FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2026

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number 814-01700

ANTARES PRIVATE CREDIT FUND

(Exact name of Registrant as specified in its Charter)

Delaware
(State or other jurisdiction of
incorporation or organization)
320 South Canal Street, Suite 4200
Chicago, IL
(Address of principal executive offices)

93-3416650
(I.R.S. Employer
Identification No.)

60606
(Zip Code)

312-638-4000
Registrant's telephone number, including area code

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
None	None	None

Securities registered pursuant to Section 12(g) of the Act:
Class I Shares, par value \$0.01 per share
Class S Shares, par value \$0.01 per share
Class D Shares, par value \$0.01 per share
(Title of class)

Indicate by check mark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the Registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit such files). YES NO

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definition of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input checked="" type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
Emerging growth company	<input checked="" type="checkbox"/>		

If an emerging growth company, indicate by check mark if the Registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act). YES NO

The Registrant's common shares of beneficial interest ("Common Shares"), \$0.01 par value per share, outstanding as of May 13, 2026 was 32,520,661 of Class I Shares. No Class S or Class D Shares have been issued as of May 13, 2026. Common Shares outstanding exclude May 1, 2026 subscriptions and share issuance pursuant to the dividend reinvestment plan, as the issuance price is not yet finalized at this time.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

The information contained in this section should be read in conjunction with our consolidated financial statements and notes thereto appearing elsewhere in this Quarterly Report. In addition, some of the statements in this Quarterly Report (including in the following discussion) constitute forward-looking statements, which relate to future events or the future performance or financial condition of Antares Private Credit Fund (the “Company,” “we,” “us,” or “our”). The Company is externally managed by Antares Capital Credit Advisers LLC (the “Adviser”). The forward-looking statements contained in this report involve a number of risks and uncertainties, including statements concerning:

- we have a limited operating history;
- our, or our portfolio companies’, future business, operations, operating results or prospects;
- the return or impact of current and future investments;
- changes in the general economy, including those caused by tariffs and trade disputes with other countries, changes in inflation, risk of recession and a prolonged United States government shutdown;
- the impact of changes in laws or regulations (including the interpretation thereof), including tax laws, governing our operations or the operations of our portfolio companies or the operations of our competitors;
- the valuation of our investments in portfolio companies, particularly those having no liquid trading market;
- market conditions and our ability to access different debt markets and additional debt and equity capital and our ability to manage our capital resources effectively;
- our contractual arrangements and relationships with third parties;
- the state of the general economy;
- the impact of supply chain constraints on our portfolio companies and the global economy;
- uncertainty surrounding global financial stability, including the liquidity of certain banks;
- the financial condition of our current and prospective portfolio companies and their ability to achieve their objectives;
- the impact of information technology system failures, data security breaches, data privacy compliance, network disruptions, and cybersecurity attacks;
- our ability to raise capital in the private and public debt and equity markets;
- our ability to anticipate and identify evolving market expectations with respect to environmental, social and governance matters, including the environmental impacts of our portfolio companies’ supply chain and operations;
- the outcome and impact of any litigation or regulatory proceeding;
- the adequacy of our cash resources and working capital;
- the timing, form and amount of any dividend distributions;
- the timing of cash flows, if any, from the operations of our portfolio companies; and
- the ability of our adviser to locate suitable investments for us and to monitor and administer our investments.

We use words such as “anticipates,” “believes,” “expects,” “intends,” “project,” “estimates,” “will,” “should,” “could,” “would,” “may” and similar expressions to identify forward-looking statements, although not all forward-looking statements include these words. Our actual results and condition could differ materially from those implied or expressed in the forward-looking statements for any reason, including the factors set forth in “Risk Factors” on the Company’s registration statement on Form N-2, the Company’s Annual Report on Form 10-K, the Company’s current reports on Form 8-K, and this Quarterly Report.

We have based the forward-looking statements included in this Quarterly Report on information available to us on the filing date of this Quarterly Report, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we have filed or in the future may file with the Securities and Exchange Commission (the “SEC”), including annual reports on Form 10-K, registration statement on Form N-2, quarterly reports on Form 10-Q and current reports on Form 8-K.

Cash paid for taxes	300	—
Distributions payable	6,802	5,426
Reinvestment of distributions	1,088	—
Payable for shares repurchased	49	—

(1) The Company has made a prospective presentation change to reclassify money market fund investments as short-term investments, resulting in their exclusion from cash and cash equivalents beginning in the reporting period ended June 30, 2025. As a result, cash as of the beginning of the three months ended March 31, 2025 includes \$39,527 of money market fund investments. As of the beginning of the three months ended March 31, 2026, short-term investments are excluded from cash. See Note 2 for additional detail.

See accompanying notes to the consolidated financial statements.

1. Unless otherwise indicated, issuers of debt and equity investments held by the Company (which such term “Company” shall include the Company’s consolidated subsidiaries for purposes of this Consolidated Schedule of Investments) are denominated in dollars. All debt investments are income producing unless otherwise indicated. All equity investments are non-income producing unless otherwise noted. Certain portfolio company investments are subject to contractual restrictions on sales. The total par amount is presented for debt investments and the number of shares or units owned is presented for equity investments.
2. The majority of the investments bear interest at a rate that may be determined by reference to the Secured Overnight Financing Rate (“SOFR” or “S”), Prime Rate (“Prime” or “P”), Canadian Overnight Repo Rate Average (“CORRA” or “C”), Sterling Overnight Index Average (“SONIA” or “SON”), Euro Interbank Offered Rate (“EURIBOR” or “E”) or other relevant benchmark, which reset daily, monthly, quarterly, semiannually or annually. For each such investment, the Company has provided the spread over reference rates and the current contractual interest rate in effect on March 31, 2026. Certain investments are subject to an interest rate floor, or rate cap. Certain investments contain a Payment-in-Kind (“PIK”) provision. SOFR based contracts may include a credit spread adjustment, which is included within the stated all-in interest rate, if applicable, that is charged in addition to the base rate and the stated spread.
3. Investments with par value / shares less than 500 shown as zero.
4. The cost represents the original cost adjusted for the amortization of discounts and premiums, as applicable, on debt investments using the effective interest method in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).
5. These investments were not valued using unobservable inputs and are not considered Level 3 investments. Fair value was determined in good faith by the Adviser as the Company’s valuation designee, subject to the oversight of the Board of Trustees (the “Board”) (see Note 2 and Note 5), pursuant to the Company’s valuation policy.
6. The investment is not a qualifying asset, in whole or in part, under Section 55(a) of the 1940 Act. The Company may not acquire any non-qualifying asset unless, at the time of acquisition, qualifying assets represent at least 70% of the Company’s total assets. As of March 31, 2026, non-qualifying assets represented 5.56% of total assets as calculated in accordance with regulatory requirements.
7. Position or portion thereof is an unfunded investment, and no interest is being earned on the unfunded portion, although the investment may be subject to unused commitment fees. Negative cost and fair value results from unamortized fees, which are capitalized to the investment cost. The unfunded investment may be subject to a commitment termination date that may expire prior to the maturity date stated. Such commitments are subject to the satisfaction of certain conditions set forth in the documents governing these investments and there can be no assurance that such conditions will be satisfied. See the following page and Note 7 to the Consolidated Financial Statements for more information on the Company’s unfunded commitments.
8. Position or portion thereof is pledged as collateral under the Morgan Stanley Facility.
9. Security exempt from registration under the Securities Act of 1933 (the “Securities Act”), and may be deemed to be “restricted securities” under the Securities Act. As of March 31, 2026, the aggregate fair value of these securities is \$24,248 or 3.05% of the Company’s net assets. The acquisition dates of these restricted securities are as follows:

10. These are co-investments made with the Company's affiliates in accordance with the terms of the exemptive order the Company received from the Securities and Exchange Commission (the "SEC") permitting the Company to do so (see Note 3 to the consolidated financial statements for discussion of the exemptive order from the SEC).
11. Short-term investments amounting to \$43,021 are invested in money market funds (BlackRock Liquidity T-Fund - Institutional Shares) and would be categorized as Level 1 under the ASC 820 fair value level hierarchy as of March 31, 2026.
12. Position or portion thereof is or can be pledged as collateral under the Revolving Credit Facility (as defined below).
13. Loan includes interest floor of 1.00%.
14. Loan includes interest floor of 0.75%.
15. Loan includes interest floor of 0.50%.
16. Loan includes interest floor of 0.00%.

17. Loan is on non-accrual status.

As of March 31, 2026, the Company had the following commitments to fund various revolving and delayed draw loans. Such commitments, also included in the Consolidated Schedule of Investments above, are subject to the satisfaction of certain conditions set forth in the documents governing these loans. See Note 7 to the Consolidated Financial Statements for more information on the Company's unfunded commitments.

1. Unless otherwise indicated, issuers of debt and equity investments held by the Company (which such term “Company” shall include the Company’s consolidated subsidiaries for purposes of this Consolidated Schedule of Investments) are denominated in dollars. All debt investments are income producing unless otherwise indicated. All equity investments are non-income producing unless otherwise noted. Certain portfolio company investments are subject to contractual restrictions on sales. The total par amount is presented for debt investments and the number of shares or units owned is presented for equity investments.
2. The majority of the investments bear interest at a rate that may be determined by reference to the Secured Overnight Financing Rate (“SOFR” or “S”), Prime Rate (“Prime” or “P”), Canadian Overnight Repo Rate Average (“CORRA” or “C”), Sterling Overnight Index Average (“SONIA” or “SON”), Euro Interbank Offered Rate (“EURIBOR” or “E”) or other relevant benchmark, which reset daily, monthly, quarterly, semiannually or annually. For each such investment, the Company has provided the spread over reference rates and the current contractual interest rate in effect on December 31, 2025. Certain investments are subject to an interest rate floor, or rate cap. Certain investments contain a Payment-in-Kind (“PIK”) provision. SOFR based contracts may include a credit spread adjustment, which is included within the stated all-in interest rate, if applicable, that is charged in addition to the base rate and the stated spread.
3. Investments with par value / shares less than 500 shown as zero.
4. The cost represents the original cost adjusted for the amortization of discounts and premiums, as applicable, on debt investments using the effective interest method in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).
5. These investments were not valued using unobservable inputs and are not considered Level 3 investments. Fair value was determined in good faith by the Adviser as the Company’s valuation designee, subject to the oversight of the Board of Trustees (the “Board”) (see Note 2 and Note 5), pursuant to the Company’s valuation policy.
6. The investment is not a qualifying asset, in whole or in part, under Section 55(a) of the 1940 Act. The Company may not acquire any non-qualifying asset unless, at the time of acquisition, qualifying assets represent at least 70% of the Company’s total assets. As of December 31, 2025, non-qualifying assets represented 6.89% of total assets as calculated in accordance with regulatory requirements.
7. Position or portion thereof is an unfunded loan commitment, and no interest is being earned on the unfunded portion, although the investment may be subject to unused commitment fees. Negative cost and fair value results from unamortized fees, which are capitalized to the investment cost. The unfunded loan commitment may be subject to a commitment termination date that may expire prior to the maturity date stated. Such commitments are subject to the satisfaction of certain conditions set forth in the documents governing these loans and letters of credit and there can be no assurance that such conditions will be satisfied. See the following page and Note 7 to the Consolidated Financial Statements for more information on the Company’s unfunded commitments.
8. Position or portion thereof is pledged as collateral under the Morgan Stanley Facility.
9. Security exempt from registration under the Securities Act of 1933 (the “Securities Act”), and may be deemed to be “restricted securities” under the Securities Act. As of December 31, 2025, the aggregate fair value of these securities is \$24,577 or 3.35% of the Company’s net assets. The acquisition dates of these restricted securities are as follows:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(in thousands, except share/per share data, percentages and as otherwise noted)

Note 1. Business and Organization

Antares Private Credit Fund (the “Company”) is a Delaware statutory trust formed on May 1, 2023 which commenced investment operations on November 5, 2024. The Company was organized to provide risk-adjusted returns and current income to shareholders by investing primarily in loans to borrowers in the United States and Canada. The Company’s investment strategy focuses primarily on private credit investments structured as portfolio loans to U.S. borrowers. A “portfolio loan” is a senior secured loan, which may be first lien, second lien or unitranche loans, consisting of term loans, related delayed draw term loans and/or revolving loans. Each tranche of a senior secured loan acquired by the Company is referred to as a portfolio loan. The Company is a non-diversified, closed-end management investment company that has elected to be regulated as a business development company (“BDC”) under the Investment Company Act of 1940, as amended (the “1940 Act”). In addition, the Company has elected to be treated and intends to comply with the requirements to qualify annually, as a regulated investment company (“RIC”) under the Internal Revenue Code of 1986, as amended (the “Code”). The Company is externally managed by Antares Capital Credit Advisers LLC (the “Adviser”). The Adviser is a registered investment adviser with the U.S. Securities and Exchange Commission (the “SEC”).

The Company is a non-exchange traded, perpetual-life BDC, whose Common Shares are not listed for trading on a stock exchange or other securities market and is an investment vehicle with indefinite duration.

While the Company’s investment strategy primarily focuses on companies in the U.S., the Company intends to also invest in companies in Canada, Europe and other locations outside the U.S, subject to compliance with BDC requirements to invest at least 70% of assets in “eligible portfolio companies”. The Company may also invest in preferred equity or debt investments that may be accompanied by equity-related securities (such as options or warrants) and/or select common equity investments.

The Company’s investment strategy also includes a smaller allocation to more liquid credit investments such as broadly syndicated loans and corporate bonds, which may be used primarily to maintain liquidity for the Company’s share repurchase program and manage cash before investing subscription proceeds into originated loans, while also seeking attractive investment returns. The Company may also invest in publicly traded securities of larger corporate issuers on an opportunistic basis when market conditions create compelling potential return opportunities subject to compliance with BDC requirements.

The Company is currently offering on a continuous basis up to \$2.0 billion of its Common Shares pursuant to an offering registered with the Securities and Exchange Commission (the “Offering”). The Company expects to offer to sell any combination of three classes of Common Shares, Class I shares, Class D shares, and Class S shares, with a dollar value up to the maximum offering amount. The share classes have different ongoing shareholder servicing and/or distribution fees. The initial purchase price for the Common Shares was \$25.00 per share for Class I shares; no Class S or Class D shares have been issued as of March 31, 2026. Thereafter, the purchase price per share for each class of Common Shares will equal the net asset value (“NAV”) per share, as of the effective date of the monthly share purchase date. The Company may also engage in private offerings of its Common Shares.

