repurchase offers in accordance with the requirements of Rule 13e-4 promulgated under the Exchange Act and the 1940 Act. All shares purchased pursuant to the terms of each tender offer will be retired and thereafter will be authorized and unissued shares.

Under our share repurchase program, to the extent we offer to repurchase shares in any particular quarter, we expect to repurchase shares pursuant to tender offers using a purchase price equal to the NAV per Common Share as of the last calendar day of the applicable quarter, except that shares that have not been outstanding for at least one year will be repurchased at 98% of such NAV (an “Early Repurchase Deduction”). The one-year holding period is measured as of the subscription closing date immediately following the prospective repurchase date. The Early Repurchase Deduction may be waived, at our discretion, in the case of repurchase requests arising from the death, divorce or qualified disability of the holder. The Early Repurchase Deduction will be retained by us for the benefit of remaining shareholders across all shares.

The following table summarizes the total shares repurchased that were validly tendered and not withdrawn in tender offers under the share repurchase program during the six months ended June 30, 2026. There were no shares repurchased under the share repurchase program during the six months ended June 30, 2025.

Repurchase Deadline Request	Percentage of Outstanding Common Shares Offered to Repurchase ⁽¹⁾	Repurchase Pricing Date	Amount Repurchased ⁽²⁾	Number of Shares Repurchased	Percentage of Outstanding Shares Purchased ⁽¹⁾

Distribution Reinvestment Plan

We have adopted a distribution reinvestment plan, pursuant to which we will reinvest all cash distributions declared on behalf of our shareholders who do not elect to receive their distributions in cash. As a result, if we declare a cash distribution, then shareholders who have not opted out of our distribution reinvestment plan will have their cash distributions automatically reinvested in additional shares, rather than receiving the cash distribution. Distributions on fractional shares will be credited to each participating shareholder's account to three decimal places.

Related-Party Transactions

We have entered into a number of business relationships with affiliated or related parties, including the following:

- the Investment Advisory Agreement;
- the Administration Agreement; and
- Expense Support and Conditional Reimbursement Agreement,

In addition to the aforementioned agreements, we, our Adviser and certain of our Adviser's affiliates have been granted exemptive relief by the SEC to co-invest with other funds and accounts sponsored or managed by our Adviser or its affiliates in a manner consistent with our investment objective, positions, policies, strategies and restrictions as well as regulatory requirements and other pertinent factors. For additional information, see "Note 3. Agreements and Related Party Transactions" to the consolidated financial statements.

Recent Developments

Share Issuances

On July 1, 2026, we sold and issued 101,049 Common Shares for an aggregate consideration of approximately \$2.5 million at a price of \$24.59 per Common Share, including Common Shares issued through the Company's distribution reinvestment plan.

We received \$5.3 million of net proceeds relating to the issuance of Common Shares for subscriptions effective August 1, 2026.

Distribution Declaration

On July 28, 2026, we declared a regular distribution in the amount of \$0.1880 per Common Share, which is payable to shareholders of record as of July 28, 2026, and will be paid on about August 31, 2026. This distribution will be paid in cash or reinvested in additional Common Shares for shareholders participating in our distribution reinvestment plan.

Critical Accounting Estimates

The preparation of the consolidated financial statements will require our management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Changes in the economic environment, financial markets and any other parameters used in determining such estimates could cause actual results to differ. In addition, our critical accounting estimates related to investments and fair value measurement are included in the notes to our consolidated financial statements. For a discussion of our critical accounting policies, see Note 2 "Significant Accounting Policies" to the Consolidated Financial Statements.

We are required to report investments for which current market values are not readily available at fair value. We value our investments in accordance with ASC 820, Fair Value Measurement, which defines fair value as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the applicable measurement date. ASC 820 prioritizes the use of observable market prices derived from such prices over entity-specific inputs. Due to the inherent uncertainties of valuation, certain estimated fair values may differ significantly from the values that would have been realized had a ready market for these investments existed, and these differences could be material.

Contractual Obligations

We entered into the Investment Advisory Agreement with the Adviser to provide us with investment advisory services and the Administration Agreement with Antares Capital Credit Advisers LLC (in its capacity as the Administrator) to provide us with administrative services. Payments for investment advisory services under the Investment Advisory Agreements and reimbursements under the Administration Agreement are described in "Item 1. Consolidated Financial Statements—Notes to the Consolidated Financial Statements—Note 3. Agreements and Related Party Transactions."

We have established one or more credit facilities and may in the future establish additional credit facilities or enter into other financing arrangements to facilitate investments and the timely payment of our expenses. It is anticipated that any such credit facilities will bear interest at floating rates at to-be-determined spreads over SOFR (or other applicable reference rate). We cannot assure shareholders that we will be able to enter into a credit facility on favorable terms or at all. In connection with a credit facility or other borrowings, lenders may require us to pledge assets and may ask us to comply with positive or negative covenants that could have an effect on our operations.