The Company may enter into interest rate, foreign exchange, and/or other derivative arrangements to hedge against interest rate, currency, and/or other credit related risks through the use of futures, swaps, options and forward contracts. These hedging activities will be subject to the applicable legal and regulatory compliance requirements; however, there can be no assurance any hedging strategy employed will be successful. The Company may also seek to borrow capital in local currencies as a means of hedging non-U.S. dollar denominated investments.

Engaging in commodity interest transactions such as swap transactions or futures contracts for the Company may cause the Adviser to fall within the definition of “commodity pool operator” under the Commodity Exchange Act (the “CEA”) and related Commodity Futures Trading Commission (the “CFTC”) regulations. The Adviser has claimed an exclusion from the definition of the term “commodity pool operator” under the CEA and the CFTC regulations in connection with its management of the Company and, therefore, is not subject to CFTC registration or regulation under the CEA as a commodity pool operator with respect to its management of the Company.

The Company has formed wholly owned subsidiaries for the purpose of holding certain investments in portfolio companies. As of March 31, 2026, the Company’s wholly owned subsidiaries include: APCF Funding SPV LLC, APCF Masterfund LLC and APCF Equity Holdings LLC (collectively, the “Subsidiaries”). The Company consolidates its wholly owned subsidiaries in these consolidated financial statements from the date of the commencement of operations of the Company.

Note 2. Significant Accounting Policies

Basis of Presentation

Interim consolidated financial statements and related financial information have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and pursuant to the requirements for reporting on Form 10-Q and Articles 6-10 of Regulation S-X. The Company is considered an Investment Company under U.S. GAAP and follows the accounting and reporting guidance applicable to investment companies in the Financial Accounting Standards Board Accounting Standards Codification ("ASC") Topic 946, Financial Services – Investment Companies ("ASC 946"), and pursuant to Regulation S-X. The current period's results of operations will not necessarily be indicative of results that ultimately are achieved for the year ended December 31, 2026. In the opinion of management, all adjustments, which are of normal recurring nature, considered necessary for the fair statement of the consolidated financial statements for the periods presented, have been included.

Consolidation

As provided under ASC 946, the Company will not consolidate its investment in a company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to the Company. Accordingly, the Company consolidated the accounts of the wholly owned subsidiaries in the consolidated financial statements. All intercompany balances have been eliminated.

Segment Reporting

In accordance with ASC Topic 280, Segment Reporting ("ASC 280"), the Company has determined that it has a single operating and reporting segment. As a result, the Company's segment accounting policies are the same as described herein and the Company does not have any intra-segment sales and transfers of assets.

Use of Estimates

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions about future economic and market conditions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Although the Company's estimates contemplate current conditions and how they expect them to change in the future, it is reasonably possible that actual results could differ from those estimates and such difference could be material.

Cash

Cash consists of demand deposits and are carried at cost, which approximates fair value. The Company deposits its cash with financial institutions and, at times, may exceed the Federal Deposit Insurance Corporation insured limit. The Company has made a prospective presentation change to reclassify money market fund investments as short-term investments, and are no longer classified as cash equivalents beginning in the reporting period ended June 30, 2025.

Organization and Offering Expenses

Organization costs include costs relating to the formation and organization of the Company, and are expensed as incurred. Unreimbursed organization costs are included in "Due to affiliates" on the Consolidated Statements of Assets and Liabilities. For the three months ended March 31, 2026, the Company did not incur any new organization costs, and for the three months ended March 31, 2025, the Company incurred \$24 in organization costs.

Costs associated with the Offering are capitalized and included as deferred offering costs on the Consolidated Statements of Assets and Liabilities and are amortized over a twelve-month period from the date of incurrence. For the three months ended March 31, 2026 and 2025, the Company incurred \$505 and \$679 of offering costs, respectively, and amortized \$303 and \$476, respectively. As of March 31, 2026 and December 31, 2025, \$727 and \$525, respectively, in deferred offering costs were included on the Consolidated Statements of Assets and Liabilities.

Investments

Investment transactions are recorded on the trade date. Realized gains or losses are measured by the difference between the net proceeds received (excluding prepayment fees, if any) and the amortized cost basis of the investment using the specific identification method without regard to unrealized gains or losses previously recognized, and include investments charged off during the period, net of recoveries. The net change in unrealized gains or losses primarily reflects the change in investment values, including the reversal of previously recorded unrealized gains or losses with respect to investments realized during the period.

Short-term investments

Short-term investments consist of highly liquid investments, such as money market funds, with original maturities of three months or less. The Company commenced classification of money market funds as short-term investments beginning in the reporting period ended June 30, 2025.

Valuation of Investments

The Company is required to report its investments for which current market values are not readily available at fair value. The Company values its investments in accordance with ASC Topic 820, Fair Value Measurement (“ASC 820”), which defines fair value as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the applicable measurement date. ASC 820 prioritizes the use of observable market prices derived from such prices over entity-specific inputs. Due to the inherent uncertainties of valuation, certain estimated fair values may differ significantly from the values that would have been realized had a ready market for these investments existed, and these differences could be material.

Investments for which market quotations are readily available are typically valued using mid-market pricing (i.e., mid-point of average bid and ask prices). The Adviser obtains these market quotations from independent pricing services, if available; otherwise from at least two principal market makers or primary market dealers. To assess the continuing appropriateness of pricing sources and methodologies, the Adviser performs, from time to time, price verification procedures and issues challenges as necessary to independent pricing services or brokers, and any differences are reviewed in accordance with the valuation procedures. The Adviser does not adjust the prices unless it has a reason to believe market quotations are not reflective of the fair value of an investment.

Where prices or inputs are not available, or, in the judgment of the Adviser, not reliable, valuation approaches based on the facts and circumstances of the particular investment are utilized. Securities that are not publicly traded or for which market prices are not readily available, as the case for a substantial portion of the Company’s investments, are valued at fair value as determined in good faith by the Adviser as the Company’s valuation designee under Rule 2a-5 under the 1940 Act, pursuant to the Company’s valuation policy, and under the oversight of the Board of Trustees (the “Board”), based on, among other things, the input of the Company’s management and the audit committee. In addition, the Adviser has retained independent valuation firms to review valuations on a rotational basis. These valuation approaches involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the investments or market and the investments’ complexity.

With respect to investments for which market quotations are not readily available, the Adviser undertakes a multi-step valuation process each quarter, among other procedures, as described below:

- The valuation process begins with each investment being preliminarily reviewed by the Adviser’s valuation team in consultation with the Adviser’s investment professionals responsible for each portfolio investment;
- At least once annually the valuation for each investment (subject to a de minimis threshold) is reviewed by an independent valuation firm. The independent valuation firms provide a final range of values on such investments to the Adviser. The independent valuation firms also provide analyses to support their valuation methodology and calculations;
- The Adviser’s valuation committee with respect to the Company (the “Valuation Committee”) reviews each valuation recommendation to confirm they have been calculated in accordance with the valuation policy and confirms the independent valuation firms’ valuation ranges when utilized are reasonable;
- The Adviser’s Valuation Committee then determines fair value marks for each of the Company’s portfolio investments; and
- The Board and audit committee of the Company periodically review the valuation process and provide oversight in accordance with the requirements of Rule 2a-5 under the 1940 Act.

As part of the valuation process, the Company takes into account relevant factors in determining the fair value of the Company’s investments for which reliable market quotations are not readily available, many of which are loans, including and in combination, as relevant, any of: (i) the estimated enterprise value of a portfolio company, generally based on an analysis of discounted cash flows, publicly traded comparable companies and comparable transactions, (ii) the nature and realizable value of any collateral, (iii) the portfolio company’s ability to make payments based on its earnings and cash flow, (iv) the markets in which the portfolio company does business, and (v) overall changes in the interest rate environment and the credit markets that may affect the price at which similar investments may be made in the future. When an external event such as a purchase transaction, public offering or subsequent equity or debt sale occurs, the Adviser considers whether the pricing indicated by the external event corroborates its valuation.

As of March 31, 2026, independent valuation firms reviewed a substantial majority of the Company’s investment valuations.

The Company’s accounting policy on the fair value of the investments is critical because the determination of fair value involves subjective judgments and estimates. Accordingly, the Company’s consolidated financial statements express the uncertainty with respect to the possible effect of these valuations, and any change in these valuations, on the consolidated financial statements.

[Table of Contents](#)

Revenue Recognition

The Company generates revenue in the form of interest and fee income on debt investments, capital gains, and dividend income from equity investments in portfolio companies. The senior and subordinated debt investments bear interest at a fixed or floating rate, and is generally payable monthly, quarterly or semi-annually. In some cases, some of the Company's investments provide for deferred interest payments or payment-in-kind ("PIK") interest. The principal amount of the debt investments and any accrued but unpaid PIK interest generally become due at the maturity date. Original issue discounts and market discounts or premiums are capitalized, and the Company accretes or amortizes such amounts as interest income. In addition, the Company generates revenue from various fees in the ordinary course of business such as in the form of structuring, consent, waiver, amendment, syndication and other miscellaneous fees.

Interest Income

Interest income is recorded on an accrual basis and includes the accretion of discounts and amortization of premiums. Discounts from and premiums to par value on debt investments purchased are accreted/amortized into interest income over the life of the debt investments using the effective interest method. The amortized cost of debt investments represents the original cost, including loan origination fees and upfront fees received that are deemed to be an adjustment to yield, adjusted for the accretion of discounts and amortization of premiums, if any. Upon prepayment of a loan or debt investment, any prepayment premiums, unamortized upfront loan origination fees and unamortized discounts are recorded as interest income, in the current period.

Dividend Income

Dividend income on preferred equity securities is recorded on the accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Such income is included in payment-in-kind dividend income on the Consolidated Statements of Operations. Dividend income on common equity securities is recorded on the record date for portfolio companies or on the ex-dividend date for publicly-traded portfolio companies. Such income is included in dividend income on the Consolidated Statements of Operations.

PIK Income

The Company may have loans in its portfolio that contain PIK provisions. PIK represents interest that is accrued and recorded at the contractual rates, increases the loan principal on the respective capitalization dates, and is generally due at maturity. Such income is included in payment-in-kind interest income on the Consolidated Statements of Operations. If at any point the Company believes PIK is not expected to be realized, the investment generating PIK will be placed on non-accrual status. When a PIK investment is placed on non-accrual status, the accrued, uncapitalized interest is generally reversed through payment-in-kind interest income. To maintain the Company's status as a RIC, this non-cash source of income must be paid out to shareholders in the form of distributions, even though the Company has not yet collected cash.

Fee Income

The Company may receive various fees in the ordinary course of business such as structuring, consent, waiver, amendment, syndication fees as well as fees for managerial assistance rendered by the Company to the portfolio companies. Such fees are recognized as income when earned or the services are rendered.

Non-Accrual Income

Loans are generally placed on non-accrual status when there is reasonable doubt that principal or interest will be collected in full. Accrued interest is generally reversed when a loan is placed on non-accrual status. Additionally, any original issue discount and market discount are no longer accreted to interest income as of the date the loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment regarding collectability. Non-accrual loans are restored to accrual status when past due principal and interest is paid current and, in management's judgment, are likely to remain current. Management may make exceptions to this treatment and determine to not place a loan on non-accrual status if the loan has sufficient collateral value and is in the process of collection.

Deferred Financing Costs

Deferred financing costs represent fees and other direct incremental costs incurred in connection with the Company's borrowings. These expenses are deferred and amortized into interest and debt expenses over the life of the related debt instrument using the straight-line method. Deferred financing costs related to the Company's borrowings are presented as an offset against the debt outstanding on the Consolidated Statements of Assets and Liabilities.

Foreign Currency Translations

The accounting records of the Company are maintained in U.S. dollars. All assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the foreign exchange rate on the date of valuation. The Company does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. The Company's investments in foreign securities may involve certain risks, including without limitation: foreign exchange restrictions, expropriation, taxation or other political, social or economic risks, all of which could affect the market and/or credit risk of the investment. In addition, changes in the relationship of foreign currencies to the U.S. dollar can significantly affect the value of these investments and therefore the earnings of the Company.

Income Taxes

The Company has elected to be treated, and intends to qualify each taxable year thereafter, as a RIC under the Code. So long as the Company maintains its status as a RIC, it generally will not pay corporate-level U.S. federal income taxes on any ordinary income or capital gains that it distributes at least annually to its shareholders as dividends. Rather, any tax liability related to income earned and distributed by the Company would represent obligations of the Company's shareholders and would not be reflected in the consolidated financial statements of the Company.

The Company evaluates tax positions taken or expected to be taken in the course of preparing its consolidated financial statements to determine whether the tax positions are "more-likely-than-not" to be sustained by the applicable tax authority. Tax positions not deemed to meet the "more-likely-than-not" threshold are reserved and recorded as a tax benefit or expense in the current year. All penalties and interest associated with income taxes are included in income tax expense. Conclusions regarding tax positions are subject to review and may be adjusted at a later date based on factors including, but not limited to, on-going analyses of tax laws, regulations and interpretations thereof.

To maintain qualification as a RIC, the Company must, among other things, meet certain source-of-income and asset diversification requirements. In addition, to maintain qualification for RIC tax treatment, the Company must distribute to its shareholders, for each taxable year, at least 90% of the sum of (i) its "investment company taxable income" for that year (without regard to the deduction for dividends paid), which is generally its ordinary income plus the excess, if any, of its realized net short-term capital gains over its realized net long-term capital losses and (ii) its net tax-exempt income.

In addition, pursuant to the excise tax distribution requirements, the Company will be subject to a 4% non-deductible federal excise tax on undistributed income unless the Company distributes in a timely manner in each taxable year an amount at least equal to the sum of (1) 98% of its ordinary income for the calendar year, (2) 98.2% of capital gain net income (both long-term and short-term) for the one-year period ending October 31 in that calendar year and (3) any income realized, but not distributed, in prior years. For this purpose, however, any ordinary income or capital gain net income retained by the Company that is subject to corporate income tax is considered to have been distributed.

Distributions

To the extent that the Company has taxable income available, the Company intends to make monthly distributions to its shareholders. Distributions to shareholders are recorded on the record date. All distributions will be paid at the discretion of the Board and will depend on the Company's earnings, financial condition, maintenance of the Company's tax treatment as a RIC, compliance with applicable BDC regulations and such other factors as the Board may deem relevant from time to time.

Distributions to shareholders by the Company of ordinary income (including "market discount" realized by the Company on the sale of debt securities), and of net short-term capital gains, if any, realized by the Company are generally taxable to U.S. shareholders as ordinary income to the extent such distributions are paid out of the Company's current or accumulated earnings and profits. Distributions, if any, of net capital gains properly reported as "capital gain dividends" will be taxable as long-term capital gains, regardless of the length of time the shareholder has owned the Company's shares. A distribution of an amount in excess of the Company's current and accumulated earnings and profits (as determined for U.S. federal income tax purposes) will be treated by a shareholder as a return of capital which will be applied against and reduce the shareholder's basis in his or her shares. To the extent that the amount of any such distribution exceeds the shareholder's basis in his or her shares, the excess will be treated by the shareholder as gain from a sale or exchange of the shares. Distributions paid by the Company generally will not be eligible for the dividends received deduction allowed to corporations or for the reduced rates applicable to certain qualified dividend income received by non-corporate shareholders.

Distributions will be treated in the manner described above regardless of whether such distributions are paid in cash or invested in additional shares pursuant to the distribution reinvestment plan. Shareholders receiving distributions in the form of additional shares will generally be treated as receiving a distribution in the amount of the fair market value of the distributed shares. The additional shares received by a shareholder pursuant to the distribution reinvestment plan will have a new holding period commencing on the day following the day on which the shares were credited to the shareholder's account.

The Company may elect to retain its net capital gain or a portion thereof for investment and be taxed at corporate rates on the amount retained. In such case, it may designate the retained amount as undistributed capital gains in a notice to its shareholders, who will be treated as if each received a distribution of its pro rata share of such gain, with the result that each shareholder will (i) be required to report its pro rata share of such gain on its tax return as long-term capital gain, (ii) receive a refundable tax credit for its pro rata share of tax paid by the Company on the gain and (iii) increase the tax basis for its shares by an amount equal to the deemed distribution less the tax credit.

Recent Accounting Pronouncements

The Company considers the applicability and impact of all accounting standard updates (“ASU”) issued by the Financial Accounting Standards Board (the “FASB”).

In December 2023, the FASB issued ASU No. 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* (“ASU 2023-09”), which enhances the income tax disclosure requirements. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024, and is to be applied prospectively, with an option for retrospective application. The Company adopted ASU 2023-09 on December 31, 2025, and the adoption did not have a material impact on the Company’s consolidated financial statements.

In November 2024, the FASB issued ASU No. 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40)* (“ASU 2024-03”), which requires disaggregated disclosure of certain costs and expenses, including purchases of inventory, employee compensation, depreciation, amortization and depletion, in each relevant expense caption. ASU 2024-03 is effective for fiscal years beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. Early adoption and retrospective application is permitted. The Company is currently assessing the impact of this guidance, however, the Company does not expect a material impact on its consolidated financial statements.

Other than the aforementioned guidance, the Company’s management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the accompanying consolidated financial statements.

Note 3. Agreements and Related Party Transactions

Investment Advisory Agreement

On October 16, 2024, the Board approved an investment advisory agreement with the Adviser (“Investment Advisory Agreement”), pursuant to which the Adviser manages the Company on a day-to-day basis. Under the terms of the Investment Advisory Agreement, the Adviser is responsible for determining the composition of the Company’s portfolio, identifying investment opportunities and making investment decisions, monitoring investments, performing due diligence on prospective portfolio companies, and negotiating, obtaining and managing financing facilities and other forms of leverage.

The Company pays the Adviser fees for its services under the Investment Advisory Agreement. The fees consist of two components: a management fee and an incentive fee. The cost of both the management fee and the incentive fee are ultimately borne by the Company’s shareholders.

The Adviser agreed to waive all management and incentive fees through the first six months following the effective date of the Company’s registration statement on Form N-2, which was declared effective on February 12, 2025. As of August 13, 2025, coinciding with the end of the fee waiver period, the Company is responsible for the payment of management and incentive fees to the Adviser, pursuant to the terms of the Investment Advisory Agreement.

Management fees

The base management fee is payable monthly in arrears at an annual rate of 1.25% of the Company’s NAV as of the first business day of the applicable month. For the three months ended March 31, 2026 and 2025, the Company incurred management fees of \$2,431 and \$1,965, respectively, before impact of waived fees. For the three months ended March 31, 2026, the Adviser did not waive any management fees. For the three months ended March 31, 2025, the Adviser elected to waive \$1,965 of management fees resulting in no net management fees owed to the Adviser.

As of March 31, 2026 and December 31, 2025, management fees payable balances were \$2,431 and \$2,283, respectively.

Incentive fee

The incentive fee consists of two components that are independent of each other, with the result that one component may be payable even if the other is not. A portion of the incentive fee is based on a percentage of income and a portion is based on a percentage of capital gains, each described below.

Income based incentive fee

The investment income based incentive fee is based on “Pre-Incentive Fee Net Investment Income Returns” meaning dividends, cash interest or other distributions or other cash income and any third-party fees received from portfolio companies (such as upfront fees, commitment fees, origination fees, amendment fees, ticking fees and break-up fees, as well as prepayments premiums, but excluding fees for providing managerial assistance and fees earned by the Adviser or an affiliate in its capacity as an administrative agent, syndication agent, collateral agent, loan servicer or other similar capacity) accrued during the month, minus operating expenses for the month (including the management fee, taxes, any expenses payable under the Investment Advisory Agreement and Administration Agreement (as defined below), any expense of securitizations, and interest expense or other financing fees and any dividends paid on preferred shares, but excluding the incentive fee and shareholder servicing and /or distribution fees). Pre-Incentive Fee Net Investment Income Returns includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with PIK interest and zero-coupon securities), accrued income that has not yet been received in cash. Pre-Incentive Fee Net Investment Income Returns do not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. The impact of expense support payments and recoupments are also excluded from Pre-Incentive Fee Net Investment Income Returns.

Pre-Incentive Fee Net Investment Income Returns, expressed as a rate of return on the value of net assets at the end of the preceding quarter, is compared to a “hurdle rate” of return of 1.50% per quarter (6.0% annualized). The Company pays an incentive fee quarterly as follows:

- No incentive fee based on Pre-Incentive Fee Net Investment Income Returns in any calendar quarter in which the Pre-Incentive Fee Net Investment Income Returns does not exceed the hurdle rate of 1.50% per quarter (6.0% annualized).
- 100% of the dollar amount of the Pre-Incentive Fee Net Investment Income Returns with respect to that portion of such Pre-Incentive Fee Net Investment Income Returns, if any, that exceeds the hurdle rate but is less than a rate of return of 1.71% (6.86% annualized).
- 12.5% of the dollar amount of the Pre-Incentive Fee Net Investment Income Returns, if any, that exceed a rate of return of 1.71% (6.86% annualized).

Capital gains incentive fee

The second component of the incentive fee, the capital gains incentive fee, is payable at the end of each calendar year in arrears. The amount payable is equal to 12.5% of cumulative realized capital gains from inception through the end of such calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gains incentive fee as calculated in accordance with U.S. GAAP. U.S. GAAP requires that the capital gains incentive fee accrual consider the cumulative aggregate unrealized capital appreciation in the calculation, as a capital gains incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the investment advisory agreement. Such accrual is calculated using the aggregate cumulative realized capital gains and losses and aggregate cumulative unrealized capital depreciation included in the calculation of the capital gains incentive fee plus the aggregate cumulative unrealized capital appreciation, net of any expense associated with cumulative unrealized capital depreciation or appreciation. If such amount is positive at the end of a period, then U.S. GAAP requires the Company to record a capital gains incentive fee equal to 12.5% of such cumulative amount, less the aggregate amount of actual capital gains incentive fees paid or capital gains incentive fees accrued under U.S. GAAP in all prior periods. Gross capital gains incentive fee is net of reversal on accrued capital gains incentive fees. The fees that are payable under the Investment Advisory Agreement for any partial period are appropriately prorated.

For the three months ended March 31, 2026, the Company incurred income based incentive fees of \$2,489 and no capital gains incentive fees, before the impact of waived fees. For the three months ended March 31, 2025, the Company incurred income based incentive fees of \$2,269 and no capital gains incentive fees, before the impact of waived fees.

For the three months ended March 31, 2026, the Adviser did not waive any income based incentive fees, resulting in \$2,489 of income based incentive fees owed to the Adviser. For the three months ended March 31, 2025, the Adviser elected to waive \$2,269 of income based incentive fees, resulting in no income based incentive fees owed to the Adviser.

As of March 31, 2026 and December 31, 2025, total incentive fee payable balances were \$2,489 and \$2,462, respectively.

Licensing Agreement

As part of the Investment Advisory Agreement, the Adviser, on behalf of Antares Holdings LP, agreed to grant the Company a fully paid-up, royalty-free, non-exclusive, non-transferable license to use “Antares” for specified purposes in the Company’s business, during the term of the Investment Advisory Agreement. Other than with respect to this limited license, the Company will have no legal right to the “Antares” name.

Administration Agreement

On October 16, 2024, the Board approved the administration agreement (the “Administration Agreement”) with Antares Capital Credit Advisers LLC (in such role, the “Administrator”). Under the terms of the Administration Agreement, the Administrator provides, or oversees the performance of, administrative and compliance services, including, but not limited to, maintaining financial records, overseeing the calculation of net asset value, compliance monitoring (including diligence and oversight of the Company’s other service providers), preparing reports to shareholders and reports filed with the SEC, preparing materials and coordinating meetings of the Company’s Board, managing the payment of expenses and the performance of administrative and professional services rendered by others and providing office space, equipment and office services.

The Company reimburses the Administrator for its costs, expenses and allocable portion of overhead (including compensation of personnel performing administrative duties) in connection with the services performed for the Company pursuant to the terms of the Administration Agreement. For the three months ended March 31, 2026 and 2025, the Company incurred administrative service fees of \$182 and \$156, respectively.

Sub-administration Agreement

In addition, pursuant to the terms of the Administration Agreement, the Administrator may delegate its obligations under the Administration Agreement to an affiliate or to a third party and the Company reimburses the Administrator for any services performed for the Company by such affiliate or third party.

The Administrator engaged U.S. Bancorp Fund Services, LLC to assist with sub-administration and fund accounting services.

Acquisition of Seed Portfolio

On November 5, 2024, the Company acquired 100% of the equity interests in APCF Masterfund LP and APCF Funding SPV LP (the “Acquired SPVs”) from certain affiliates of the Adviser, valued at an acquisition price of \$33,889 and \$341,218, respectively. Subsequent to acquisition, the Acquired SPVs were converted to Delaware limited liability companies.

For the three months ended March 31, 2025, the Company paid the Adviser \$2,409 in connection with the acquisition of APCF Masterfund LP, and received \$2,195 from the Adviser in connection with the acquisition of APCF Funding SPV LP. As of March 31, 2025, there were no outstanding balances or additional payments due or made in connection with the acquisition of APCF Masterfund LP and APCF Funding SPV LP, and the amounts reflected herein represent total consideration paid for the Acquired SPVs.

Distribution and Servicing Plan

On October 16, 2024, the Board approved a distribution and servicing plan (the “Distribution and Servicing Plan”). The following table shows the shareholder servicing and/or distribution fees the Company pays Quasar Distributors LLC (the “Managing Dealer”) with respect to the Class I, Class S and Class D on an annualized basis as a percentage of NAV for such class. The Managing Dealer is a broker-dealer registered with the SEC and is a member of the Financial Industry Regulatory Authority (“FINRA”).

	Shareholder Servicing and/or Distribution Fee as a % of NAV
Class I shares	N/A
Class S shares	0.85%
Class D shares	0.25%

The shareholder servicing and/or distribution fees are paid monthly in arrears, calculated using the NAV of the applicable class as of the beginning of the first calendar day of the month and subject to FINRA and other limitations on underwriting compensation. As of March 31, 2026, no Class S shares or Class D shares have been issued.

Expense Support Agreement

On October 16, 2024, the Board approved an Expense Support and Conditional Reimbursement Agreement (the “Expense Support Agreement”) with the Adviser. Pursuant to the Expense Support Agreement, the Adviser is obligated to advance all of the Company’s Other Operating Expenses (defined below) (each, a “Required Expense Payment”) to the extent that such expenses do not exceed 1.00% (on an annualized basis) of the Company’s NAV. Any Required Expense Payment must be paid by the Adviser to the Company in any combination of cash or other immediately available funds and/or offset against amounts due from the Company to the Adviser or its affiliates. The Adviser may elect to pay certain additional expenses on the Company’s behalf (each, a “Voluntary Expense Payment” and together with a Required Expense Payment, the “Expense Payments”), provided that no portion of the payment will be used to pay any interest expense of the Company. Any Voluntary Expense Payment that the Adviser has committed to pay must be paid by the Adviser to the Company in any combination of cash or other immediately available funds no later than forty-five (45) days after such commitment was made in writing, and/or offset against amounts due from the Company to the Adviser or its affiliates. “Other Operating Expenses” means the Company’s total organization and offering expenses, professional fees, trustee fees, administration fees, and other general and administrative expenses (including the Company’s allocable portion of compensation (including salaries, bonuses and benefits), overhead (including rent, office equipment and utilities) and other expenses incurred by the Administrator in performing its administrative obligations under the Administration Agreement), excluding the Management Fee and Incentive Fee owed to the Adviser, financing fees and costs, brokerage commissions, placement agent fees, costs and expenses of distributing and placing the Common Shares, extraordinary expenses and any interest expenses owed by the Company, all as determined in accordance with GAAP.

Following any calendar month in which Available Operating Funds (as defined below) exceed the cumulative distributions accrued to the Company’s shareholders based on distributions declared with respect to record dates occurring in such calendar month (the amount of such excess being hereinafter referred to as “Excess Operating Funds”), the Company shall pay such Excess Operating Funds, or a portion thereof, to the Adviser until such time as all Expense Payments made by the Adviser to the Company within three years prior to the last business day of such calendar month have been reimbursed. Any payments required to be made by the Company shall be referred to herein as a “Reimbursement Payment.” “Available Operating Funds” means the sum of (i) the Company’s net investment company taxable income (including net short-term capital gains reduced by net long-term capital losses), (ii) the Company’s net capital gains (including the excess of net long-term capital gains over net short-term capital losses) and (iii) dividends and other distributions paid to the Company on account of investments in portfolio companies (to the extent such amounts listed in clause (iii) are not included under clauses (i) and (ii) above).