Off-Balance Sheet Arrangements

Other than contractual commitments and other legal contingencies incurred in the normal course of our business, we do not have any off-balance sheet financings or liabilities.

Unfunded Commitments

Our investment portfolio may contain revolving line of credit commitments, delayed draw commitments, and certain equity investments, which may require us to fund when requested by portfolio companies. As of June 30, 2026 and December 31, 2025, we had unfunded investment commitments of \$345.5 million and \$427.2 million, respectively. Such commitments are subject to the satisfaction of certain conditions set forth in the documents governing these investments and there can be no assurance that such conditions will be satisfied.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are subject to financial market risks, including changes in interest rates and foreign exchange rates. A rise in the general level of interest rates can be expected to lead to higher interest rates applicable to the variable rate investments we may hold and to declines in the value of any fixed rate investments we may hold. A rise in interest rates would also be expected to lead to higher cost on our floating rate borrowings. If deemed prudent, we may use interest rate risk management techniques in an effort to minimize our exposure to interest rate fluctuations. We seek to mitigate interest rate risk and foreign currency risk by generally employing a funding strategy of matching the duration and interest rate indices of our floating rate assets with floating rate liabilities, as well as matching currencies between our borrowing and lending, to the extent possible.

Valuation Risk

We plan to invest primarily in illiquid debt securities of private companies. Most of our investments do not have a readily available market price, and we value these investments at fair value as determined in good faith pursuant to procedures adopted by, and under the oversight of, the Board in accordance with our valuation policy. There is no single standard for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments we make.

Interest Rate Risk

Interest rate sensitivity refers to the change in earnings that may result from changes in the level of interest rates. We intend to fund portions of our investments with borrowings, and at such time, our net investment income will be affected by the difference between the rate at which we invest and the rate at which we borrow. Accordingly, we cannot assure shareholders that a significant change in market interest rates will not have a material adverse effect on our net investment income.

As of June 30, 2026, 99.46% of our performing debt investments at fair value were at floating rates, which are generally SOFR based and typically have durations of one to three months after which they reset to current interest rates, and many of which are subject to certain floors. Our credit facilities (including the Morgan Stanley Facility and Revolving Credit Facility) bear interest at floating rates with zero percent interest rate floors. Based on our Consolidated Statements of Assets and Liabilities as of June 30, 2026, the following table shows the annualized impact on net interest income of hypothetical base rate changes in interest rates (considering base rate floors and ceilings for floating rate instruments) and assuming no changes in our investment and borrowing structure (table below in thousands):

Change in Interest Rates	Interest Income	Interest Expense	Net Interest Income
Up 300 basis points	\$ 50,935	\$ (28,001)	\$ 22,934
Up 200 basis points	33,957	(18,667)	15,290
Up 100 basis points	16,978	(9,334)	7,644
Down 100 basis points	(16,978)	9,334	(7,644)
Down 200 basis points	(33,793)	18,667	(15,126)
Down 300 basis points	(49,074)	27,747	(21,327)

We may in the future hedge against interest rate fluctuations by using hedging instruments such as interest rate swaps, futures, options and forward contracts. While hedging activities may mitigate our exposure to adverse fluctuations in interest rates, certain hedging transactions that we may enter into in the future, such as interest rate swap agreements, may also limit our ability to participate in the benefits of changes in interest rates with respect to our portfolio investments.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

In accordance with Rules 13a-15(b) and 15d-15(b) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), we, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q and determined that our disclosure controls and procedures are effective as of the end of the period covered by the Quarterly Report on Form 10-Q.

(b) Changes in Internal Controls Over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended June 30, 2026 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

We are not currently subject to any material legal proceedings, nor, to our knowledge, is any material legal proceeding threatened against us. From time to time, we may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. Our business is also subject to extensive regulation, which may result in regulatory proceedings against us. While the outcome of any such future legal or regulatory proceedings cannot be predicted with certainty, we do not expect that any such future proceedings will have a material effect upon our financial condition or results of operations.

Item 1A. Risk Factors.

For information regarding factors that could affect our results of operations, financial condition and liquidity, see risk factors disclosed in “Item 1A Risk Factors” of our Annual Report on Form 10-K, filed with the SEC on March 19, 2026. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially affect our business, financial condition and/or operating results. There have been no material changes during the three months ended June 30, 2026 to the risk factors set forth in “Item 1A. Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2025.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Except as described and as previously reported on our current reports on Form 8-K, we did not sell any securities during the period covered by this Quarterly Report on Form 10-Q that were not registered under the Securities Act.

Item 3. Defaults Upon Senior Securities.