No Reimbursement Payment for any month shall be made if: (1) the Effective Rate of Distributions Per Share declared by the Company at the time of such Reimbursement Payment is less than the Effective Rate of Distributions Per Share at the time the Expense Payment was made to which such Reimbursement Payment relates, (2) the Company’s Operating Expense Ratio at the time of such Reimbursement Payment is greater than the Operating Expense Ratio at the time the Expense Payment was made to which such Reimbursement Payment relate, or (3) the Company’s Other Operating Expenses at the time of such Reimbursement Payment exceeds 1.00% of the Company’s NAV. “Effective Rate of Distributions Per Share” means the annualized rate (based on a 365 day year) of regular cash distributions per share exclusive of returns of capital, distribution rate reductions due to distribution and shareholder servicing fees, and declared special dividends or special distributions, if any. The “Operating Expense Ratio” is calculated by dividing Operating Expenses, less organizational and offering expenses, base management and incentive fees owed to the Adviser, shareholder servicing and/or distribution fees, and interest expense, by the Company’s net assets. “Operating Expenses” means all of the Company’s operating costs and expenses incurred, as determined in accordance with generally accepted accounting principles for investment companies.

The Company’s obligation to make a Reimbursement Payment shall automatically become a liability of the Company on the last business day of the applicable calendar month, except to the extent the Adviser has waived its right to receive such payment for the applicable month. In addition, effective October 31, 2024, the Company and the Adviser entered into a waiver letter agreement (the “Waiver Letter Agreement”), pursuant to which the Adviser agreed to waive any reimbursement by the Company for any of the Company’s organization expenses, operating expenses and offering expenses the Adviser incurs or has incurred on the Company’s behalf in an aggregate amount not to exceed \$2 million. The Waiver Letter Agreement includes reimbursement provisions substantially similar to the reimbursement provisions included in the Expense Support Agreement.

[Table of Contents](#)

For the three months ended March 31, 2026 and 2025, the Company accrued organization and offering costs of \$303 and \$500, respectively. For the three months ended March 31, 2026 and 2025, the Adviser waived \$0 and \$500 in expenses, respectively, pursuant to the Expense Support Agreement, resulting in \$303 and no organization and offering costs, respectively, incurred by the Company on a net basis.

For both the three months ended March 31, 2026 and 2025, no Reimbursement Payments were made by the Company to the Adviser.

Co-Investment Activity

The Company and the Adviser have received an exemptive order (the “Order”) from the SEC that permits the Company, among other things, to co-invest with certain other persons, including certain affiliates of the Adviser and certain funds managed and controlled by the Adviser and/or its affiliates, subject to certain terms and conditions. Under the terms of the Order, a majority of our Independent Trustees must reach certain conclusions in connection with certain co-investment transactions (e.g., in the case of follow-on investments in an existing issuer in which affiliates, but not the Company, have an existing investment, and non-pro rata follow-on investments in, and dispositions of, securities of an existing issuer), including that (i) the terms of the proposed transaction are reasonable and fair to the Company and its shareholders and do not involve overreaching in respect of the Company or its shareholders on the part of any person concerned, and (ii) the transaction is consistent with the interests of the Company’s shareholders and is consistent with the Company’s then-current investment objectives and strategies. The Company may determine to participate or not to participate, depending on whether the Adviser determines that the investment is appropriate for the Company (e.g., based on investment strategy). The co-investment would generally be allocated to the Company and the other Antares Lending Platform funds that target similar assets in accordance with the Adviser’s allocation policy. If the Adviser determines that such investment is not appropriate for the Company, the investment will not be allocated to the Company.

Note 4. Investments

The composition of the Company's investment portfolio at amortized cost and fair value was as follows:

	March 31, 2026			December 31, 2025		
	Amortized Cost	Fair Value	% of Total Investments at Fair Value	Amortized Cost	Fair Value	% of Total Investments at Fair Value
Secured Debt	\$ 1,674,082	\$ 1,654,411	95.61 %	\$ 1,579,235	\$ 1,576,308	94.64 %
Unsecured Debt	8,791	8,686	0.50	8,614	8,617	0.52
Equity Investments	24,415	24,248	1.40	23,032	24,577	1.48

Note 5. Fair Value Measurements

The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the applicable measurement date.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the overall fair value measurement. The Adviser's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

In addition to using the above inputs in investment valuations, the Adviser applies the valuation policy approved by its Board that is consistent with ASC 820. Consistent with the valuation policy, the Adviser evaluates the source of the inputs, including any markets in which its investments are trading (or any markets in which securities with similar attributes are trading), in determining fair value.

Investments whose values are based on the listed closing price quoted on the securities' principal exchange are classified within Level 1 and include active listed equities. The Adviser does not adjust the quoted price for such instruments, even in situations where the Company holds a large position and a sale could reasonably impact the quoted price.

ASC 820 specifies a fair value hierarchy that prioritizes and ranks the level of observability of inputs used in determination of fair value. In accordance with ASC 820, these levels are summarized below:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the Adviser has the ability to access at the measurement date.

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the assets or liabilities, either directly or indirectly. Level 2 inputs include: quoted market prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following tables present the fair value hierarchy of financial instruments according to the fair value hierarchy as described in Note 2. Significant Accounting Policies of these consolidated financial statements:

	March 31, 2026			
	Level 1	Level 2	Level 3	Total
Secured Debt	\$ —	\$ 165,621	\$ 1,488,790	\$ 1,654,411

[Table of Contents](#)

The following tables present changes in the fair value of financial instruments for which Level 3 inputs were used to determine fair value for the three months ended March 31, 2026 and 2025:

	Three Months Ended March 31, 2026			
	Secured Debt	Unsecured Debt	Equity Investments	Total Investments
Fair value, beginning of period	\$ 1,360,859	\$ 8,617	\$ 24,577	\$ 1,394,053
Purchase of investments (including received in-kind)	196,832	168	1,384	198,384
Proceeds from sale of investments and principal repayments	(57,199)	—	—	(57,199)
Net accretion of discounts and amortization of premiums	923	9	—	932
Net realized gains (losses) on investments	(32)	—	—	(32)
Net change in unrealized appreciation (depreciation) on investments	(10,882)	(108)	(1,713)	(12,703)
Transfers out of Level 3	(1,711)	—	—	(1,711)
Fair value, end of period	<u>\$ 1,488,790</u>	<u>\$ 8,686</u>	<u>\$ 24,248</u>	<u>\$ 1,521,724</u>
Net change in unrealized appreciation (depreciation) on non-controlled/non-affiliated investments still held at March 31, 2026	<u>\$ (10,646)</u>	<u>\$ (108)</u>	<u>\$ (1,735)</u>	<u>\$ (12,489)</u>

	Three Months Ended March 31, 2025			
	Secured Debt	Unsecured Debt	Equity Investments	Total Investments
Fair value, beginning of period	\$ 798,059	\$ 703	\$ 3,947	\$ 802,709
Purchase of investments (including received in-kind)	179,140	25	6,928	186,093
Proceeds from sale of investments and principal repayments	(26,036)	—	—	(26,036)
Net accretion of discounts and amortization of premiums	266	1	—	267
Net realized gains (losses) on investments	1	—	—	1
Net change in unrealized appreciation (depreciation) on investments	187	(1)	103	289
Fair value, end of period	<u>\$ 951,617</u>	<u>\$ 728</u>	<u>\$ 10,978</u>	<u>\$ 963,323</u>
Net change in unrealized appreciation (depreciation) on non-controlled/non-affiliated company investments still held at March 31, 2025	<u>\$ (47)</u>	<u>\$ (1)</u>	<u>\$ 103</u>	<u>\$ 55</u>

Transfers between levels are recognized at the beginning of the period in which the transfers occur. For the three months ended March 31, 2026 and 2025, transfers to (out of) Level 3, if any, were a result of changes in the observability of significant inputs for certain portfolio companies.

[Table of Contents](#)

The following tables present quantitative information about the significant unobservable inputs of the Company's Level 3 financial instruments. The tables are not intended to be all-inclusive but instead captures the significant unobservable inputs relevant to the Company's determination of fair value.

March 31, 2026						
	Fair Value ⁽¹⁾	Valuation Technique	Unobservable Input	Range		Weighted Average ⁽²⁾

	3,908	Recent transaction	Transaction price	N/A	N/A	N/A
	5,674	Market yield analysis	Market yield discount rates	8.63%	15.17%	14.23%
Total Equity Investments	24,577					
Total	\$ 1,394,053					

(1) As of March 31, 2026 and December 31, 2025, amounts of \$121,454 and \$444,227, respectively, included within the fair value of Level 3 assets were valued based on unobservable inputs not developed by the Adviser (e.g., broker quotes and transaction prices).

(2) Weighted averages are calculated based on fair value of investments.

The significant unobservable input used in the yield analysis is the discount rate based on comparable market yields. The significant unobservable inputs used in the income approach are the discount rate used to discount the estimated future cash flows expected to be received from the underlying investment. The Company uses market discount rates for debt securities to determine if the effective yield on a debt security is commensurate with the market yields for that type of debt security. If a debt security's effective yield is significantly less than the market yield for a similar debt security with a similar credit profile, the resulting fair value of the debt security may be lower. Significant increases in the discount rate would significantly lower the fair value of an investment; conversely significant decreases in the discount rate would significantly increase the fair value of an investment. The significant unobservable inputs used in the market approach are based on market comparable transactions and market multiples of publicly traded comparable companies. Increases or decreases in market comparable transactions or market multiples would result in an increase or decrease in the fair value.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may fluctuate from period to period. Additionally, the fair value of the Company's investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that the Company may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If the Company was required to liquidate a portfolio investment in a forced or liquidation sale, it could realize significantly less than the value at which the Company has recorded it. In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the valuations currently assigned. As of March 31, 2026 and December 31, 2025, the carrying amounts of the Company's assets and liabilities, other than investments at fair value, approximate fair value due to their short maturities. Fair value is estimated by discounting remaining payments using applicable current market rates, which take into account changes in the Company's marketplace credit ratings, if applicable, or market quotes, if available.

Note 6. Borrowings

In accordance with the 1940 Act, with certain limitations, the Company is allowed to borrow amounts such that its asset coverage, as defined in the 1940 Act, is at least 150% after such borrowing. As of March 31, 2026 and December 31, 2025, the Company’s asset coverage was 182.17% and 177.13%, respectively.

Debt outstanding

The Company’s outstanding debt obligations were as follows:

	March 31, 2026				
	Aggregate Principal Committed	Outstanding Principal	Carrying Value ⁽¹⁾	Unused Portion ⁽²⁾	Amount Available ⁽³⁾
Morgan Stanley Facility	\$ 1,000,000	\$ 754,817	\$ 754,817	\$ 245,183	\$ 109,137
Revolving Credit Facility	560,000	213,324	213,324	346,676	191,224
Total	\$ 1,560,000	\$ 968,141	\$ 968,141	\$ 591,859	\$ 300,361

	December 31, 2025				
	Aggregate Principal Committed	Outstanding Principal	Carrying Value ⁽¹⁾	Unused Portion ⁽²⁾	Amount Available ⁽³⁾
Morgan Stanley Facility	\$ 1,000,000	\$ 910,419	\$ 910,419	\$ 89,581	\$ 14,286
Revolving Credit Facility	500,000	40,000	40,000	460,000	200,061
Total	\$ 1,500,000	\$ 950,419	\$ 950,419	\$ 549,581	\$ 214,347

- (1) The carrying value of the Company’s debt obligations is used as an approximate to fair value. The fair value of these debt obligations would be categorized as Level 3 under the ASC 820 fair value level hierarchy as of March 31, 2026 and December 31, 2025. Carrying values do not include impact of deferred financing costs.
- (2) The unused portion is the amount upon which commitment fees, if any, are based.
- (3) The amount available reflects any limitations related to the respective facility’s borrowing base.

Morgan Stanley Facility

On November 6, 2024, APCF Funding SPV LLC, a wholly-owned subsidiary of the Company, as borrower, and the Company, as equity holder and servicer, entered into a loan facility (the “Morgan Stanley Facility”) for revolving and term loans pursuant to a Loan and Servicing Agreement (the “Agreement”), with the lenders from time to time party thereto, Morgan Stanley Senior Funding, Inc., as administrative agent (the “Administrative Agent”), U.S. Bank Trust Company, National Association, as collateral agent (“Collateral Agent”), and U.S. Bank National Association, as account bank and collateral custodian. Capitalized terms used herein but not otherwise defined herein shall have the meanings assigned to such terms in the Agreement.

Loans under the Morgan Stanley Facility initially bear interest at (i) a per annum rate equal to Term SOFR plus an additional margin calculated as a percentage of the aggregate principal balance of the underlying collateral obligations (the “Applicable Margin”) for loans denominated in U.S. Dollars, (ii) EURIBOR plus the Applicable Margin for loans denominated in Euros, (iii) Daily Compounded CORRA plus the Applicable Margin for loans denominated in Canadian Dollars, and (iv) Daily Simple SONIA plus the Applicable Margin for loans denominated in Great British Pounds, (v) BBSW plus the Applicable Margin for loans denominated in Australian Dollars and (vi) TONA plus the Applicable Margin for loans denominated in Japanese Yen. The Applicable Margin equals the product of (i) 1.65% and (ii) the lesser of: (x) aggregate principal balance of all broadly-syndicated loans divided by the aggregate principal balance of all eligible loans and (y) 35% (“Percentage”) plus the product of (i) 1.90% and (ii) 100% minus Percentage, subject to a step-up of 2.00% following the occurrence of an Event of Default or after the automatic occurrence or declaration of the Facility Maturity Date.

The initial maximum principal amount under the Agreement is \$500,000 and the Agreement includes an accordion provision to permit increases to the total facility amount up to a maximum of \$1 billion, subject in each case to the satisfaction of certain conditions and the consent of the Administrative Agent and each Lender whose commitment is being increased. Proceeds from loans made under the Morgan Stanley Facility may be used to fund collateral obligations acquired by APCF Funding SPV LLC, to pay certain fees and expenses and to make distributions to the Company, subject to certain conditions set forth in the Agreement. Revolving loans borrowed under the Morgan Stanley Facility may be repaid and reborrowed until the end of the Revolving Period, which can occur no later than November 6, 2027 (unless extended), and all amounts outstanding under the Morgan Stanley Facility must be repaid by November 6, 2029. The Agreement includes customary affirmative and negative covenants, including certain limitations on the incurrence of additional indebtedness and liens, as well as usual and customary events of default for loan facilities of this nature.

On March 18, 2025, the Company entered into the First Amendment to Loan and Servicing Agreement (the “Amendment”), among the parties listed above. The Amendment provides for, among other things, an increase in the aggregate commitments of the lenders under the Morgan Stanley Facility from \$500,000 to \$1,000,000, as well as certain changes to the concentration limits.

As of March 31, 2026 and December 31, 2025, the Company was in compliance with all covenants associated with the Morgan Stanley Facility.

[Table of Contents](#)

Revolving Credit Facility

On December 11, 2025, the Company entered into a senior secured credit facility (the “Revolving Credit Facility”) pursuant to a Senior Secured Credit Agreement (the “SMBC Agreement”) with Sumitomo Mitsui Banking Corporation, as administrative agent, the lenders and issuing banks party thereto (the “Lenders”). The SMBC Agreement is effective as of December 11, 2025.

The Company may borrow amounts in U.S. dollars or certain other permitted currencies under the Revolving Credit Facility. Advances under the Revolving Credit Facility drawn in U.S. dollars will initially bear interest at a per annum rate equal to 0.75% or 0.875% plus an “alternate base rate” (as described in the SMBC Agreement) in the case of any loan of any class as provided for under the terms of the SMBC Agreement (a “Loan”) denominated in U.S. dollars and bearing interest at a rate determined by reference to the “alternate base rate” and 1.75% or 1.875% plus Term SOFR (as defined in the SMBC Agreement) in the case of any Term Benchmark Loan (as defined in the SMBC Agreement) or Loan bearing interest at a rate determined by reference to Daily Simple RFR (as defined in the SMBC Agreement), in each case, depending on the Fund’s rate option election and borrowing base (as of the most recently delivered borrowing base certificate delivered under the SMBC Agreement). Advances under the Revolving Credit Facility drawn in currencies other than U.S. dollars will bear interest at certain local rates consistent with market standards. The Company will also pay a fee of 0.325% on average daily undrawn amounts under the Revolving Credit Facility.

The initial principal amount of the Revolving Credit Facility is \$500,000, subject to availability under the borrowing base, which is based on the Fund’s portfolio investments and other outstanding indebtedness, with an accordion provision to permit increases to the total facility amount up to \$875,000, subject to the satisfaction of certain conditions. On January 8, 2026, the Company entered into an agreement with Apple Bank and Webster Bank, National Association to increase the aggregate commitments under the Revolving Credit Facility from \$500,000 to \$560,000 through the accordion feature in the Revolving Credit Facility. The Revolving Credit Facility is guaranteed by certain subsidiaries of the Company, and will be guaranteed by certain domestic subsidiaries of the Company that are formed or acquired by the Company in the future (collectively, the “Guarantors”). Proceeds of the Revolving Credit Facility may be used for general corporate purposes, including, without limitation, repaying outstanding indebtedness, making distributions, contributions and investments, and acquisition and funding, and such other uses as permitted under the SMBC Agreement.

The Revolving Credit Facility is secured by a perfected first-priority interest in substantially all of the portfolio investments held by the Company and each Guarantor, subject to certain exceptions, and includes a \$50,000 limit for swingline loans.

The availability period under the Revolving Credit Facility will terminate on December 11, 2029 (the “Commitment Termination Date”) and the Revolving Credit Facility will mature on December 11, 2030 (the “Maturity Date”). During the period from the Commitment Termination Date to the Maturity Date, the Fund will be obligated to make mandatory prepayments under the Facility out of the proceeds of certain asset sales, other recovery events and equity and debt issuances.

The SMBC Agreement includes customary affirmative and negative covenants, including financial covenants requiring the Company to maintain a minimum shareholders’ equity and asset coverage ratio, and certain limitations on the incurrence of additional indebtedness and liens, as well as usual and customary events of default for revolving credit facilities of this nature.

As of March 31, 2026 and December 31, 2025, the Company was in compliance with all covenants associated with the Revolving Credit Facility.

Foreign Currency Transactions and Translations

The Company’s outstanding foreign-denominated debt obligations were as follows:

	March 31, 2026			
	Original Principal Amount (Local)	Original Principal Amount (USD)	Outstanding Principal	Unrealized Gain (Loss)
Canadian Dollar	52,056	\$ 37,210	\$ 37,407	\$ (197)
European Euro	4,688	4,998	5,416	(418)
Great British Pound	4,020	5,156	5,317	(161)
Total		\$ 47,364	\$ 48,140	\$ (776)

	December 31, 2025			
	Original Principal Amount (Local)	Original Principal Amount (USD)	Outstanding Principal	Unrealized Gain (Loss)
Canadian Dollar	26,756	\$ 18,647	\$ 19,496	\$ (848)
European Euro	4,688	4,998	5,507	(509)
Great British Pound	4,020	5,156	5,417	(261)
Total		\$ 28,801	\$ 30,420	\$ (1,618)

[Table of Contents](#)

Interest and Debt Expenses

The components of interest and debt expenses were as follows:

	Three Months Ended March 31,	
	2026	2025
Stated interest expense	\$ 13,179	\$ 3,878
Facility unused fees	555	179
Amortization of deferred financing costs	463	201
Total interest and debt expenses	\$ 14,197	\$ 4,258
Cash paid for interest expense	\$ 12,988	\$ 3,060
MS Facility weighted average interest rate	5.51%	6.12%
MS Facility average debt outstanding	\$ 850,761	\$ 251,939
Revolving Credit Facility weighted average interest rate	5.51%	N/A
Revolving Credit Facility average debt outstanding	\$ 105,925	\$ —

Stated interest expense for the three months ended March 31, 2026 and 2025 was driven by approximately \$956,686 and \$251,939, respectively, of average debt outstanding (at an average effective interest rate, of 5.51% and 6.12%) related to borrowings for investments and expenses.

Weighted average interest rates do not include impact of unused commitment fees or amortization of deferred financing costs.

As of March 31, 2026 and December 31, 2025, \$3,144 and \$2,713, respectively, of stated interest expense and \$425 and \$110, respectively, of unused commitment fees were included in interest payable on the Consolidated Statements of Assets and Liabilities.

Note 7. Commitments and Contingencies

In the normal course of business, the Company may enter into contracts that provide a variety of general indemnifications. Any exposure to the Company under these arrangements could involve future claims that may be made against the Company. Currently, no such claims exist or are expected to arise and, accordingly, the Company has not accrued any liability in connection with such indemnifications.

Unfunded commitments

The Company's investment portfolio contains revolving line of credit, delayed draw, or equity commitments, which require the Company to fund when requested by the portfolio companies. As of March 31, 2026 and December 31, 2025, the Company had unfunded investment commitments of \$367,320 and \$427,220, respectively. Such commitments are subject to the satisfaction of certain conditions set forth in the documents governing these loans and letters of credit and there can be no assurance that such conditions will be satisfied.

Off balance sheet risk

Off-balance sheet risk refers to an unrecorded potential liability that may result in a future obligation or loss, even though it does not appear on the Consolidated Statements of Assets and Liabilities. The Company may enter into derivative instruments that contain elements of off-balance sheet market and credit risk. As of March 31, 2026 and December 31, 2025, there were no commitments outstanding for derivative contracts.

Legal proceedings

From time to time, the Company may become a party to certain legal proceedings incidental to the normal course of its business. As of March 31, 2026 and December 31, 2025, management is not aware of any material pending legal proceedings individually or in the aggregate.

Note 8. Net Assets

The Company is currently offering on a continuous basis up to \$2 billion of Common Shares at \$0.01 per share par value and has the authority to issue an unlimited number of Common Shares at \$0.01 per share par value. The Company expects to offer to sell a combination of three separate classes of Common Shares: Class S shares, Class D shares and Class I shares, with a dollar value up to the maximum offering amount. The share classes have different ongoing shareholder servicing and/or distribution fees. The per share purchase price for Common Shares in the Company's Offering will be equal to the Company's NAV per Common Share, as of the effective date of the monthly share purchase date.

The following table summarizes transactions in Common Shares during the three months ended March 31, 2026 and 2025:

	Three Months Ended March 31,			
	2026		2025	
	Shares	Amount	Shares	Amount
CLASS I				
Subscriptions	3,222,374	\$ 80,615	31,183	\$ 783
Distributions reinvested	43,497	1,087	—	—
Repurchase of shares (net of early repurchase deduction)	(1,983)	(49)	—	—
Total net increase (decrease)	<u>3,263,888</u>	<u>\$ 81,653</u>	<u>31,183</u>	<u>\$ 783</u>

As of March 31, 2026, the Company has not issued any Class S or Class D shares.

As of March 31, 2026 and December 31, 2025, no entity with an advisory relationship with Antares or its affiliates, including the Company, as appropriate given the context of the disclosure (including the Adviser) ("Adviser Parties") own Common Shares of the Company.

Share Repurchase Program

The Company has commenced a share repurchase program in which the Company intends to repurchase, in each quarter, up to 5% of the Common Shares outstanding (either by number of Common Shares or aggregate net asset value) as of the close of the previous calendar quarter. The Company’s Board may amend, suspend or terminate the share repurchase program if it deems such action to be in the best interest of the Company and the best interest of the Company’s shareholders. As a result, share repurchases may not be available each quarter. The Company intends to conduct such repurchase offers in accordance with the requirements of Rule 13e-4 promulgated under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and the 1940 Act. All shares purchased pursuant to the terms of each tender offer will be retired and thereafter will be authorized and unissued shares.

Under the Company’s share repurchase program, to the extent the Company offers to repurchase shares in any particular quarter, the Company expects to repurchase shares pursuant to tender offers using a purchase price equal to the NAV per Common Share as of the last calendar day of the applicable quarter, except that shares that have not been outstanding for at least one year will be repurchased at 98% of such NAV (an “Early Repurchase Deduction”). The one-year holding period is measured as of the subscription closing date immediately following the prospective repurchase date. The Early Repurchase Deduction may be waived, at the Company’s discretion, in the case of repurchase requests arising from the death, divorce or qualified disability of the holder. The Early Repurchase Deduction will be retained by the Company for the benefit of remaining shareholders across all shares.

The following table summarizes the total shares repurchased that were validly tendered and not withdrawn in tender offers under the share repurchase program during the three months ended March 31, 2026.

Repurchase Deadline Request	Percentage of Outstanding Common Shares Offered to Repurchase ⁽¹⁾	Repurchase Pricing Date	Amount Repurchased (Net of Early Repurchase Deduction)	Number of Shares Repurchased	Percentage of Outstanding Shares Purchased ⁽¹⁾
March 13, 2026	5.00%	March 31, 2026	\$ 49	1,983	0.01%

(1) Percentage is based on total shares outstanding as of the close of the previous quarterly period. All repurchase requests were satisfied in full.

There were no shares repurchased under the share repurchase program during the three months ended March 31, 2025.

Distributions

The Company authorizes and declares distribution amounts per Common Share payable monthly in arrears. The following tables present distributions that were declared during the three months ended March 31, 2026 and 2025:

Three Months Ended March 31, 2026						
Declaration Date	Payment Date	Base Distribution Per Share	Special Distribution Per Share	Total Distribution Per Share	Total Distribution Amount	
January 30, 2026	February 27, 2026	\$ 0.1925	\$ 0.0107	\$ 0.2032	\$ 6,267	
February 27, 2026	March 31, 2026	0.1731	0.0096	0.1827	5,764	
March 30, 2026	April 30, 2026	0.1886	0.0052	0.1938	6,275	
Total		\$ 0.5542	\$ 0.0255	\$ 0.5797	\$ 18,306	

Three Months Ended March 31, 2025						
Declaration Date	Payment Date	Base Distribution Per Share	Special Distribution Per Share	Total Distribution Per Share	Total Distribution Amount	
January 31, 2025	February 28, 2025	\$ 0.1912	\$ 0.0159	\$ 0.2071	\$ 5,261	
February 28, 2025	March 31, 2025	0.1734	0.0193	0.1927	4,896	
March 31, 2025	April 30, 2025	0.1920	0.0213	0.2133	5,426	
Total		\$ 0.5566	\$ 0.0565	\$ 0.6131	\$ 15,583	

(1) Rounded to four decimal places.

Distribution Reinvestment Plan

The Company has adopted a distribution reinvestment plan, pursuant to which the Company reinvests all cash distributions declared on behalf of the Company’s shareholders who do not elect to receive their distributions in cash. As a result, if the Board authorizes and declares a cash distribution, then the shareholders who have enrolled in the distribution reinvestment plan will have their cash distributions automatically reinvested in additional shares of the Company’s Common Shares, rather than receiving the cash distribution. The Company expects to use newly issued shares to implement the distribution reinvestment plan. Distributions on fractional shares are credited to each participating shareholder’s account to three decimal places.

Note 9. Financial Highlights

The following are the financial highlights for the three months ended March 31, 2026 and 2025:

	Three Months Ended March 31,	
	2026	2025
Per Share Data:		
Net assets, beginning of period	\$ 25.18	\$ 25.09
Net investment income (loss) ⁽¹⁾	0.55	0.72
Net realized and change in unrealized appreciation (depreciation) ⁽²⁾	(0.58)	(0.09)
Net increase (decrease) in net assets resulting from operations	(0.03)	0.63
Distributions declared ⁽³⁾	(0.58)	(0.61)
Total increase (decrease) in net assets	(0.61)	0.02
Net assets, end of period	\$ 24.57	\$ 25.11
Common Shares outstanding, end of period	32,376,193	25,436,857
Total return based on net asset value ⁽⁴⁾	(0.12) %	2.52 %
Ratios: ⁽⁵⁾		
Total expenses to average net assets gross of fee waivers	10.86 %	5.95 %
Net expenses to average net assets net of fee waivers	10.86 %	3.22
Net investment income to average net assets	9.38 %	10.90 %
Portfolio turnover rate ⁽⁶⁾	6.60 %	2.90 %
Supplemental Data:		
Net assets, end of period	\$ 795,561	\$ 638,688
Asset coverage ratio ⁽⁷⁾	182.17 %	240.02 %

- (1) The per share data was derived by using the weighted average shares outstanding during the period.
- (2) The per share data includes a balancing figure that is derived from the other amounts presented in the schedule.
- (3) The per share data was derived using the actual shares outstanding at the date of the relevant transaction (See Note 8).
- (4) Total return (not annualized) is calculated as the change in net assets per share during the period, plus distributions per share (assuming distributions are reinvested in accordance with the Company's distribution reinvestment plan), divided by the net assets per share at the beginning of the period.
- (5) Amounts are annualized except for non-recurring expenses (organization and offering expenses, and incentive fees on capital gains) for the three months ended March 31, 2026 and 2025.
- (6) Portfolio turnover rate (not annualized) is calculated using the lesser of the year-to-date sales or year-to-date purchases over the average of the invested assets at fair value for the period reported. Ratio does not include impact of short-term investments.
- (7) In accordance with the 1940 Act, with certain limitations, the Company is allowed to borrow amounts such that its asset coverage, as defined in the 1940 Act, is at least 150% after such borrowing.

Note 10. Segment Reporting

The Company operates through a single operating and reporting segment with the investment objective to provide risk-adjusted returns and current income to shareholders by investing primarily in loans to U.S. borrowers. The Chief Operating Decision Maker (“CODM”) function is comprised of the Company’s chief executive officer, chief financial officer and chief compliance officer, which evaluates the performance of the Company on a consolidated basis, and which operates under the specific regulatory requirements of the Investment Company Act of 1940. The CODM function utilizes key metrics including, but not limited to, net increase (decrease) in net assets resulting from operations (as reported on the Consolidated Statements of Operations) for determining the Company’s investment strategy, capital allocation, expense structure, and potential significant transactions. As the Company’s operations comprise of a single reporting segment, the segment assets are reflected on the accompanying Consolidated Statements of Assets and Liabilities as “total assets” and the significant segment expenses are listed on the accompanying Consolidated Statements of Operations.

Note 11. Subsequent Events

The Company has evaluated events and transactions for potential recognition or disclosure through May 13, 2026. There are no subsequent events to disclose except for the following:

Subscriptions

On April 1, 2026, the Company sold and issued 144,468 Common Shares for an aggregate consideration of approximately \$3,550 at a price of \$24.57 per Common Share, including Common Shares issued through the Company's distribution reinvestment plan.

The Company received \$5,185 of net proceeds relating to the issuance of Common Shares for subscriptions effective May 1, 2026.

Distribution Declaration

On April 30, 2026, the Company declared a regular distribution in the amount of \$0.1818 per share for its Common Shares, which is payable to shareholders of record as of April 30, 2026, and will be paid on or about May 29, 2026.

This distribution will be paid in cash or reinvested in additional Common Shares for shareholders participating in the Company's distribution reinvestment plan.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Overview

We are a non-diversified closed-end management investment company that has elected to be treated as a BDC under the 1940 Act as of November 5, 2024. We also have elected to be treated, and intend to comply with the requirements to qualify annually, as a RIC under the Code. We are a non-traded, perpetual-life BDC, which is a BDC whose Common Shares are not listed for trading on a stock exchange or other securities market. We use the term “perpetual-life BDC” to describe an investment vehicle of indefinite duration whose Common Shares are intended to be sold monthly on a continuous basis at a price generally equal to our NAV per Common Share. Formed as a Delaware statutory trust on May 1, 2023, we are externally managed by the Adviser, which is responsible for sourcing potential investments, conducting due diligence on prospective investments, analyzing investment opportunities, structuring investments and monitoring our portfolio on an ongoing basis. Our Adviser is registered as an investment adviser with the SEC.

Our investment objective is to provide risk-adjusted returns and current income to shareholders by investing primarily in loans to U.S. borrowers.

Our investment strategy focuses primarily on private credit investments structured as Portfolio Loans to U.S. borrowers. A “Portfolio Loan” is a senior secured loan, which may be first lien, second lien or unitranche loan, consisting of term loans and/or related delayed draw term loans and/or revolving loans, and each tranche of a senior secured loan acquired by us is referred to as a Portfolio Loan. We acquire Portfolio Loans that have been sourced and underwritten (i.e., evaluated for associated potential risks) by Adviser Parties or by other loan originators that can include, among others, joint ventures in which one or more Adviser Parties have interests. A Portfolio Loan is one that we may generally hold on its own or in a group with other Adviser Parties advised funds and accounts and/or third-party investors. Portfolio Loans are generally expected to have an average contractual term of five to seven years, with an expected life typically between three to four years. Unitranche loans represent a hybrid loan structure that combines senior debt and subordinated debt into one loan.

While our investment strategy primarily focuses on companies in the U.S., we also intend to leverage the Antares Lending Platform’s global presence to invest in companies in Canada, Europe and other locations outside the U.S., subject to compliance with BDC requirements to invest at least 70% of assets in “eligible portfolio companies”. Our subsidiaries’ (including entities that engage in investment activities in securities or other assets that are primarily controlled by us) principal investment strategies and associated principal risks will be consistent with our principal investment strategies and associated principal risks. We may also invest in preferred equity, or our debt investments may be accompanied by equity-related securities (such as options or warrants) and/or select common equity investments.

Our investment strategy also includes a smaller allocation to more liquid credit investments such as broadly syndicated loans and corporate bonds. We may use these investments to maintain liquidity for our share repurchase program and manage cash before investing subscription proceeds into originated loans, while also seeking attractive investment returns. We may also invest in publicly traded securities of larger corporate issuers on an opportunistic basis when market conditions create compelling potential return opportunities, subject to compliance with BDC requirements.

To seek to enhance our returns, we intend to employ leverage as market conditions permit and at the discretion of the Adviser, but in no event will leverage employed exceed the limitations set forth in the 1940 Act, which currently allows us to borrow up to a 2:1 debt to equity ratio. We intend to use leverage in the form of borrowings, including loans from certain financial institutions and the issuance of debt securities. We may also use leverage in the form of the issuance of preferred shares, but do not currently intend to do so. In determining whether to borrow money, we will analyze the maturity, covenant package and rate structure of the proposed borrowings as well as the risks of such borrowings compared to our investment outlook. Any such leverage, if incurred, would be expected to increase the total capital available for investment by us.

Revenues

We generate revenue in the form of interest and fee income on debt investments, capital gains, and dividend income from our equity investments in our portfolio companies. Our senior and subordinated debt investments bear interest at a fixed or floating rate. Interest on debt securities is generally payable monthly, quarterly or semi-annually. In some cases, some of our investments may provide for deferred interest payments or payment-in-kind (“PIK”) interest. The principal amount of the debt securities and any accrued but unpaid PIK interest generally become due at the maturity date. In addition, we may generate revenue from various fees in the ordinary course of business such as in the form of structuring, consent, waiver, amendment, syndication and other miscellaneous fees. Original issue discounts and market discounts or premiums are capitalized, and we accrete or amortize such amounts as interest income. We record prepayment premiums on loans and debt securities as interest income. Dividend income, if any, is recognized on an accrual basis to the extent that we expect to collect such amounts.

Expenses

Except as specifically provided below, all investment professionals and staff of the Adviser, when and to the extent engaged in providing investment advisory services to us, and the base compensation, bonus and benefits, and the routine overhead expenses, of such personnel allocable to such services, will be provided and paid for by the Adviser. We bear all other costs and expenses of our operations, administration and transactions, including, but not limited to:

- investment advisory fees, including management fees and incentive fees, paid to the Adviser pursuant to the Investment Advisory Agreement;
- our allocable portion of compensation, overhead (including rent, office equipment and utilities) and other expenses incurred by the Administrator in performing its administrative obligations under the Administration Agreement, including but not limited to: (i) our chief compliance officer, chief financial officer and their respective staffs; (ii) investor relations, legal, operations and other non-investment professionals at the Administrator that perform duties for us; and (iii) any internal audit group personnel of the Adviser or any of its affiliates; and
- all other expenses of our operations, administration and transactions (which may be directly incurred by us or allocated among us and the Adviser's other clients).

From time to time, the Adviser or its affiliates may pay third-party providers of goods or services. We reimburse the Adviser such affiliates thereof for any such amounts paid on our behalf. From time to time, the Adviser may defer or waive fees and/or rights to be reimbursed for expenses. All of the foregoing expenses are ultimately borne by our shareholders, unless waived.

Portfolio and Investment Activity

As of March 31, 2026, we had investments in 421 portfolio companies across 45 industries. Based on fair value as of March 31, 2026, approximately 99.48% of our debt portfolio was invested in debt bearing a floating interest rate (e.g. Secured Overnight Financing Rate ("SOFR")), which primarily is subject to interest rate floors. As of March 31, 2026, our weighted average yield on debt and income producing investments at amortized cost was 8.33%. Weighted average yield excludes the effect of accretion of discounts and amortization of premiums and are based on interest rates as of March 31, 2026.

As of December 31, 2025, we had investments in 438 portfolio companies across 45 industries. Based on fair value as of December 31, 2025, approximately 99.46% of our debt portfolio was invested in debt bearing a floating interest rate, which primarily is subject to interest rate floors. As of December 31, 2025, our weighted average yield on debt and income producing investments at amortized cost was 8.27%. Weighted average yield excludes the effect of accretion of discounts and amortization of premiums and are based on interest rates as of December 31, 2025.

Investment disclosures in this section are related to non-controlled/non-affiliated investments unless otherwise indicated.

Our investment activity is presented below (information presented herein is at amortized cost unless otherwise indicated, table below in thousands):

	Three Months Ended March 31,	
	2026	2025
Total investments, beginning of period	\$ 1,610,881	\$ 849,742
Purchases of investments (including received in-kind)	204,835	285,514
Net accretion of discounts and amortization of premiums on investments	957	267
Net realized gains (losses) on investments	(666)	1
Proceeds from sale of investments and principal repayments	(108,719)	(28,305)
Total investments, end of period	\$ 1,707,288	\$ 1,107,219

[Table of Contents](#)

The following table presents certain selected information regarding our investment portfolio:

	March 31, 2026	December 31, 2025
Weighted average yield on debt and income producing investments, at amortized cost ⁽¹⁾	8.33%	8.27%
Weighted average yield on debt and income producing investments, at fair value ⁽¹⁾	8.33%	8.27%
Number of portfolio companies	421	438
Median LTM EBITDA ⁽²⁾⁽³⁾	\$89.7M	\$84.6M
Weighted average net senior leverage ⁽²⁾⁽⁴⁾	5.4x	5.3x
Weighted average loan-to-value ("LTV") ⁽²⁾⁽⁵⁾	36%	35%
Percentage of debt investments bearing a floating rate, at fair value	99.48%	99.46%
Percentage of debt investments bearing a fixed rate, at fair value	0.52%	0.54%

- (1) Computed based on the stated interest rate or yield as of March 31, 2026 and December 31, 2025, and weighted based on the total debt and income producing investments (at fair value or amortized cost, as applicable). Actual yields earned over the life of each investment could differ materially from the yields presented above. Weighted average yield excludes the effect of accretion of discounts and amortization of premiums.
- (2) Includes all private loan investments for which fair value is determined by the Adviser at least quarterly (with assistance, as applicable, from a third-party valuation firm, and subject to oversight by the Board). Figures are derived from the financial statements most recently obtained by the Adviser.
- (3) LTM EBITDA refers to adjusted earnings before interest, taxes, depreciation and amortization ("EBITDA") in accordance with the underlying governing documents, over the last twelve months as reported by respective borrowers. Excludes investments with no reported EBITDA or where EBITDA, in the Adviser's judgment, was not a material component of the investment thesis, such as annual recurring revenue loans, or investments with negative EBITDA.
- (4) Net senior leverage is the ratio of total debt minus unrestricted cash divided by LTM EBITDA and taking into account leverage through the tranche in which we hold an investment, excluding recurring revenue loans. Weighted average net senior leverage is weighted based on the funded commitment of total applicable private loans.
- (5) LTV is calculated as net debt through each respective investment tranche in which we hold an investment divided by estimated enterprise value or value of the underlying collateral of the portfolio company, excluding recurring revenue loans. Weighted average LTV is weighted based on the funded commitment of the total applicable private loans.

[Table of Contents](#)

As part of the monitoring process, our Adviser has developed risk policies pursuant to which it regularly assesses the risk profile of each of our debt investments. Our Adviser has developed a classification system to group investments into five categories. The investments are evaluated regularly and assigned a category based on certain credit metrics. Our Adviser's ratings do not constitute any rating of investments by a nationally recognized statistical rating organization or represent or reflect any third-party assessment of any of our investments. Please see below for a description of the five categories of the Adviser's Internal Risk Rating system:

- Internal Performance Rating A: Portfolio companies performing generally as expected or above expectations and the trends and risk factors are generally neutral to favorable since origination. No concern about repayment of both interest and principal. All investments or acquired investments in new portfolio companies are initially assessed this level.
- Internal Performance Rating B: Portfolio companies performing generally as expected but the trends require increased monitoring. Portfolio companies are current on both interest and principal payments.
- Internal Performance Rating C: Portfolio companies performing below expectations and level of risk has increased since the time of origination. Portfolio companies are generally current on both interest and principal payments.
- Internal Performance Rating D: Portfolio companies performing materially below expectations and the level of risk has increased materially since origination. In addition to the borrower being generally out of compliance with original debt covenants, loan payments may be past due, but generally not by more than 120 days. There is a higher risk of both payment default and repayment of interest and principal in full.
- Internal Performance Rating E: Portfolio companies are non-earning and performing substantially below expectations. The level of risk has increased substantially since origination. Most or all of the original debt covenants are out of compliance and payments are substantially delinquent. There is a high risk that all principal and interest will not be recovered in full.

The following tables show the distribution of our investments on the A to E internal performance rating scale at fair value:

March 31, 2026			
Internal Performance Rating	Investments at Fair Value (in thousands)	% of Total Investments at Fair Value	Number of Portfolio Companies
A	\$ 1,637,534	97.05 %	371
B	32,096	1.90	28

As of March 31, 2026, there were 4 portfolio companies with loans on non-accrual status (fair value of \$458). As of December 31, 2025, there was one portfolio company with loans on non-accrual status (fair value of \$174). Loans are generally placed on non-accrual status when there is reasonable doubt that principal or interest will be collected in full. Accrued interest is generally reversed when a loan is placed on non-accrual status. Non-accrual loans are restored to accrual status when past due principal and interest is paid current and, in management's judgment, are likely to remain current. Management may make exceptions to this treatment and determine to not place a loan on non-accrual status if the loan has sufficient collateral value and is in the process of collection.

The composition of our investment portfolio at amortized cost and fair value is as follows (dollar amounts in thousands):

	March 31, 2026			December 31, 2025		
	Amortized Cost	Fair Value	% of Total Investments at Fair Value	Amortized Cost	Fair Value	% of Total Investments at Fair Value

Total	\$ 1,707,288	\$ 1,687,345	100.00 %	212.09 %

December 31, 2025				
	Amortized Cost	Fair Value	% of Total Investments at Fair Value	Fair Value as % of Net Assets
United States	\$ 1,577,869	\$ 1,576,036	97.92 %	214.99 %
Canada	33,012	33,466	2.08	4.57
Total	\$ 1,610,881	\$ 1,609,502	100.00 %	219.56 %

Results of Operations

Operating results for the three months ended March 31, 2026 and 2025 were as follows (table below in thousands):

	Three Months Ended March 31,	
	2026	2025
Total investment income	\$ 38,163	\$ 23,375
Total expenses	20,691	9,870
Management fees waiver	—	(1,965)
Incentive fees waiver	—	(2,269)
Reimbursable expenses paid by adviser	—	(500)
Net expenses, net of fee waivers	20,691	5,136
Excise tax expense	55	—
Net investment income (loss)	17,417	18,239
Net realized gain (loss)	(591)	549
Net change in unrealized appreciation (depreciation)	(18,002)	(2,759)
(Provision) benefit for taxes on unrealized appreciation (depreciation) of assets	289	—
Net increase (decrease) in net assets resulting from operations	\$ (887)	\$ 16,029

Net increase (decrease) in net assets resulting from operations can vary from period to period as a result of various factors, including deployment, the level of new investment commitments, the recognition of realized gains and losses and changes in unrealized appreciation and depreciation on the investment portfolio. As a result, comparisons may not be meaningful.

[Table of Contents](#)

Investment Income

Investment income, was as follows for the three months ended March 31, 2026 and 2025 (table below in thousands):

	Three Months Ended March 31,	
	2026	2025
Interest income	\$ 36,924	\$ 22,126
Payment-in-kind interest income	351	110
Payment-in-kind dividend income	204	—
Other income	684	1,139
Total investment income	\$ 38,163	\$ 23,375

Total investment income for the three months ended March 31, 2026 increased relative to the same period in the prior year, primarily driven by our deployment of capital and increase in our investment portfolio. The size of our investment portfolio at fair value increased from \$1.1 billion as of March 31, 2025 to \$1.7 billion as of March 31, 2026, which has increased the balance of interest-bearing securities year-over-year. The weighted average yield on debt and income producing investments, at fair value, decreased to 8.3% as of March 31, 2026, from 9.1% as of March 31, 2025, which is attributable to decreases in index rates and incremental increases to allocations of broadly syndicated loans. Included in interest income are other fees such as prepayment fees and accelerated amortization of upfront fees from unscheduled paydowns which are non-recurring in nature.

Interest income on our debt investments is dependent on interest rates and volume of loans outstanding, as well as the composition and credit quality of the portfolio. Generally, we expect the portfolio to generate predictable quarterly interest income based on the terms stated in each loan's respective credit agreement.

Other income includes fees that are generally available to us as a result of investment originations by Adviser Parties, and generally paid at the time of closing or as a result of episodic amendments made to the terms of our existing debt investments. Included in investment income is dividend income from common equities and payment-in-kind dividend income from preferred equities.

Expenses

Expenses were as follows (table below in thousands):

	Three Months Ended March 31,	
	2026	2025
Interest and debt expenses	\$ 14,197	\$ 4,258
Management fees	2,431	1,965
Income based incentive fee	2,489	2,269
Administrative service fee	182	156
Board of Trustees' fee	41	40
Other general and administrative expenses	1,048	682
Organization and offering costs	303	500
Total expenses	20,691	9,870
Management fees waiver	—	(1,965)
Incentive fees waiver	—	(2,269)
Reimbursable expenses paid by adviser	—	(500)
Net expenses, net of fee waivers	\$ 20,691	\$ 5,136

Total operating expenses were \$1.6 million, for the three months ended March 31, 2026, primarily comprised of \$1.0 million of other general and administrative expenses (including legal, rating agencies, audit, tax, valuation, technology, insurance, filing, research, and fees paid to our sub-administrator, custodian and transfer agent, and other professional fees related to our management), \$0.2 million of administrative service expenses, and \$0.3 million in organization and offering costs.

Total operating expenses were \$1.4 million, for the three months ended March 31, 2025, primarily comprised of \$0.7 million of other general and administrative expenses (including legal, rating agencies, audit, tax, valuation, technology, insurance, filing, research, and fees paid to our sub-administrator, custodian and transfer agent, and other professional fees related to our management), \$0.2 million of administrative service expenses, and \$0.5 million in organization and offering costs.

The increase in management and incentive fees was primarily driven by growth in NAV, increased deployment into loan investments, which resulted in higher total investment income, and the conclusion of the fee waiver.

[Table of Contents](#)

Interest and Debt Expenses

The components of interest and debt expenses, cash paid for interest, weighted average interest rates and average debt outstanding balances were as follows:

	Three Months Ended March 31,	
	2026	2025
Stated interest expense	\$ 13,179	\$ 3,878
Facility unused fees	555	179
Amortization of deferred financing costs	463	201
Total interest and debt expenses	\$ 14,197	\$ 4,258
Cash paid for interest expense	\$ 12,988	\$ 3,060
MS Facility weighted average interest rate	5.51%	6.12%
MS Facility average debt outstanding	\$ 850,761	\$ 251,939
Revolving Credit Facility weighted average interest rate	5.51%	N/A
Revolving Credit Facility average debt outstanding	\$ 105,925	\$ —

Stated interest expense for the three months ended March 31, 2026 was driven by approximately \$956.7 million of average debt outstanding (at an average effective interest rate, of 5.51%) related to borrowings for investments and expenses.

Stated interest expense for the three months ended March 31, 2025 was driven by approximately \$251.9 million of average debt outstanding (at an average effective interest rate, of 6.12%) related to borrowings for investments and expenses.

Weighted average interest rates do not include impact of unused commitment fees or amortization of deferred financing costs.

Interest and other debt expenses increased to \$14.2 million for the three months ended March 31, 2026, compared to \$4.3 million for the three months ended March 31, 2025, primarily driven by continued deployment and increased borrowings year-over-year. Our average debt outstanding increased to \$956.7 million for the three months ended March 31, 2026 from \$251.9 million for the three months ended March 31, 2025.

The average effective interest rate on borrowings outstanding decreased to 5.51% for the three months ended March 31, 2026 from 6.12% for the three months ended March 31, 2025.

Net Realized and Change in Unrealized Gains and Losses

The following table summarizes our net realized and unrealized gains (losses) (table below in thousands):

	Three Months Ended March 31,	
	2026	2025
Net realized gain (loss) on non-controlled, non-affiliated investments	\$ (666)	\$ 1
Net change in unrealized appreciation (depreciation) on non-controlled, non-affiliated investments	(18,564)	(1,882)
Net realized and change in unrealized gain (loss) on non-controlled, non-affiliated investments	\$ (19,230)	\$ (1,881)

For the three months ended March 31, 2026, net realized and change in unrealized gain (loss) on non-controlled, non-affiliated investments was driven by mark-to-market losses in the fair value of private credit and broadly syndicated loan portfolios, primarily caused by the widening of credit spreads on the portfolio. As of March 31, 2026 and December 31, 2025, the fair value of our debt investments as a percentage of principal (excluding unfunded commitments) was 98.65% and 99.45%, respectively.

[Table of Contents](#)

Management fee

The base management fee is payable monthly in arrears at an annual rate of 1.25% of the our NAV as of the beginning of the first business day of the month. For the three months ended March 31, 2026, we incurred management fees of \$2.4 million, before impact of waived fees. For the three months ended March 31, 2026, the Adviser elected to not waive any management fees, resulting in \$2.4 million in management fees net of waiver. For the three months ended March 31, 2025, we incurred management fees of \$2.0 million, before impact of waived fees. For the three months ended March 31, 2025, the Adviser elected to waive all management fees, resulting in zero management fees net of waiver.

Incentive fee

The incentive fee consists of two components that are independent of each other, with the result that one component may be payable even if the other is not. A portion of the incentive fee is based on a percentage of income and a portion is based on a percentage of capital gains, each described below.

Income based incentive fee

The income based incentive fee is based on “Pre-Incentive Fee Net Investment Income Returns” meaning dividends, cash interest or other distributions or other cash income and any third-party fees received from portfolio companies (such as upfront fees, commitment fees, origination fees, amendment fees, ticking fees and break-up fees, as well as prepayments premiums, but excluding fees for providing managerial assistance and fees earned by the Adviser or an affiliate in its capacity as an administrative agent, syndication agent, collateral agent, loan servicer or other similar capacity) accrued during the month, minus operating expenses for the month (including the management fee, taxes, any expenses payable under the Investment Advisory Agreement and Administration Agreement (as defined below), any expense of securitizations, and interest expense or other financing fees and any dividends paid on preferred shares, but excluding the incentive fee and shareholder servicing and /or distribution fees). Pre-Incentive Fee Net Investment Income Returns includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with PIK interest and zero-coupon securities), accrued income that has not yet been received in cash. Pre-Incentive Fee Net Investment Income Returns do not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. The impact of expense support payments and recoupments are also excluded from Pre-Incentive Fee Net Investment Income Returns.

Pre-Incentive Fee Net Investment Income Returns, expressed as a rate of return on the value of net assets at the end of the preceding quarter, is compared to a “hurdle rate” of return of 1.50% per quarter (6.0% annualized). We pay an incentive fee quarterly as follows:

- No incentive fee based on Pre-Incentive Fee Net Investment Income Returns in any calendar quarter in which the Pre-Incentive Fee Net Investment Income Returns does not exceed the hurdle rate of 1.50% per quarter (6.0% annualized).
- 100% of the dollar amount of the Pre-Incentive Fee Net Investment Income Returns with respect to that portion of such Pre-Incentive Fee Net Investment Income Returns, if any, that exceeds the hurdle rate but is less than a rate of return of 1.71% (6.86% annualized).
- 12.5% of the dollar amount of the Pre-Incentive Fee Net Investment Income Returns, if any, that exceed a rate of return of 1.71% (6.86% annualized).

Capital gains incentive fee

The second component of the incentive fee, the capital gains incentive fee, is payable at the end of each calendar year in arrears. The amount payable is equal to 12.5% of cumulative realized capital gains from inception through the end of such calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gains incentive fee as calculated in accordance with U.S. GAAP. U.S. GAAP requires that the capital gains incentive fee accrual consider the cumulative aggregate unrealized capital appreciation in the calculation, as a capital gains incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the investment advisory agreement. This U.S. GAAP accrual is calculated using the aggregate cumulative realized capital gains and losses and aggregate cumulative unrealized capital depreciation included in the calculation of the capital gains incentive fee plus the aggregate cumulative unrealized capital appreciation, net of any expense associated with cumulative unrealized capital depreciation or appreciation. If such amount is positive at the end of a period, then U.S. GAAP requires us to record a capital gains incentive fee equal to 12.5% of such cumulative amount, less the aggregate amount of actual capital gains incentive fees paid or capital gains incentive fees accrued under U.S. GAAP in all prior periods. Gross capital gains incentive fee is net of reversal on accrued capital gains incentive fees. The fees that are payable under the Investment Advisory Agreement for any partial period are appropriately prorated.

On October 31, 2024, we and the Adviser entered into a waiver letter agreement (the “Waiver Letter Agreement”), pursuant to which the Adviser agreed to irrevocably waive, which may be effected by a rebate or otherwise, (i) any base management fee due from us to the Adviser under Section 5(a) of the Investment Advisory Agreement and (ii) any incentive fee from us to the Adviser under Section 5(b) of the Investment Advisory Agreement for a six-month period following the effective date of our registration statement on Form N-2, which was declared effective on February 12, 2025.

For the three months ended March 31, 2026, we incurred income based incentive fees of \$2.5 million and no capital gains incentive fees. For the three months ended March 31, 2026, the Adviser did not waive any incentive fees, resulting in \$2.5 million incentive fees payable. For the three months ended March 31, 2025, we incurred income based incentive fees of \$2.3 million and no capital gains incentive fees. For the three months ended March 31, 2025, the Adviser agreed to waive \$2.3 million in total incentive fees, resulting in no incentive fees payable.

Expense Support Agreement

On October 31, 2024, the Board approved an expense support and conditional reimbursement agreement (the “Expense Support Agreement”). Under the terms of the Expense Support Agreement, the Adviser will pay our total organization and offering expenses, professional fees, director fees, administration fees, and other general and administrative expenses on our behalf such that our operating expenses do not exceed 1.00% (on annualized basis) of the our NAV. Additionally, the Adviser may elect to pay certain of our additional expenses on our behalf. Following any calendar month in which Available Operating Funds (as defined below) exceed the cumulative distributions accrued to our shareholders based on distributions declared with respect to record dates occurring in such calendar month (the amount of such excess being hereinafter referred to as “Excess Operating Funds”), we shall pay such Excess Operating Funds, or a portion thereof, to the Adviser until such time as all expense payments made by the Adviser to us within three years prior to the last business day of such calendar month have been reimbursed. “Available Operating Funds” means the sum of (i) our net investment company taxable income (including net short-term capital gains reduced by net long-term capital losses), (ii) our net capital gains (including the excess of net long-term capital gains over net short-term capital losses) and (iii) dividends and other distributions paid to us on account of investments in portfolio companies (to the extent such amounts listed in clause (iii) are not included under clauses (i) and (ii) above).

In addition, effective October 31, 2024, we and the Adviser entered into a waiver letter agreement (the “Waiver Letter Agreement”), pursuant to which the Adviser agreed to waive any reimbursement by us for any of our organization expenses, operating expenses and offering expenses the Adviser incurs or has incurred on our behalf in an aggregate amount not to exceed \$2 million. The Waiver Letter Agreement includes reimbursement provisions substantially similar to the reimbursement provisions included in the Expense Support Agreement.

For the three months ended March 31, 2026 and 2025, the Adviser waived \$0 and \$0.5 million expenses, respectively, pursuant to the Expense Support Agreement which is included in the Consolidated Statements of Operations.

Financial Condition, Liquidity and Capital Resources

We expect to generate cash primarily from (i) the net proceeds of the Offering, (ii) cash flows from our operations, (iii) any financing arrangements we may enter into in the future and (iv) any future offerings of our equity or debt securities. We intend to sell our Common Shares on a continuous monthly basis at a per share price equal to the then-current NAV per Common Share. Our primary uses of cash will be for (i) investments in portfolio companies and other investments, (ii) the cost of operations (including paying Antares Capital Credit Advisers LLC (in its capacity as the Adviser and/or the Administrator)), (iii) cost of any borrowings or other financing arrangements and (iv) cash distributions to the holders of our shares.

As of March 31, 2026, we had two credit facilities outstanding. From time to time, we may enter into additional credit facilities, increase the size of our existing credit facilities, enter additional short-term lending arrangements, and/or issue debt securities, including unsecured notes. In accordance with the 1940 Act, with certain limited exceptions, we are only allowed to incur borrowings, issue debt securities or issue preferred stock, if immediately after the borrowing or issuance, the ratio of total assets (less total liabilities other than indebtedness) to total indebtedness plus preferred stock, is at least 150%. As of March 31, 2026, we had an aggregate amount of \$968.1 million of principal debt outstanding and our asset coverage ratio was 182.17%. We seek to carefully consider our unfunded commitments for the purpose of planning our ongoing financial leverage. We believe that our current cash on hand, our short-term investments, our available borrowing capacity under our Revolving Credit Facility and our anticipated cash flows from operations will be adequate to meet our cash needs for our daily operations in the near term.

Equity

The following table summarizes transactions in Common Shares during the three months ended March 31, 2026 and 2025 (dollar amounts in thousands):

	Three Months Ended March 31,			
	2026		2025	
	Shares	Amount	Shares	Amount
Issuance of shares	3,222,374	\$ 80,647	31,183	\$ 783
Reinvestment of distributions	43,497	1,088	—	—
Repurchase of shares (net of early repurchase deduction)	(1,983)	(49)	—	—
Net increase (decrease)	<u>3,263,888</u>	<u>\$ 81,686</u>	<u>31,183</u>	<u>\$ 783</u>

Share Repurchase Program

We have commenced a share repurchase program in which we intend to repurchase, in each quarter, up to 5% of the Common Shares outstanding (either by number of Common Shares or aggregate NAV) as of the close of the previous calendar quarter. Our Board of Trustees may amend, suspend or terminate the share repurchase program if it deems such action to be in our best interest and the best interest of our shareholders. As a result, share repurchases may not be available each quarter. We intend to conduct such repurchase offers in accordance with the requirements of Rule 13e-4 promulgated under the Exchange Act and the 1940 Act. All shares purchased pursuant to the terms of each tender offer will be retired and thereafter will be authorized and unissued shares.

Under our share repurchase program, to the extent we offer to repurchase shares in any particular quarter, we expect to repurchase shares pursuant to tender offers using a purchase price equal to the NAV per Common Share as of the last calendar day of the applicable quarter, except that shares that have not been outstanding for at least one year will be repurchased at 98% of such NAV (an “Early Repurchase Deduction”). The one-year holding period is measured as of the subscription closing date immediately following the prospective repurchase date. The Early Repurchase Deduction may be waived, at our discretion, in the case of repurchase requests arising from the death, divorce or qualified disability of the holder. The Early Repurchase Deduction will be retained by us for the benefit of remaining shareholders across all shares.

The following table summarizes the total shares repurchased that were validly tendered and not withdrawn in tender offers under the share repurchase program during the three months ended March 31, 2026. There were no shares repurchased under the under the share repurchase program during the three months ended March 31, 2025.

Repurchase Deadline Request	Percentage of Outstanding Common Shares Offered to Repurchase ⁽¹⁾	Repurchase Pricing Date	Amount Repurchased (Net of Early Repurchase Deduction)	Number of Shares Repurchased	Percentage of Outstanding Shares Purchased ⁽¹⁾
March 13, 2026	5.00%	March 31, 2026	\$ 49	1,983	0.01%

(1) Percentage is based on total shares outstanding as of the close of the previous quarterly period. All repurchase requests were satisfied in full.

Distributions

We authorize and declare distribution amounts per Common Share payable monthly in arrears.

The following tables present distributions that were declared during the three months ended March 31, 2026 and 2025:

Three Months Ended March 31, 2026						
Declaration Date	Payment Date	Base Distribution Per Share	Special Distribution Per Share	Total Distribution Per Share	Total Distribution Amount	
January 30, 2026	February 27, 2026	\$ 0.1925	\$ 0.0107	\$ 0.2032	\$	6,267
February 27, 2026	March 31, 2026	0.1731	0.0096	0.1827		5,764
March 30, 2026	April 30, 2026	0.1886	0.0052	0.1938		6,275
Total		<u>\$ 0.5542</u>	<u>\$ 0.0255</u>	<u>\$ 0.5797</u>	<u>\$</u>	<u>18,306</u>

Three Months Ended March 31, 2025						
Declaration Date	Payment Date	Base Distribution Per Share	Special Distribution Per Share	Total Distribution Per Share	Total Distribution Amount	
January 31, 2025	February 28, 2025	\$ 0.1912	\$ 0.0159	\$ 0.2071	\$	5,261
February 28, 2025	March 31, 2025	0.1734	0.0193	0.1927		4,896
March 31, 2025	April 30, 2025	0.1920	0.0213	0.2133		5,426
Total		<u>\$ 0.5566</u>	<u>\$ 0.0565</u>	<u>\$ 0.6131</u>	<u>\$</u>	<u>15,583</u>

(1) Rounded to four decimal places.

The following table reflects the character of distributions on a U.S. GAAP basis that we declared on our Common Shares during the three months ended March 31, 2026 and 2025:

Source of Distribution	Three Months Ended March 31,			
	2026		2025	
	Per Share	Amount	Per Share	Amount
Net investment income (loss)	\$ 0.58	\$ 18,306	\$ 0.61	\$ 15,583

Return of capital	—	—	—	—
Total	<u>\$ 0.58</u>	<u>\$ 18,306</u>	<u>\$ 0.61</u>	<u>\$ 15,583</u>

Distribution Reinvestment Plan

We have adopted a distribution reinvestment plan, pursuant to which we will reinvest all cash distributions declared on behalf of our shareholders who do not elect to receive their distributions in cash. As a result, if we declare a cash distribution, then shareholders who have not opted out of our distribution reinvestment plan will have their cash distributions automatically reinvested in additional shares, rather than receiving the cash distribution. Distributions on fractional shares will be credited to each participating shareholder's account to three decimal places.

Related-Party Transactions

We have entered into a number of business relationships with affiliated or related parties, including the following:

- the Investment Advisory Agreement;
- the Administration Agreement; and
- Expense Support and Conditional Reimbursement Agreement,

In addition to the aforementioned agreements, we, our Adviser and certain of our Adviser's affiliates have been granted exemptive relief by the SEC to co-invest with other funds and accounts sponsored or managed by our Adviser or its affiliates in a manner consistent with our investment objective, positions, policies, strategies and restrictions as well as regulatory requirements and other pertinent factors. For additional information, see "Note 3. Agreements and Related Party Transactions" to the consolidated financial statements.

Recent Developments

Subscriptions

On April 1, 2026, we sold and issued 144,468 Common Shares for an aggregate consideration of approximately \$3.6 million at a price of \$24.57 per Common Share, including Common Shares issued through our distribution reinvestment plan.

We received \$5.2 million of net proceeds relating to the issuance of Common Shares for subscriptions effective May 1, 2026.

Distribution Declaration

On April 30, 2026, we declared a regular distribution in the amount of \$0.1818 per share, which is payable to shareholders of record as of April 30, 2026, and will be paid on or about May 29, 2026. This distribution will be paid in cash or reinvested in additional Common Shares for shareholders participating in our distribution reinvestment plan.

Critical Accounting Estimates

The preparation of the consolidated financial statements will require our management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Changes in the economic environment, financial markets and any other parameters used in determining such estimates could cause actual results to differ. In addition, our critical accounting estimates related to investments and fair value measurement are included in the notes to our consolidated financial statements. For a discussion of our critical accounting policies, see Note 2 “Significant Accounting Policies” to the Consolidated Financial Statements.

We are required to report investments for which current market values are not readily available at fair value. We value our investments in accordance with ASC 820, Fair Value Measurement, which defines fair value as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the applicable measurement date. ASC 820 prioritizes the use of observable market prices derived from such prices over entity-specific inputs. Due to the inherent uncertainties of valuation, certain estimated fair values may differ significantly from the values that would have been realized had a ready market for these investments existed, and these differences could be material.

Contractual Obligations

We entered into the Investment Advisory Agreement with the Adviser to provide us with investment advisory services and the Administration Agreement with Antares Capital Credit Advisers LLC (in its capacity as the Administrator) to provide us with administrative services. Payments for investment advisory services under the Investment Advisory Agreements and reimbursements under the Administration Agreement are described in “*Item 1. Consolidated Financial Statements—Notes to the Consolidated Financial Statements—Note 3. Agreements and Related Party Transactions.*”

We have established one or more credit facilities and may in the future establish additional credit facilities or enter into other financing arrangements to facilitate investments and the timely payment of our expenses. It is anticipated that any such credit facilities will bear interest at floating rates at to-be-determined spreads over SOFR (or other applicable reference rate). We cannot assure shareholders that we will be able to enter into a credit facility on favorable terms or at all. In connection with a credit facility or other borrowings, lenders may require us to pledge assets and may ask to comply with positive or negative covenants that could have an effect on our operations.

Off-Balance Sheet Arrangements

Other than contractual commitments and other legal contingencies incurred in the normal course of our business, we do not have any off-balance sheet financings or liabilities.

Unfunded Commitments

Our investment portfolio may contain revolving line of credit commitments, delayed draw commitments, and certain equity investments, which may require us to fund when requested by portfolio companies. As of March 31, 2026 and December 31, 2025, we had unfunded investment commitment of \$367.3 million and \$427.2 million, respectively. Such commitments are subject to the satisfaction of certain conditions set forth in the documents governing these investments and there can be no assurance that such conditions will be satisfied.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are subject to financial market risks, including changes in interest rates and foreign exchange rates. A rise in the general level of interest rates can be expected to lead to higher interest rates applicable to the variable rate investments we may hold and to declines in the value of any fixed rate investments we may hold. A rise in interest rates would also be expected to lead to higher cost on our floating rate borrowings. If deemed prudent, we may use interest rate risk management techniques in an effort to minimize our exposure to interest rate fluctuations. We seek to mitigate interest rate risk and foreign currency risk by generally employing a funding strategy of matching the duration and interest rate indices of our floating rate assets with floating rate liabilities, as well as matching currencies between our borrowing and lending, to the extent possible.

Valuation Risk

We plan to invest primarily in illiquid debt securities of private companies. Most of our investments do not have a readily available market price, and we value these investments at fair value as determined in good faith pursuant to procedures adopted by, and under the oversight of, the Board in accordance with our valuation policy. There is no single standard for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments we make.

Interest Rate Risk

Interest rate sensitivity refers to the change in earnings that may result from changes in the level of interest rates. We intend to fund portions of our investments with borrowings, and at such time, our net investment income will be affected by the difference between the rate at which we invest and the rate at which we borrow. Accordingly, we cannot assure shareholders that a significant change in market interest rates will not have a material adverse effect on our net investment income.

As of March 31, 2026, 99.48% of our performing debt investments at fair value were at floating rates, which are generally SOFR based and typically have durations of one to three months after which they reset to current interest rates, and many of which are subject to certain floors. Our credit facilities (including the Morgan Stanley Facility and Revolving Credit Facility) bear interest at floating rates with zero percent interest rate floors. Based on our Consolidated Statements of Assets and Liabilities as of March 31, 2026, the following table shows the annualized impact on net interest income of hypothetical base rate changes in interest rates (considering base rate floors and ceilings for floating rate instruments) and assuming no changes in our investment and borrowing structure (table below in thousands):

Change in Interest Rates	Interest Income		Interest Expense		Net Interest Income	
Up 300 basis points	\$	50,392	\$	(29,044)	\$	21,348
Up 200 basis points		33,595		(19,363)		14,232
Up 100 basis points		16,797		(9,681)		7,116
Down 100 basis points		(16,797)		9,681		(7,116)
Down 200 basis points		(33,386)		19,363		(14,023)
Down 300 basis points		(47,713)		28,725		(18,988)

We may in the future hedge against interest rate fluctuations by using hedging instruments such as interest rate swaps, futures, options and forward contracts. While hedging activities may mitigate our exposure to adverse fluctuations in interest rates, certain hedging transactions that we may enter into in the future, such as interest rate swap agreements, may also limit our ability to participate in the benefits of changes in interest rates with respect to our portfolio investments.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

In accordance with Rules 13a-15(b) and 15d-15(b) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), we, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q and determined that our disclosure controls and procedures are effective as of the end of the period covered by the Quarterly Report on Form 10-Q.

(b) Changes in Internal Controls Over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended March 31, 2026 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

We are not currently subject to any material legal proceedings, nor, to our knowledge, is any material legal proceeding threatened against us. From time to time, we may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. Our business is also subject to extensive regulation, which may result in regulatory proceedings against us. While the outcome of any such future legal or regulatory proceedings cannot be predicted with certainty, we do not expect that any such future proceedings will have a material effect upon our financial condition or results of operations.

Item 1A. Risk Factors.

For information regarding factors that could affect our results of operations, financial condition and liquidity, see risk factors disclosed in “Item 1A Risk Factors” of our Annual Report on Form 10-K, filed with the SEC on March 19, 2026. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially affect our business, financial condition and/or operating results. Except as set forth below, there have been no material changes during the three months ended March 31, 2026 to the risk factors set forth in “Item 1A. Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2025.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Except as described and as previously reported on our current reports on Form 8-K, we did not sell any securities during the period covered by this Quarterly Report on Form 10-Q that were not registered under the Securities Act.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

None.

Item 5. Other Information.

None.

Item 6. Exhibits

Exhibit Number	Description of Exhibits
31.1	Certification of Principal Executive Officer Pursuant to Rule 13a-14(a) and 15d-14(a) under the Securities Exchange Act of 1934, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.*
31.2	Certification of Principal Financial Officer Pursuant to Rule 13a-14(a) and 15d-14(a) under the Securities Exchange Act of 1934, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.*

**CERTIFICATION PURSUANT TO
RULES 13a-14(a) AND 15d-14(a) UNDER THE SECURITIES EXCHANGE ACT OF 1934,
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Thomas Sweeney, Chief Financial Officer of Antares Private Credit Fund, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Antares Private Credit Fund (the “registrant”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations, and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(c) Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter (the registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and

5. The registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s board of trustees (or persons performing the equivalent function):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.
